The Renewable Energy Growth Program<sup>1</sup> is a tariff-based financing program for renewable distributed energy generation systems. The program is only available under The Narragansett Electric Company d/b/a Rhode Island Energy (RI Energy) tariffs.<sup>2</sup> The purpose of the program is to facilitate and encourage the installation and development of renewable distributed generation systems, reduce environmental impacts and carbon emissions, diversify generation sources, stimulate economic development, improve distribution system resilience and reliability, and reduce distribution system costs.<sup>3</sup> Annually, the Public Utilities Commission (PUC) reviews and approves an enrollment schedule, technology targets, and ceiling prices against which commercial and large scale projects compete for participation in the Renewable Energy Growth Program. The program year runs from April 1<sup>st</sup> to the following March 31<sup>st</sup>. The 2025 Renewable Energy Growth Program targets and ceiling prices were approved on March 28, 2024.

R.I. Gen. Laws § 39-26.6-20(b) requires the PUC to review and issue Certificates of Eligibility for commercial scale and large-scale projects that have been chosen by RI Energy for participation in the Renewable Energy Growth Program. Following each enrollment, RI Energy files an Enrollment Report. Pursuant to the R.I. Gen. Laws § 39-26.6-20(b), RI Energy filed the
