# Senate Resolution 416

Stakeholder meetings  
in PUC Docket No. 5000

1. PUC to undertake a docket with storage participation to study energy storage **value streams and compensation mechanisms**
2. PUC to report on whether **new tariffs or programs** are necessary to achieve energy storage goals
3. PUC adopt a **tariff framework** and installation target for energy storage resources

# Senate Resolution 416

1. PUC to undertake a docket with storage participation to study energy storage **value streams and compensation mechanisms**

- What products can storage provide?
- What products from storage do we want?
- 4600 Benefit Cost Framework (RI Test)

2. PUC to report on whether **new tariffs or programs** are necessary to achieve energy storage goals

- Designing a market for storage to offer its products and customers to buy them
- What storage products are we already buying through existing programs?

3. PUC adopt a **tariff framework** and installation target for energy storage resources

- Tariff framework = contracting rules for performance and exchange
- To be informed by initial market study

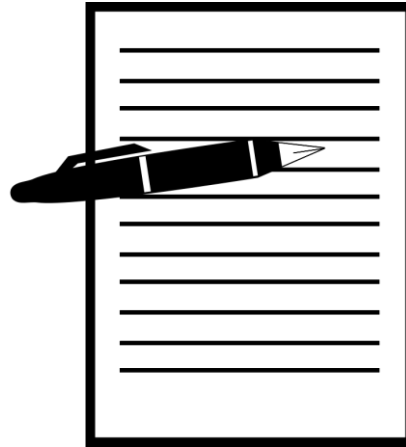

Initial  
Market  
Study

Tariff  
framework

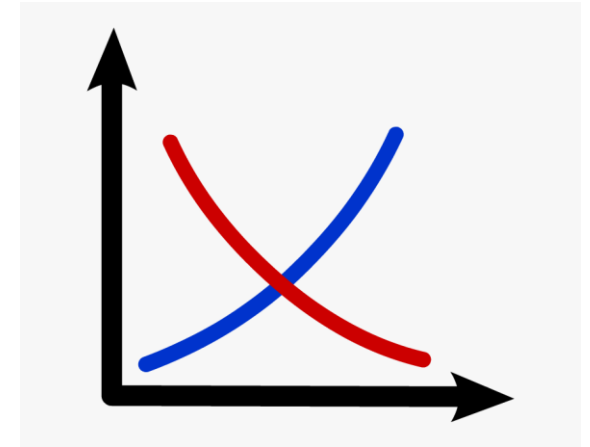

# Initial Market Study

Identify  
Needs

Define Products  
that can Serve  
those Needs

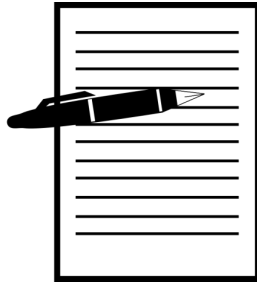

Design a market  
for the exchange  
of those products

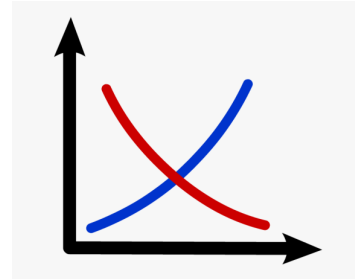

# Tariff (or Utility Program) Framework

Identify  
Needs

Define  
Products that  
can Serve  
those Needs

Design a  
market for the  
exchange of  
those products

**Terms and  
Conditions**
