Re: Dry Bridge Brown Generation Unit – Docket No. RES-23-12 – REVISED APPROVAL

Dear Ms. Rollins,

The Rhode Island Public Utilities Commission (Commission) has completed its review of the supplemental documentation submitted on June 24, 2024, July 8, 2024 and July 9, 2024 regarding the Dry Bridge Brown Generation Unit(s). The assigned NEPOOL-GIS Asset Identification Number NON184593 was incorrect and has been rejected. The correct NEPOOL-GIS Asset Identification Numbers have been provided and Commission Staff has amended the assigned unique Rhode Island Public Utilities Commission Eligible Renewable Energy Resource Facility Certification Number(s) as follows:

Table with 3 columns: Unit ID, Plant - Unit, and RI RES Certification Number. It lists four units: MSS71608, MSS71609, MSS71610, and MSS71611, each with their respective plant names and certification numbers.

Commission Staff has determined that the supplied documentation complies with the terms of the conditional eligibility authorized in Order No. 24749. Renewable Energy Certificates associated with the production of energy from the Dry Bridge Brown Generation Unit which are minted on or after June 24, 2024, remain eligible for the Rhode Island Renewable Energy Standard. Our clerk, Luly Massaro, can be reached at (401) 780-2107 should you have any questions regarding this matter.

Sincerely,

[Handwritten signature of Todd Anthony Bianco]

Todd Anthony Bianco
Chief Economic and Policy Analyst

cc: Administrator, NEPOOL GIS
