

# Barrington Community Electricity Annual Program Report

Docket No. 5047  
May 2024 - May 2025

---

## 1. Number of Accounts Served<sup>1</sup>

<b>Program Benchmark</b>	<b>Total Accounts Served</b>
May 2024 Meter Read	5,415
May 2025 Meter Read	5,372

## 2. Opt-Outs

<b>Program Benchmark</b>	<b>Affirmative Opt-Outs<sup>2</sup></b>
Program Sweep Mailed July 2024	21
Program Sweep Mailed November 2024	21
Program Sweep Mailed February 2025	15
Program Sweep Mailed May 2025	8
<b>Total</b>	<b>65</b>

## 3. Electricity Sales

<b>Term</b>	<b>Total kWh sold</b>
May 2024 - May 2025	43,493,803

---

<sup>1</sup> While the Order references the total number of “customers” served, “accounts” served more accurately reflects participants in the program.

<sup>2</sup> This number represents affirmative opt-outs of the Program (mail-in opt-out card, website form, phone).

## 4. Program Migration

Term	Total Migrated Accounts <sup>3</sup>
May 2024 - May 2025	431

## 5. Product Rates and Details

Product Name	Rate (in ¢/kWh)	Voluntary RI New Renewable Energy	Total Renewable Energy	Electricity Supplier	Term <sup>4</sup>
Barrington Standard	10.291 ¢/kWh - Residential 9.685 ¢/kWh - Commercial	5%	33%	NextEra Energy Services Rhode Island, LLC	May - November 2024
	8.721 ¢/kWh - Industrial	5%	33%	NextEra Energy Services Rhode Island, LLC	May - August 2024
	8.714 ¢/kWh - Industrial	5%	33%	NextEra Energy Services Rhode Island, LLC	August - November 2024
	16.287 ¢/kWh - Residential 15.843 ¢/kWh - Commercial	5%	33% in 2024 39% in 2025	NextEra Energy Services Rhode Island, LLC	November 2024 - May 2025
	14.383 ¢/kWh - Industrial	5%	33% in 2024 39% in 2025	NextEra Energy Services Rhode Island, LLC	November 2024 - February 2025

<sup>3</sup> This number represents all accounts that left the program during the year, including accounts that were closed (i.e., canceled service entirely or moved to a new location). Good Energy was unaware of Supplier's inability to filter out such closed accounts when proposing the annual program reporting requirements.

<sup>4</sup> Each term begins and ends on meter reads for months shown.

	14.553 ¢/kWh - Industrial	5%	39%	NextEra Energy Services Rhode Island, LLC	February - May 2025
	10.014 ¢/kWh - Residential 10.003 ¢/kWh - Commercial	5%	39%	NextEra Energy Services Rhode Island, LLC	May - November 2025
	9.584 ¢/kWh - Industrial	5%	39%	NextEra Energy Services Rhode Island, LLC	May - August 2025
Barrington Basic	10.048 ¢/kWh - Residential 9.442 ¢/kWh - Commercial	0%	28%	NextEra Energy Services Rhode Island, LLC	May - November 2024
	8.487 ¢/kWh - Industrial	0%	28%	NextEra Energy Services Rhode Island, LLC	May - August 2024
	8.481 ¢/kWh - Industrial	0%	28%	NextEra Energy Services Rhode Island, LLC	August - November 2024
	16.044 ¢/kWh - Residential 15.601 ¢/kWh - Commercial	0%	28% in 2024 34% in 2025	NextEra Energy Services Rhode Island, LLC	November 2024 - May 2025
	14.150 ¢/kWh - Industrial	0%	28% in 2024 34% in 2025	NextEra Energy Services Rhode Island, LLC	November 2024 - February 2025
	14.320 ¢/kWh - Industrial	0%	34%	NextEra Energy Services Rhode Island, LLC	February - May 2025
	9.771 ¢/kWh -	0%	34%	NextEra	May - November

	Residential 9.762 ¢/kWh - Commercial			Energy Services Rhode Island, LLC	2025
	9.350 ¢/kWh - Industrial	0%	34%	NextEra Energy Services Rhode Island, LLC	May - August 2025
Barrington 50	11.116 ¢/kWh - Residential 10.509 ¢/kWh - Commercial	22%	50%	NextEra Energy Services Rhode Island, LLC	May - November 2024
	9.513 ¢/kWh - Industrial	22%	50%	NextEra Energy Services Rhode Island, LLC	May - August 2024
	9.507 ¢/kWh - Industrial	22%	50%	NextEra Energy Services Rhode Island, LLC	August - November 2024
	16.899 ¢/kWh - Residential 16.448 ¢/kWh - Commercial	22% in 2024, 16% in 2025	50%	NextEra Energy Services Rhode Island, LLC	November 2024 - May 2025
	15.039 ¢/kWh - Industrial	22% in 2024, 16% in 2025	50%	NextEra Energy Services Rhode Island, LLC	November 2024 - February 2025
	15.066 ¢/kWh - Industrial	16%	50%	NextEra Energy Services Rhode Island, LLC	February - May 2025
	10.548 ¢/kWh - Residential 10.531 ¢/kWh - Commercial	16%	50%	NextEra Energy Services Rhode Island, LLC	May - November 2025
	10.098 ¢/kWh - Industrial	16%	50%	NextEra Energy	May - August 2025

				Services Rhode Island, LLC	
Barrington 100	13.545 ¢/kWh - Residential 12.932 ¢/kWh - Commercial	72%	100%	NextEra Energy Services Rhode Island, LLC	May - November 2024
	11.846 ¢/kWh - Industrial	72%	100%	NextEra Energy Services Rhode Island, LLC	May - August 2024

**Notes**

- All electricity generated within the ISO New England (ISO-NE) control area and fed on to the New England grid, as well as electricity exchanged between ISO-NE and adjacent control areas, is tracked via the New England Power Pool (NEPOOL) Generation Information System (GIS). For each megawatt hour (MWh) of electricity generated within or exchanged between the ISO-NE control area, whether renewable or not, one serial-numbered, electronic GIS certificate is created. The GIS certificate represents all attributes of characteristics, such as fuel source, air emissions, location, etc. of that one MWh of electricity. The information in this Energy Source Disclosure is based on GIS Certificates obtained and retired by the Supplier.
- Renewable Energy Standard (RES): is defined in the R.I. Gen Laws 39-26. The GIS certificates are retired by June 15th of the following year. This is calculated by multiplying the retired certificates for each power source by the renewable energy standard percentage of the product.
- Voluntary: GIS certificates of REC attributes in addition to the RES. The Voluntary REC attributes will be entirely from sources qualified as RI New sources (See R.I. Gen Laws 39-26) that are located only in New England. The GIS certificates can be retired by September 15th of the following year. This is calculated by multiplying the retired certificates for each power source by the voluntary RI New percentage of the product.
- Other Known Resources: Any other GIS certificates for electricity obtained by Supplier from specific generating units.
- Residual Mix: NextEra Energy Services Rhode Island may purchase electricity supply from system power contracts, not from specific generating units. System power is assigned attributes based on the mix of GIS certificates of sources found on the New England electricity grid that have not been obtained and retired by other entities, referred to as the "Residual Mix". The Residual Mix will largely be non-renewable, because most GIS certificates for renewable energy are obtained to meet the RI RES (and their equivalent in other New England states) or voluntary requirements. The total Residual Mix is reduced by the REC attributes retired based on the product chosen.
- Emissions for the product are calculated based on the emissions for the GIS Certificates the Supplier has obtained and retired. Average emissions for all power sources are calculated based on the System Mix from NEPOOL GIS, which include all GIS Certificates in the entire system. 100% is the average (baseline) emissions of the System Mix.
- See your contract terms and conditions for further information on this label. You may contact NextEra Energy Services toll free at 1-877-200-8619, the Rhode Island Office of Energy Resources at 1-401-574-9100 or the Rhode Island Department of Public Utilities at 1-401-941-4500.
- The effective price above applies to usage between May 2025 meter read dates and November 2025 meter read dates meter read dates for Residential and Commercial customers, and for May 2025 and August 2025 meter read dates for Industrial customers.
- NextEra Energy Services Rhode Island retires renewable energy certificates ("RECs") in addition to the RES Requirement as follows:
  - Standard Product: RECs representing generation from RI New resources in an amount equal to 5% of usage.
  - Opt-In Basic: None
  - Opt-In 50 Green: RECs representing generation from RI New resources in an amount equal to 50% of usage.
  - Opt-In 100 Green: RECs representing generation from RI New resources in an amount equal to 100% of usage.

# Town of Barrington

The Town of Barrington is pleased to introduce you to the Barrington Community Electricity Program, our town's electricity supply program. The Program aims to help our community members manage electricity costs, increase renewable energy use and reduce carbon pollution. Barrington Town Council approved this program in August 2020.

**You received this letter because your electricity account is scheduled for automatic enrollment in the town's program starting September 2024. The deadline to take action before enrollment is August 15, 2024.** Your participation in Barrington's program is voluntary. This letter explains your options.

## YOUR OPTIONS

- 1 **Automatically enroll in Barrington Standard** - To enroll in Barrington Standard, no action is needed.
- 2 **Choose to enroll in another Barrington product** - To choose another Barrington product, call our program's electricity supplier, NextEra Energy Services Rhode Island, LLC, at (877) 200-8619, or submit a request at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- 3 **Choose to continue with Rhode Island Energy's supply, called Last Resort Service** - To remain with Last Resort Service for your electricity supply, you must opt out. To opt out before being automatically enrolled, you must take one of the following actions on or before **August 15, 2024**:

Postmark and mail the enclosed opt-out card    *or*    call Barrington's supplier, NextEra Energy Services Rhode Island, LLC at (877) 200-8619    *or*    submit the opt-out form at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com)

## ELECTRICITY SUPPLY PRODUCT SUMMARY

	Rhode Island Energy Last Resort Service (if you opt out)	Barrington Basic	Barrington Standard (automatic)	Barrington 50	Barrington 100
<b>Commercial Price</b>	9.864 ¢/kWh	9.442 ¢/kWh	9.685 ¢/kWh	10.509 ¢/kWh	12.932 ¢/kWh
	April through September 2024	May through November 2024	May through November 2024	May through November 2024	May through November 2024
<b>Industrial Price</b>	7.932 ¢/kWh	8.481 ¢/kWh	8.714 ¢/kWh	9.507 ¢/kWh	11.840 ¢/kWh
	September 2024 only	August through Nov 2024	August through Nov 2024	August through Nov 2024	August through Nov 2024
<b>Voluntary Renewable Energy</b>	None	None	Adds 5% voluntary renewable energy (RI New RECs)	Adds voluntary renewable energy (RI New RECs) to total 50%	Adds voluntary renewable energy (RI New RECs) to total 100%

The Last Resort Service Rate above reflects the total rate as filed by Rhode Island Energy in dockets PUC 24-04-EL, 24-07-EL, 24-08-EL and 24-15-EL. The proposed Last Resort Service Industrial rate has not yet been approved by the PUC as of June 20, 2024 and includes components that may be adjusted by Rhode Island Energy. The Program cannot guarantee savings beyond the current term of Last Resort Service, as stated in the table above, because future Last Resort Service rates are unknown.

## ELECTRICITY SUPPLY PRODUCT DETAIL

- Program prices apply to service beginning and ending on the days of the month that your meter is read.
- Program prices include a fee of \$0.001 per kilowatt-hour (kWh) for the Town’s aggregation consultant. Any applicable taxes will be added to your bill by Rhode Island Energy.
- At the end of the pricing term, you will be automatically renewed in your current product which may have a new price and a different percentage of voluntary renewable energy as negotiated by the Town. Pricing is expected to change every six to twelve months for Commercial customers and every three months for Industrial customers. The Town will announce price changes at least 30 days before any such price changes takes effect. Product details will always be available at the Town’s website for the Program: [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- You may leave the Program at any time by contacting Barrington's Supplier at (877) 200-8619, or by visiting the program website at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- Rhode Island requires all electricity supply products to include a minimum amount of renewable energy, known as the Renewable Energy Standard (RES). Some Barrington Program products contain voluntary renewable energy that exceeds the RES, as shown below:

Year 2024	RES	Rhode Island Energy Last Resort Service (if you opt out)	Barrington Basic	Barrington Standard (automatic)	Barrington 50	Barrington 100
<b>Mandated</b>	28%	28%	28%	28%	28%	28%
<b>Voluntary</b>	0%	0%	0%	5%	22%	72%
<b>Total</b>	<b>28%</b>	<b>28%</b>	<b>28%</b>	<b>33%</b>	<b>50%</b>	<b>100%</b>

Generation sources that qualify for the RES are known as RI New and must be built after 1997 and be located within, or delivered to, New England (2% may come from sources built prior to 1997, called RI Existing). The Barrington Program sources all voluntary renewable energy above the RES from sources that qualify as RI New, come from solar, wind, anaerobic digestion, and low-impact hydro, and are located only within New England.

## BARRINGTON PROGRAM DETAIL

- Barrington Program website: [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com). The Program is served by NextEra Energy Services Rhode Island, LLC, PUC license number: D-96-6(M3), (877) 200-8619.
- There are two parts to your Rhode Island Energy electricity bill, (1) Delivery Services and (2) Supply Services. If you participate in Barrington's program:
  - Rhode Island Energy will continue to provide all Delivery Services, including responding to power outages. You will continue to receive your electricity bill from Rhode Island Energy.
  - The Supply Services portion of the bill will change to reflect your participation in Barrington's program.
  - Budget billing customers will continue to receive budget billing for the Delivery Services portion of the bill.
  - Customers that receive solar electricity benefits from net metering credits and/or Renewable Energy Growth Program payments will continue to receive those benefits.
  - You may leave the Program or switch to a different program option at any time, without penalty.
- If you have questions about the Delivery Services portion of your bill, or about Last Resort Service supply, contact Rhode Island Energy at (855) 743-1101, or visit [RIEnergy.com](http://RIEnergy.com).
- If you are receiving electricity supply from a competitive supplier and believe you have received this opt-out letter in error, you must notify Barrington's supplier, as outlined in the third option above. This will ensure you continue to receive your electricity from that competitive supplier and prevent any possible early termination fees.

# Town of Barrington

The Town of Barrington is pleased to introduce you to the Barrington Community Electricity Program, our town's electricity supply program. The Program aims to help our community members manage electricity costs, increase renewable energy use, and reduce carbon pollution. Barrington Town Council approved this program in September 2020.

**You received this letter because your electricity account is scheduled for automatic enrollment in Barrington's program starting January 2025. The deadline to take action before enrollment is December 13, 2024.** Your participation in Barrington's program is voluntary. This letter explains your options.

## YOUR OPTIONS

- 1 **Automatically enroll in Barrington Standard** - To enroll in Barrington Standard, no action is needed.
- 2 **Choose to enroll in another Barrington product** - To choose another Barrington product, call our program's electricity supplier, NextEra Energy Services Rhode Island, LLC, at (877) 200-8619, or submit a request at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- 3 **Choose to continue with Rhode Island Energy's supply, called Last Resort Service** - To remain with Last Resort Service for your electricity supply, you must opt out. To opt out before being automatically enrolled, you must take one of the following actions on or before **December 13, 2024**:

Postmark and mail the enclosed opt-out card    or    call Barrington's supplier, NextEra Energy Services Rhode Island, LLC at (877) 200-8619    or    submit the opt-out form at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com)

## ELECTRICITY SUPPLY PRODUCT SUMMARY

	Rhode Island Energy Last Resort Service (if you opt out)	Barrington Basic	Barrington Standard (automatic)	Barrington 50	Barrington 100
<b>Residential Price</b>	16.387 ¢/kWh	16.044 ¢/kWh	16.287 ¢/kWh	16.899 ¢/kWh	19.327 ¢/kWh
<b>Voluntary Renewable Energy</b>	None	None	Adds 5% voluntary renewable energy (RI New RECs)	Adds voluntary renewable energy (RI New RECs) to total 50%	Adds voluntary renewable energy (RI New RECs) to total 100%
<b>Duration</b>	October 2024 through March 2025	November 2024 through May 2025	November 2024 through May 2025	November 2024 through May 2025	November 2024 through May 2025

The Last Resort Service Rate above is the most current rate proposed by RI Energy and pending approval by the Public Utility Commission: <https://ripuc.ri.gov/utility-information/electric/national-grid-last-resort-service>. The Program cannot guarantee savings beyond the current term of Last Resort Service, as stated in the table above, because future Last Resort Service rates are unknown.

## ELECTRICITY SUPPLY PRODUCT DETAIL

- Program prices apply to service beginning and ending on the days of the month that your meter is read.
- Program prices include a fee of \$0.001 per kilowatt-hour (kWh) for the town's aggregation consultant. Any applicable taxes will be added to your bill by Rhode Island Energy.
- At the end of the pricing term, you will be automatically renewed in your current product which may have a new price and a different percentage of voluntary renewable energy as negotiated by the Town. Pricing is expected to change every six to twelve months for Residential customers. The Town will announce price changes at least 30 days before any such price change takes effect. Product details will always be available at the town's website for the Program: [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- You may leave the Program at any time by contacting Barrington's supplier at (877) 200-8619, or by visiting the program website at [BarringtonCommunityElectricity.com](http://BarringtonCommunityElectricity.com).
- Rhode Island requires all electricity supply products to include a minimum amount of renewable energy, known as the Renewable Energy Standard (RES). Some Barrington Program products contain voluntary renewable energy that exceeds the RES, as shown below:

Year 2025	RES	Rhode Island Energy Last Resort Service (if you opt out)	Barrington Basic	Barrington Standard (automatic)	Barrington 50	Barrington 100
<b>Mandated</b>	34%	34%	34%	34%	34%	34%
<b>Voluntary</b>	0%	0%	0%	5%	16%	66%
<b>Total</b>	<b>34%</b>	<b>34%</b>	<b>34%</b>	<b>39%</b>	<b>50%</b>	<b>100%</b>

Generation sources that qualify for the RES are known as RI New and must be built after 1997 and be located within, or delivered to, New England (2% may come from sources built prior to 1997, called RI Existing). The Barrington Program sources all voluntary renewable energy, above the RES, from sources that qualify as RI New, come from solar, wind, anaerobic digestion, and low-impact hydro, and are located only within New England.

The Barrington Community Electricity Program is announcing new winter electricity supply prices to go into effect beginning with the November meter read. New prices are fixed for six months and adjusting to summer rates in May 2025: See FAQ's & Rate chart:  
<https://barrington.ri.gov/CivicAlerts.aspx?AID=100>

### Barrington Community Electricity Winter Prices

Program launched May 2023. New winter prices go into effect on the November meter read.

Barrington Standard	Barrington Basic	Barrington 50	Barrington 100	RI Energy Last Service
18.7 c/kWh Residential	16.044 c/kWh Residential	15.899 c/kWh Residential	19.327 c/kWh Residential	16.387 c/kWh Residential
Voluntary RI New Renewables	No additional renewable energy	Adds voluntary renewable energy (RI New RECs) to total 50%	Adds voluntary renewable energy (RI New RECs) to total 100%	No additional renewable energy
November 2024 through May 2025 meter read dates				Oct. 1, 2024 Mar. 31, 2025

To learn more visit:  
[BarringtonCommunityElectricity.com](https://BarringtonCommunityElectricity.com)

### Barrington Community Electricity

New winter prices go into effect on the November meter read. Here's a recap of the program's impact from May 2023 till August 2024

Participants purchased more than 1,000 megawatt-hours of voluntary renewable energy.

This avoided almost 1,600,000 pounds of carbon dioxide emissions.

That's like taking almost 170 cars off the road!

Participants saved more than \$656,000 from from May 2023 till Aug 2024, supporting new, renewable energy facilities here in Rhode Island.

To learn more visit:  
[BarringtonCommunityElectricity.com](https://BarringtonCommunityElectricity.com)

**Spring 2025 Price Change Press Release Issued Apr. 1, 2025**

New Summer program prices go into effect on the May 2025 meter read.

 Barrington Standard	 Barrington Basic	 Barrington 50	 Barrington 100	 RI Energy Last Resort Service
10.014 ¢/kWh Residential	9.771 ¢/kWh Residential	10.548 ¢/kWh Residential	12.977 ¢/kWh Residential	10.068 ¢/kWh Residential
5% voluntary RI New Renewables	No additional renewable energy	Adds voluntary renewable energy (RI New RECs) to total 50%	Adds voluntary renewable energy (RI New RECs) to total 100%	No additional renewable energy
May through November 2025 meter read dates				April 1 - September 30, 2025

*Barrington Community Electricity Summer Rates (Image courtesy of Good Energy)*

## **Barrington Electricity Aggregation Summer 2025 Prices**

The Barrington Community Electricity program is announcing new summer electricity supply prices to go into effect beginning with the May 2025 meter read. Prices will be substantially decreasing, from 16.287 this past winter down to 10.014 cents/kWh for the Town’s default electricity option, Barrington Standard. The new prices will be fixed for six months through customers’ November 2025 meter read. **Current participants do not need to take any action to remain in the program and receive the new pricing for the product in which they are currently enrolled.**

The table above shows the prices for residential customers compared to Rhode Island Energy. Prices for commercial and industrial customers can be found on the program website: [barringtoncommunityelectricity.com](http://barringtoncommunityelectricity.com).

Most participants in Barrington's program use "Barrington Standard" which provides more renewable energy than Rhode Island Energy's Last Resort Service and will still provide cost savings this summer. The additional renewable energy is sourced entirely from local Rhode Island projects, including the Narragansett Bay Commission wind turbines at Fields Point in Providence, solar in West Greenwich and additional wind turbines in Coventry.

Barrington participants annually purchase more than 2,610 megawatt-hours of voluntary renewable energy, equivalent to displacing over 1,863,500 pounds of carbon dioxide emissions.

Residents enrolled in the Community Electricity Standard or Plus options have an added benefit when filing their taxes. The non-profit Green Energy Consumers Alliance (GECA) supplies the additional renewable energy beyond what is required by state law. As a non-profit organization, the portion of customer payments used to purchase this extra renewable energy qualifies as a charitable contribution — making it tax-deductible.

GECA has sent out communications to eligible customers with details on how to claim their 2024 tax receipt. If you're enrolled in the Standard or Plus option, you can access your tax receipt online at [GreenEnergyConsumers.org/TaxReceipts](http://GreenEnergyConsumers.org/TaxReceipts).

This is a Town-operated program open to all Barrington residents and businesses. Participants may leave the program at any time without fees or penalties. Visit the program website to review all program options available and to submit any questions via the program contact form: [barringtoncommunityelectricity.com](http://barringtoncommunityelectricity.com).
