Greetings,

National Grid has received all required documentation regarding your 28.8 kW/AC PV system located at 1525 WAMPANOAG TR, RIVERSIDE, RI, 02915. Your system is now authorized to interconnect to and operate in parallel with the National Grid electric power system.

This authorization is based upon the Facility as described in the fully executed Interconnection Service Agreement dated 11/26/2019 and all related documentation. Please note that your obligation to report any proposed changes to the Facility (e.g., Facility ownership, type of technology, Facility equipment, etc.) is governed by all applicable tariffs and the rules and regulations of the Public Utilities Commission, including but not limited to the Companys Interconnection Tariff.

Please submit any changes to system ownership to:

Please refer to National Grids First Bill Walk Through for information about what to expect on your first bill with net metering credits: https://www9.nationalgridus.com/non_html/RI_DG_First_Bill.pdf.

advised that net metering credits may not be applied from the Host Account (where the net meter is located) to the recipient account until the following billing cycle. Account(s) receiving credits may need to wait an additional billing cycle before the net metering credits appear.

National Grid wishes you the best with your new system and hopes you get many productive years of use.

Sincerely,
National Grid
