RENEWABLE ENERGY RESOURCES ELIGIBILITY INCLIME, INC. TEAM RECOMMENDATION

For Consideration By The STATE OF RHODE ISLAND PUBLIC UTILITIES COMMISSION

(Version 10 – November 9th, 2016)

Date: 11/16/2023 Docket #: RES-23-31 **Application Received:** 9/27/2023 **Generation Unit Information: Unit Name:** The DFI Group **Unit Owner:** The DFI Group Unit Size (nameplate MW): .625 MW AC/.84216 MW DC Unit Size (max. demonstrated MW): .625 MW AC/.84216 MW DC Location (city, state): Cranston, RI **Commercial Operation Date:** 03/21/2023 Type of Certification Requested: ☐ Prospective Certification (Declaratory Judgment) **Generation Type and Technology Information:** (check all that apply) ☐ Repowered Project ☐ Incremental Generation ☐ Incremental Intermittent □ Customer-Sited or Off-Grid System (or associated aggregations) ☐ Generation Unit Located in Control Area Adjacent to NEPOOL: XXXX Solar □ Wind □ Ocean Thermal □ Geothermal □ Small Hydro ☐ Eligible Biomass ☐ Unlisted Biomass ☐ Biomass (fossil co-fired/multi-fuel) ☐ Fuel Cell (using an eligible renewable resource) Recommendation: ☐ Existing Renewable Energy Resource ☐ New Renewable Energy Resource ☐ Capable of Producing as Both Existing & New Renewable Energy Resource Comments: RECOMMENDATIONS AND APPROVALS: REQUIRED **DOCUMENTATION** – Approval recommended.

RENEWABLE ENERGY RESOURCES ELIGIBILITY INCLIME, INCTEAM RECOMMENDATION

For Consideration By The STATE OF RHODE ISLAND PUBLIC UTILITIES COMMISSION (page 2 of 2)

Primary Contact Name, Numbers and Address:

Name and title: Stuart, Principal

Address: 316 Columbia Street Wakefield, RI 02879

Phone: 4016195906

Email: sflanagan@nptre.com

Backup Contact Name, Numbers and Address:

Name and title: Molly Esau, Regulatory & HR Manager Address: 316 Columbia Street Wakefield, RI 02879

Phone: 4016195906 Email: mesau@nptre.com

Authorized Representative Name, Numbers and Address:

Name and title: Frank DeFruscio, President

Company: The DFI Group

Address: 1425 Cranston Street Cranston, RI 02920

Phone: 4019439900

Email: frankd@difruscia.com

Owner Name, Numbers and Address:

Name and title: Frank DeFruscio, President

Company: The DFI Group

Address: 1425 Cranston Street Cranston, RI 02920

Phone: 4019439900

Email: frankd@difruscia.com

Operator Name, Numbers and Address:

Name and title: Frank DeFruscio, President

Company: The DFI Group

Address: 1425 Cranston Street Cranston, RI 02920

Phone: 4019439900

Email: frankd@difrucia.com

RENEWABLE ENERGY RESOURCES ELIGIBILITY DETAILED INCLIME. INC TEAM APPLICATION REVIEW RESULTS

(Template V10 – November 9th, 2016) **Date of Final Review:** 11/16/2023

Note: Depending on the type of application (project vintage, type, location, fuel source, etc.) not all of these data items will be applicable.

,			
A.	Renewable Energy Resource – Vintage (see appropriate Sections of RES Regulations, Application Sections 3.1-3.9 and Appendix C):		
		Generation Unit meets the definition of an Existing larce noted in RES Regulations Section 3.10 (first enterior before 12/31/1997).	
	Comm	,	☐ Yes ☒ No ☐ N/A
		Generation from the Unit meets one of the def	
	Comm	nents: ATI provided, dated 3/21/2023	
		A.2.1 If Generation Unit is at a new site, adequate provided to ensure that it first entered community December 31, 1997.	
		Comments: ATI dated 3/21/2023	⊠ Yes □ No □ N/A
		A.2.2 If Generation Unit is at the site of an Existing Resource, adequate documentation is provided entered commercial operation after December 3 Existing Renewable Energy Resource has been resuch new Generation Unit.	to ensure that it first 1, 1997 and that the
		Comments:	☐ Yes ☐ No ☒ N/A
		A.2.3 If a Repowered Generation Unit (as defined RES Regulations – complete replacement of Fincrease in efficiency or material decrease in demonstration that at least 80% of resulting ta Generation Unit's plant and equipment is derived from made after December 31, 1997), adequate documensure that the entire output of said unit first entere after December 31, 1997 at the site of existing Generation Unit's plant and equipment is derived from the site of existing Generation Unit (as defined RES RESULTED AND ADDRESS RESULTED ADDRESS RESULTED ADDRESS RESULTED AND ADDRESS RESULTED ADDRES	Prime Mover, material air emissions, and ax basis of the entire om capital expenditures nentation is provided to d commercial operation
		Comments:	
		A.2.4 If a multi-fuel facility, adequate documentation	on is provided to ensure

that the renewable energy fraction of output from a Generation Unit in which an Eligible Biomass Fuel is first co-fired with fossil fuels after December 31,

		Comments: A.2.5 If Incremental Output from a non-Intermitter Energy Resource, adequate documentation is provid output is attributable to capital investments for effici additions of capacity that were demonstrably comp 31, 1997 and that are sufficient to, were interdemonstrated to increase annual electricity output in (10%) over a Historical Generation Baseline as do 3.23.v of the RES Regulations. Comments: A.2.6 If Incremental Output from an Intermittent Energy Posseurce, adequate decumentation is provided.	ed to ensure that such fency improvements or pleted after December nded to, and can be n excess of ten percent etermined per Section Yes No N/A
		Energy Resource, adequate documentation is provid output is attributable to capital investments for effici additions of capacity that were demonstrably compattern and that are sufficient to, were interdemonstrated to increase annual electricity output in (10%) over a Historical Generation Baseline as decrease of the RES Regulations.	ency improvements or pleted after December anded to, and can be an excess of ten percent etermined per Section
		Comments:	☐ Yes ☐ No ☒ N/A
B.		e Customer-Sited/Off-Grid Generation Facility: propriate Sections of RES Regulations, Application S dix D)	Section 5 and ⊠ Yes □ No □ N/A
	are crea	Adequate documentation provided to ensure that NE ated by way of an aggregation of Generation Units, por Rhode Island, using the same generation tions Section 6.8.i).	physically located in the
	Comm	ents:	⊠ res □ NO □ N/A
		Proposed Aggregation Agreement (as specified in Setions) is reasonable and complete.	
	Comm	ents:	
		B.2.1 Aggregation Agreement includes name and caggregator owner. (per Application Appendix D.2.a) Comments: Frank DeFruscio, The DFI Group, 1425 on, RI 02920, 401-943-9900, frankd@difrusica.com	⊠ Yes □ No □ N/A

B.2.2 Aggregation Agreement includes name and contact information and adequate evidence of qualifications of the Verifier to ensure that the Verifier will accurately and efficiently carry out its duties. (per Appendix D.2.b) ☑ Yes ☐ No ☐ N/A
Comments: Tyler Mercer, AlsoEnergy, 5400 Airport Blvd, Ste 100, Boulder, CO 80301, 866-303-5668, reporting@alsoenergy.com
B.2.2.1 Additional evidence of Verifier qualifications requested and provided. (per Appendix D.2.b)
⊠ Yes □ No □ N/A Comments:
Comments.
B.2.3 Aggregation Agreement includes a declaration of any and all business or financial relations between aggregator and Verifier sufficient to ensure the independence of the Verifier in accordance with Section 6.8.iii.c of the RES Regulations (10% or more ownership in voting stock, or family officer/etc.). (per Appendix D.2.c)
⊠ Yes □ No □ N/A
Comments: The Site Owner has paid the Verifier a fixed fee for 5 years of production verification services. The Site Owner has no other relationship to the Verifier or its employees.
B.2.3.1 Aggregation Agreement includes statement indicating under what circumstances the Verifier would not be considered sufficiently independent of the individual Generation Unit, and that Generation Units not meeting this independence test would not be allowed to participate in the aggregation. (per Appendix D.2.c.1) ☑ Yes □ No □ N/A
Comments:
B.2.4 Aggregation Agreement identifies the type of technology that will be included in the aggregation and provides a statement that the aggregation will include only individual Generation Units that meet all the requirements of the RES Regulations (physical location, vintage, etc.). (per Appendix D.2.d)
› Yes □ No □ N/A
Comments: Solar PV. The aggregation will include only this generation unit which meets the requirements of these regulations.
B.2.5 Aggregation Agreement provides an adequate description of proposed operating procedures for the aggregation, by which the Verifier shall ensure that individual Generation Units in the aggregation comply with all eligibility requirements and that the NEPOOL GIS Certificates created accurately represent generation (see Section 6.8.iii.e of the RES Regulations). (per Appendix D.2.e) □ Yes □ No □ N/A
Comments: As the Generation Unit owner, DFI Group, LLC, takes
responsibility for the registration, coordination, and compliance of all

eligibility requirements. Using the AlsoEnergy Powertrack system, DFI Group is able to confirm that NEPOOL GIS Certificates accurately represent generation. Also Energy is able to comply with all requirements mentioned in D.2(e).

B.2.5.1 At a minimum the proposed operating procedures include reasonable and sufficient details for: Determining that the Generation Unit exists and is in compliance with RES Regulations and Commissionapproved Aggregation Agreement. \boxtimes Yes \square No \square N/A Meter reading procedure that allows the Verifier to verify these readings (manual or remote, via the aggregators own system or an independent system) in a manner fully compliant with NEPOOL GIS Operating Rules regarding metering. Specifying how generation data will be entered into NEPOOL GIS to create Certificates. ⋈ Yes □ No □ N/A Documenting a procedure to verify independently that the GIS Certificates created for the aggregation are consistent with the meter readings. Correcting discrepancies in NEPOOL GIS Certificate generation identified by the Verifier. ⊠ Yes □ No □ N/A Comments: **B.2.6** Aggregation Agreement provides an adequate description of how the Verifier will be compensated for its services by the aggregator (in no instance is the Verifier is compensated in a manner linked to the number of NEPOOL GIS Certificates created by the aggregation). (per Appendix D.2.f) ⊠ Yes □ No □ N/A **Comments:** The verifier will be compensated under an annual service agreement with the Generation Unit owner, for a flat fee. **B.2.7** Aggregation Agreement provides an adequate confirmation and a description of how, no less frequently than quarterly, the Verifier will directly energy into the NEPOOL GIS the quantity of energy production in the applicable time period from each Generation Unit in the aggregation. The entry of generation data by the Verifier must be through an interface designated for this purpose by the NEPOOL GIS and in accordance with NEPOOL GIS Operating Rules applicable to Third-Party Meter Readers, and to which the Aggregation Owner shall not have access. (per Appendix

Comments: Generation data from the onsite production meter will be collected either over the internet, or by taking a time-stamped photo of the

D.2.g)

onsite production meter,and will be entered quarterly into the NEPOOL GIS system by the Verifier only.

C.		ration Unit Location (see appropriate Sections of RES Regulation Section 5 and Appendix E):	ılations,
	C.1	Generation Unit is located in NEPOOL Control Area.	⊠ Yes □ No
