**RE: Docket No. 23-34-EL Storage Letter of Qualification and Commitment**

Dear Ms. De LaRosa,

PosiGen Developer, LLC (“PosiGen”) would like to participate as a designated stakeholder in Docket 23-34-EL, specifically in sub-docket 24-34-EL-I. PosiGen is a residential solar and energy storage provider that focuses on serving low-and-moderate income communities. We are interested in ensuring that the interconnection tariff for energy storage systems further enhances the ability of households to add energy storage, whether on a standalone basis or paired with solar. PosiGen has offered energy storage to our customers in Connecticut and Louisiana and intends to extend that to Rhode Island in the future.

If granted, PosiGen will actively participate in good faith at any meetings, panels, and opportunities for written comments. PosiGen’s primary contact for this docket will be Kyle Wallace ([kwallace@posigen.com](mailto:kwallace@posigen.com)).

Respectfully submitted,

*/s/ Kyle Wallace*
