RE: Withdrawal from Docket No. 24-34-EL

Dear Ms. De LaRosa,

PosiGen Developer, LLC (“PosiGen”) respectfully requests to withdraw its status as a designated stakeholder in Docket No. 24-34-EL-I. Based on the information that was in the Notice opening the docket, we believed that the proceeding would potentially impact the types of projects that PosiGen develops. However, after attending the first technical meeting, reviewing the request for comments, and discussing the topics with other docket participants it is now clear that the focus will be on types of energy storage projects that PosiGen does not have experience developing and therefore PosiGen will not be able to provide meaningful input throughout this proceeding.

Please contact me if there are any questions.

Respectfully submitted,

/s/ Kyle Wallace
