Re: EFSB Docket No. SB-2021-04
Notice of Temporary Mobilization of LNG Equipment
111 Old Mill Lane, Portsmouth, Rhode Island

Dear Ms. Masse:

Pursuant to the Rhode Island Energy Facility Siting Board's Order No. 147, at 11 n.5, The Narragansett Electric Company d/b/a Rhode Island Energy (the "Company") is hereby providing notice that it will be mobilizing liquified natural gas ("LNG") equipment at its property located at 111 Old Mill Lane, Portsmouth (the "Facility") to support the natural gas supply to Aquidneck Island. This mobilization is needed as a supply to the natural gas distribution system during the transmission pipeline owner's scheduled maintenance and installation work on the lateral pipeline that supplies Aquidneck Island ("AGT Project").

Consistent with previous mobilizations, the Company has reviewed the upcoming mobilization with the administrators and emergency responders for the Towns of Portsmouth and Middletown. The Company will mail the notice to the abutters of the upcoming mobilization the week of September 9. Attached as Exhibit A is a copy of the notice.

The Company will setup the Facility the week of September 16. Security will be present twenty-four hours a day, seven days a week. The Facility is needed to support the AGT Project until mid-October. In light of the timing of this mobilization, the Company will keep the Facility in place for the remainder of October and November, but it will not actively store LNG onsite until mid to late November. It is expected that this will avoid the noise and traffic impacts associated with demobilization and later remobilization for the upcoming heating season.

EXHIBIT A

September 9, 2024

Dear Neighbor,

Algonquin Gas Transmission, the owner and operator of the transmission pipeline that feeds Aquidneck Island, will be performing a pipeline maintenance project in Portsmouth and Little Compton that will install a new replacement pipeline that feeds Aquidneck Island, during September and October 2024 (“AGT Project”). During this time, Rhode Island Energy (“RIE”) and its contractors will locate liquefied natural gas (“LNG”) equipment on its Old Mill Lane property to provide natural gas supply in support of the AGT Project.

Although the RIE setup will be similar to previous LNG mobilizations for Algonquin maintenance and our recent Winter Operations at Old Mill Lane, due to the timing of the AGT Project, once the inspection is complete, the LNG equipment will remain on site for the upcoming 2024/2025 Winter Operations.

The purpose of Rhode Island Energy’s Winter Operations at Old Mill Lane is to reinforce the natural gas system reliability for Aquidneck Island during the winter season. This setup will allow for additional gas supplies to be accessed if it is needed to meet customer demand. RIE and other key stakeholders see this winter mobilization as a prudent effort to meet our commitment to the customers and communities we serve.

Please feel free to reach out to me if you have any questions or concerns. The easiest way to reach me is by phone at 401-784-4320 or by email at JRAfonso@RIEnergy.com.

Regards,

Jacques R. Afonso
Manager, External Affairs, RI
Rhode Island Energy

Certificate of Service

I hereby certify that a copy of the cover letter and any materials accompanying this certificate were electronically transmitted to the individuals listed below.

The paper copies of this filing are being hand delivered to the Rhode Island Public Utilities Commission and to the Rhode Island Division of Public Utilities and Carriers.
