Greetings,

National Grid has received all required documentation regarding your 2,100 kW/AC PV system located at 0 SMITHFIELD RD, NORTH PROVIDENCE, RI, 02904. Your system is now authorized to interconnect to and operate in parallel with the National Grid electric power system.

This authorization is based upon the Facility as described in the fully executed Interconnection Service Agreement dated 3/30/2017 and all related documentation. Please note that your obligation to report any proposed changes to the Facility (e.g., Facility ownership, type of technology, Facility equipment, etc.) is governed by all applicable tariffs and the rules and regulations of the Public Utilities Commission, including but not limited to the Company's Interconnection Tariff.

Please submit any changes to system ownership to:

Distributed.Generation@nationalgrid.com

Any changes to ownership information should be reported immediately to ensure that our records are up-to-date, that net metering credits are allocated appropriately, and legal and emergency notifications are issued correctly. Changes to ownership that need to be reported include, but are not limited to:

- A sale of the generating system to a third party owner
- A sale of the property at which the generating system is located (e.g. a new homeowner is moving into a house that hosts a net metered system)
- A change in the responsible party for the billing account (e.g. business mergers where the name of the business changes).

Please refer to National Grid's First Bill Walk Through for information about what to expect on your first bill with net metering credits: http://www.nationalgridus.com/non_html/MA_DG_First_Bill.pdf.

If you experience any billing issues, or need to update a Schedule Z, please contact National Grid:

- E-Mail: commercial.accounts@nationalgrid.com
- Customer Service: (800) 322-3223

If you have elected to allocate net metering credits to other accounts, be advised that net metering credits may not be applied from the Host Account (where the net meter is located) to the recipient account until the

following billing cycle. Account(s) receiving credits may need to wait an additional billing cycle before the net metering credits appear.

National Grid wishes you the best with your new system and hopes you get many productive years of use.

Sincerely,

National Grid
