

**STATE OF RHODE ISLAND
ENERGY FACILITY SITING BOARD**

IN RE: THE NARRAGANSETT ELECTRIC COMPANY'S NOTICE OF INTENT APPLICATION FOR THE TIVERTON TAP REBUILD PROJECT IN TIVERTON, RHODE ISLAND – DOCKET NO. SB-2024-02

NOTICE OF PUBLIC COMMENT HEARING

Pursuant to the provisions of R.I. Gen. Laws § 42-98-7 and 42-98-9.1 and Rule 1.6(F) of the Energy Facility Siting Board's ("Board") Rules of Practice and Procedure, the Board will conduct a **public hearing at 6 pm on August 21, 2024 at the Tiverton Hearing Room, Tiverton Town Hall, 343 Highland Road, Tiverton, Rhode Island 02878.**

At the hearing, the Board will hear public comment on Docket No. SB-2024-02 regarding The Narragansett Electric Company's ("Company") Notice of Intent Application for the proposed rebuild of the L14 and M13 115 kV Tiverton Tap transmission lines ("Lines"). Specifically, the Company is proposing to rebuild an approximately 2.1 mile section of the Lines extending south from the Fall River, Massachusetts and Tiverton, Rhode Island state border to the existing Tiverton Substation located off of Fish Road in Tiverton (the "Project"). The Company states that the Project is needed to improve the condition and performance of the Lines, and all work will occur within the existing right-of-way. The Project components include: rebuilding and reconductoring the existing Lines (a distance of approximately 2.1 miles); replacing 58 structures; replacing existing overhead shield wire with new overhead Optical Ground Wire; and restoring and stabilizing the affected areas within the right-of-way. Detailed images of the proposed Project route (including adjacent properties) can be found in "Siting Report – Volume II" available on the docket page at: <https://ripuc.ri.gov/Docket-SB-2024-02>. The Company argues that any impact the proposed Project may have on the natural and/or social environment will be negligible. Therefore, the Company requests the Board determine that the Project does not constitute an alteration to a major energy facility and that it is not subject to the full EFSB permitting process.

Section 1.6(G) of the Board's Rules of Practice and Procedure provides that the Board shall "hold a public hearing in one or more of the cities or towns affected by an application..." After the public comment hearing, the Board shall "determine whether the project may result in a significant impact on the environment or the public health, safety and welfare and therefore shall be treated as an alteration," per Section 1.6(H). The Board will conduct a public comment hearing in Tiverton and welcomes the participation of its residents.

All of the materials filed in this proceeding are on file and available for public review at the Board office located within the Public Utilities Commission office building at 89 Jefferson Boulevard, Warwick, Rhode Island. The materials are also available online at: <https://ripuc.ri.gov/Docket-SB-2024-02>.

The Tiverton Town Hall is accessible to the handicapped. Requests for interpreter services for the hearing impaired must be made to the Coordinator at 89 Jefferson Boulevard, Warwick, 401-780-2108, Kristen.L.Masse@puc.ri.gov at least 72 hours in advance of the hearing.
