RENEWABLE ENERGY RESOURCES ELIGIBILITY INCLIME, INC. TEAM RECOMMENDATION

For Consideration By The STATE OF RHODE ISLAND PUBLIC UTILITIES COMMISSION

(Version 10 – November 9th, 2016)

Date: 10/30/2023	D	ocket #:	RES-23-32
Application Received: 9/27/2023			
Generation Unit Information: Unit Name: A Street 1 - Johnston Solar Facility Unit Owner: Captona - A Street 1 - Johnston, LLC Unit Size (nameplate MW): 1.2 MW AC/1.5912 MW DC demonstrated MW): 1.2 MW AC/1.5912 MW DC Location (city, state): Johnston, RI	Unit	Size	(max.
Commercial Operation Date: 12/06/2018			
Type of Certification Requested: ☐ Standard Certification ☐ Prospective Certification (Declaratory Judgment)			
Generation Type and Technology Information: (check all to Repowered Project □ Incremental Generation □ Incremental □ Generation □ Unit Located in Control Area Adjacent to NEPO □ Solar □ Wind □ Ocean Thermal □ Geothermal □ Solar □ Eligible Biomass □ Unlisted Biomass □ Biomass (fossil Cell (using an eligible renewable resource)	ental Intental Intent	ermittent XX ro	□ Fuel
Recommendation: ☑ Approve (GIS Certification #: NON131297) ☐ Rejection □ Existing Renewable Energy Resource ☑ New Renewable ☐ Capable of Producing as Both Existing & New Renewable	e Energy	Resource	•
Comments: Approval Recommended			

RENEWABLE ENERGY RESOURCES ELIGIBILITY INCLIME, INCTEAM RECOMMENDATION

For Consideration By The STATE OF RHODE ISLAND PUBLIC UTILITIES COMMISSION (page 2 of 2)

Primary Contact Name, Numbers and Address:

Name and title: Roshni Mali, Managing Partner

Address: 675 Third Avenue 3004 New York, NY 10017

Phone: 646-606-2208

Email: trading@captonapartners.com

Backup Contact Name, Numbers and Address:

Name and title: Nigel Arkais, Asset Manager

Address: 675 Third Avenue 3004 New York, NY 10017

Phone: 646-606-2208

Email: trading@captonapartners.com

Authorized Representative Name, Numbers and Address:

Name and title: Roshni Mali, Manager

Company: Captona - A Street 1 - Johnston, LLC

Address: 675 Third Avenue 3004 New York, NY 10017

Phone: 646-606-2208

Email: trading@captonapartners.com

Owner Name, Numbers and Address:

Name and title: Izzet Bensusan, Manager

Company: Captona - A Street 1 - Johnston, LLC

Address: 675 Third Avenue 3004 New York, NY 10017

Phone: 646-606-2208

Email: trading@captonapartners.com

Operator Name, Numbers and Address:

Name and title: Roshni Mali, Manager

Company: Captona - A Street 1 - Johnston, LLC

Address: 675 Third Avenue 3004 New York, NY 10017

Phone: 646-606-2208

RENEWABLE ENERGY RESOURCES ELIGIBILITY DETAILED INCLIME. INC TEAM APPLICATION REVIEW RESULTS

(Template V10 – November 9th, 2016) **Date of Final Review:** 10/13/2023

Note: Depending on the type of application (project vintage, type, location, fuel source, etc.) not all of these data items will be applicable.

,		••	
Α.		vable Energy Resource – Vintage (see appropriate Seations, Application Sections 3.1-3.9 and Appendix C):	ections of RES
		Generation Unit meets the definition of an Existing Firce noted in RES Regulations Section 3.10 (first enterion before 12/31/1997).	
	Comn	,	☐ Yes ☒ No ☐ N/A
	•		
	A.2 Renev	Generation from the Unit meets one of the defivable Energy Resource in RES Regulations Section 3	3.23.

B.2.2 Aggregation Agreement includes name and contact information and adequate evidence of qualifications of the Verifier to ensure that the Verifier will accurately and efficiently carry out its duties. (per Appendix D.2.b) ☑ Yes ☐ No ☐ N/A
Comments: Tyler Mercer, AlsoEnergy Inc, 5400 Airport Blvd, Ste 100, Boulder, CO 80301, 866-303-5668, reporting@alsoenergy.com
B.2.2.1 Additional evidence of Verifier qualifications requested and provided. (per Appendix D.2.b) ⊠ Yes □ No □ N/A
Comments: AlsoEnergy is an independent performance monitoring provider and reporting service provider who handles independent data reporting for 13 U.S. based incentive-based programs. Regarding NEPOOL GIS, AlsoEnergy is an approved Independent Verifier at the NEPOOL GIS who is reporting data for SREC/REC purposes in the following States: Connecticut, Massachusetts, Maine, New Hampshire, Vermont, and Rhode Island. In regards to actual data reporting to NEPOOL GIS, AlsoEnergy's software has an automated reporting feature which detects anomalies in revenue grade production meter kWh data. In the event there is an anomaly, AlsoEnergy has a dedicated reporting and support team to review and verify data prior to submitting to NEPOOL GIS.
B.2.3 Aggregation Agreement includes a declaration of any and all business or financial relations between aggregator and Verifier sufficient to ensure the independence of the Verifier in accordance with Section 6.8.iii.c of the RES Regulations (10% or more ownership in voting stock, or family officer/etc.). (per Appendix D.2.c)
⊠ Yes □ No □ N/A
Comments: AlsoEnergy provides independent monitoring and reporting services. AlsoEnergy works closely with the contracted installer and/or the end user to integrate their data acquisition system (DAS) in order to monitor and report production data to responsible agencies such as NEPOOL GIS. The DAS AlsoEnergy provides include metering equipment and software which is integrated with the PV system installation. Also Energy employs only revenue-grade meters provided by qualified suppliers. Although AlsoEnergy sells equipment to be used in conjunction with the PV system, by no means does AlsoEnergy hold a direct or indirect ownership in the renewable energy source. AlsoEnergy has no financial interest and receives no compensation in Renewable Energy Certificates (RECs) generated by any source using AlsoEnergy as the independent monitor. AlsoEnergy shall not receive compensation for monitoring services that is a function of the number of certificates issued to any source using its independent monitor

B.2.3.1 Aggregation Agreement includes statement indicating under what circumstances the Verifier would not be considered sufficiently independent of the individual Generation Unit, and that Generation Units not meeting this independence test would not be allowed to participate in the aggregation. (per Appendix D.2.c.1) ⊠ Yes □ No □ N/A
Comments:
B.2.4 Aggregation Agreement identifies the type of technology that will be included in the aggregation and provides a statement that the aggregation will include only individual Generation Units that meet all the requirements of the RES Regulations (physical location, vintage, etc.). (per Appendix D.2.d)
Comments: This is a solar PV project. All units meet the requirements of these regulations and all generators are of the same technology.
B.2.5 Aggregation Agreement provides an adequate description of proposed operating procedures for the aggregation, by which the Verifier shall ensure that individual Generation Units in the aggregation comply with all eligibility requirements and that the NEPOOL GIS Certificates created accurately represent generation (see Section 6.8.iii.e of the RES Regulations). (per Appendix D.2.e) □ Yes □ No □ N/A
⊠ les □ No □ N/A
Comments: AlsoEnergy will access and collect energy production through a revenue grade production meter taking measurements directly from the systems AC current lines. This data then passes through either modbus/RS485, TCP/IP, or FTP push protocols to a compatible data logging gateway device.
B.2.5.1 At a minimum the proposed operating procedures
include reasonable and sufficient details for: • Determining that the Generation Unit exists and is in compliance with RES Regulations and Commission-approved Aggregation Agreement.
⊠ Yes □ No □ N/A
 Meter reading procedure that allows the Verifier to verify these readings (manual or remote, via the aggregators own system or an independent system) in a manner fully compliant with NEPOOL GIS Operating Rules regarding metering.
⊠ Yes □ No □ N/A
 Specifying how generation data will be entered into NEPOOL GIS to create Certificates.
✓ Yes ☐ No ☐ N/A

C.

Comments:

C.2.1 Applicant acknowledges that satisfactory documentation (i.e., a report from neighboring Generation Attribute accounting system or an affidavit) must be provided to verify that Generation Attributes from a Generation Unit located in a control area adjacent to NEPOOL have not otherwise been, nor will be, sold, retired, claimed or represented as part of electrical energy output or sales, or used to satisfy obligations in jurisdictions other than Rhode Island (such assurances may consist of a report from a neighboring Generation Attribute accounting system or an affidavit from the Generation Unit).

Comments:

- **C.2.2** Applicant acknowledges that energy delivered from such Generation Unit into NEPOOL will be verified by the following:
 - A unit-specific bilateral contract for the sale and delivery of such energy into NEPOOL
 - Confirmation from ISO that the energy was actually settled in the ISO Market Settlement System, and
 - Confirmation through the North American Reliability Council tagging system that the import of the energy into NEPOOL actually occurred, or such other requirements as the Commission deems appropriate
