RE: Docket No. 22-20-NG - Gas Cost Recovery ("GCR") Filing Monthly Report of GCR Deferred Balances

Dear Ms. Massaro:

On behalf of Rhode Island Energy,<sup>1</sup> enclosed please find the Company's monthly report of gas costs and gas cost revenue data.

The enclosed deferred balance report covers the 12-month period from November 2022 through October 2023. Based on six months of actual data and six months of projected data, the projected deferred gas cost balance at the end of October 2023 is an under-recovery of approximately \$1.5 million (*see* attached Schedule 1, page 1). This calculation is based on the November 1, 2022 starting under-recovery balance of \$22.3 million<sup>2</sup> plus actual gas costs and gas cost revenue for November 2022 through April 2023, and projected gas costs and gas cost revenue for May through October 2023.

Details of this deferred balance report are provided in the attached schedules. Schedule 1 summarizes the deferred gas cost activity by GCR category and by month. Schedule 2 provides a breakdown of actual gas costs for November 2022 through April 2023, and projected gas costs for May through October 2023. Schedule 3 summarizes actual and estimated gas cost revenue for the period November 1, 2022 through October 31, 2023. Schedule 4 shows the calculation of working

<sup>&</sup>lt;sup>1</sup> The Narragansett Electric Company d/b/a Rhode Island Energy ("Rhode Island Energy" or the "Company").

<sup>&</sup>lt;sup>2</sup> This amount represents the ending balance at October 31, 2022 filed on November 18, 2022 in Docket No. 5180.

# Robinson+Cole

May 19, 2023 Page 2

capital. Schedule 5 presents the calculation of inventory finance charges. Schedule 6 presents customer class specific throughput.

The projected deferred under-recovery balance at the end of October 2023 of \$1.5 million is a decrease of approximately \$3.4 million compared to the projected deferred under-recovery balance of \$4.9 million from last month's deferred balance report. The \$3.4 million decrease in the projected deferred balance is due to a \$2 million decrease in GCR revenue for April 2023, a \$5.1 million decrease in actual gas cost for April 2023, a \$0.2 million decrease in forecasted gas costs for the period May through October 2023, and a \$0.1 million decrease in forecasted interest for the period May through October 2023.

The projected deferred under-recovery balance at the end of October 2023 of \$1.5 million represents approximately 1.0 percent of the Company's projected 2022-23 annual GCR revenue, which does not exceed the 5 percent criteria established for evaluating whether the Company's GCR factor should be revised (*see* the Company's tariff, R.I.P.U.C. NG-GAS No. 101, Section 2, Schedule A, Part 1.2).

Thank you for your attention to this matter. If you have any questions, please contact me at 401-709-3337.

Very truly yours,

Leticia C. Pimentel
