		Facility Address: 268 Parkview Drive Building 2 Pawtucket, RI 02860		

Generation Unit is located in a control area adjacent to NEPOOL and, in a coordance with Section 5.1.ii of the RES Regulations, will apply the associated Generation Attributes to the RES only to the extent that the energy produced by the Generation Unit is actually delivered into NEPOOL for consumption by New England customers.
Comments:
C.2.1 Applicant acknowledges that satisfactory documentation (i.e., a report from neighboring Generation Attribute accounting system or an affidavit) must be provided to verify that Generation Attributes from a Generation Unit located in a control area adjacent to NEPOOL have not otherwise been, nor will be, sold, retired, claimed or represented as part of electrical energy output or sales, or used to satisfy obligations in jurisdictions other than Rhode Island (such assurances may consist of a report from a neighboring Generation Attribute accounting system or an affidavit from the Generation Unit).
☐ Yes ☐ No ☒ N/A
Comments:
C.2.2 Applicant acknowledges that energy delivered from such Generation Unit into NEPOOL will be verified by the following:
 A unit-specific bilateral contract for the sale and delivery of such energy into NEPOOL
 Confirmation from ISO that the energy was actually settled in the ISO Market Settlement System, and
 Confirmation through the North American Reliability Council tagging system that the import of the energy into NEPOOL actually occurred, or such other requirements as the Commission deems appropriate
