Storm Fund Report for Calendar Year 2022

April 3, 2023

**The Narragansett Electric Company
d/b/a Rhode Island Energy
Storm Fund Report - Calendar Year 2022**

In compliance with the Rhode Island Public Utilities Commission (“PUC”) order in Docket No. 2509 regarding Storm Funds and the PUC order in Docket No. 4686 regarding the Company’s request for Storm Fund replenishment, The Narragansett Electric Company (the “Company” or “Rhode Island Energy”) submits the following annual Storm Fund Report.

Annual Escalation of the Storm Fund Threshold

Effective January 1, 2023, the new Storm Fund Threshold, calculated on Attachment 1 of this report, is **\$1,282,000**, an increase of **6.74** percent compared with the previous threshold of **\$1,201,000**. This is in accordance with the Joint Proposal and Settlement (Joint Proposal and Settlement) that was approved by the PUC in Docket No. 4686. The Threshold amount escalates every January 1 by the average inflation projection of the Consumer Price Index for All Urban Consumers (“CPI-U”) and the Gross Domestic Product Chain-Type Price Index (“GDP-CTPI”).

Annual Change in the Storm Fund Interest Rate

The interest rate to be applied to the Storm Fund for the period March 1, 2022, through February 28, 2023, is based upon the average of the monthly rates for the twelve-month period ended December 31, 2021, for 10-year Constant Maturity Treasury Bonds as reported by the Federal Reserve Board. As filed with the PUC on January 6, 2022, this average rate for the twelve-month period ended December 31, 2021, is **1.45** percent.

Incremental Attachment Fee Revenue

Pursuant to the Joint Proposal and Settlement, 50 percent of all revenue received from attachment and other telecommunication company fees for use of distribution plant in excess of \$850,000 annually is to be credited to the Company’s Storm Fund. In December 2022, **\$611,620** was credited to the Storm Fund pursuant to this provision.

Non-deferrable Storm Expense

Pursuant to the Amended Settlement Agreement approved by the PUC in Docket No. 4770, the amount of non-deferrable storm expense allowed for recovery through base distribution rates is set at \$3,194,000 annually, subject to the following: If the actual level of non-deferrable storm expense in any calendar year is greater than \$5,194,000, then the amount in excess of \$5,194,000 shall be charged to the Company's Storm Fund. If the actual level of non-deferrable storm expense in any calendar year is less than \$1,194,000, then the amount by which \$1,194,000 exceeds the actual non-deferrable storm expense in that calendar year is credited to the Company's Storm Fund. For Calendar Year 2022, costs related to the amount of non-deferrable storm expense are within the base distribution rate allowance of \$3,194,000 +/- the \$2 million collar, thereby requiring no adjustment to the Storm Fund.

Annual Report of Storm Fund Activity

Attachment 2 reflects a preliminary report of the annual Storm Fund activity, pending final accounting of storm costs incurred during the calendar year period. This report shows the opening balance of the Storm Fund, monthly contributions, monthly interest applied, preliminary charges and/or credits, other entries to the Storm Fund, and the closing balance of the Storm Fund.

Attachment 3 represents the monthly detail of the preliminary storm-related charges applied to the Storm Fund during calendar year 2022 by individual storm event. Details of the costs related to these qualifying Storm Fund storm events will be provided following final accounting.
