Report Suspicious

Dear Ms. Massaro,

I am writing on behalf of the Bristol Conservation Commission to voice our support for the above item, the Bristol Community Energy Aggregation plan.

As I testified at the Town Council meeting last year when it was introduced, we believe that the plan has the potential to save Bristolians money on their energy bills, especially given the fluctuations we're seeing with fossil fuel based electricity production. As importantly, it will ensure Bristol is doing our part to mitigate the harmful climate effects of fossil fuels by increasing the renewables production portion of our electricity consumption.

In summary, we urge the PUC to approve this application, so we can start realizing these benefits as quickly as possible.

Thank you.

Yours,

Tony Morettini
