Email	meghan@veppi.org
Verifier Qualifications	VEPP Inc. is a qualified independent verifier for the state of Massachusetts. VEPP Inc. is a designated NEPOOL-GIS third party meter provider (#14654). VEPP Inc. is the designated Purchasing Agent under Vermont Public Service Board Rule 4.100 and is the designated SPEED Facilitator under Vermont Public Service Board Rule 4.300. Part of the duties specified in VEPP Inc.'s contracts for Purchasing Agent and SPEED Facilitator with the Vermont Public Service Board include interrogation and collection of metered generation output data from existing and new renewable energy generating facilities within the State of Vermont. Included in these duties are consulting with the owners of renewable energy projects and the interconnecting utility to ensure installation of the proper metering equipment, interrogation of the metering equipment on a daily basis, and arranging for the necessary periodical meter testing. VEPP Inc. has been providing these services under contract with the Vermont Publ
D.2(c) A declaration of any and all business or financial relations between Aggregator (or single site) Owner and Verifier, which the Commission will use to evaluate the independence of the Verifier.	Relations with the Unit Owner involve collection of metered generation output data from the facility and performing power billing as required under 30 V.S.A. § 8005a(k)(2).
D.2(d) Please identify the type of technology that will be included in the aggregation (or single-site generation unit), and a statement that the aggregation will include only individual Generation Units that meet all the requirements of these regulations, for example physical location, vintage, etc.	The Generation Unit's electrical energy output will be accessed using an Elster A3 meter with an IP modem and recorder and read via MV90 software.
D.2(e) Please describe the proposed operating procedures for the aggregation (or single-site generation unit), by which the Aggregation	VEPP Inc. will upload the Generation Unit's generation data to the NEPOOL-GIS on a quarterly basis for each month in the quarter.

generation.	
D.2(f) Please describe how the Verifier will be compensated for its services by the aggregator. In no instances will an aggregation be certified in which the Verifier is compensated in a manner linked to the number of NEPOOL GIS Certificates created by the aggregation.	VEPP Inc. charges a fixed fee that is not tied to the number of NEPOOL-GIS Certificates created by the Generation Unit.
D.2(g) Please confirm and describe how, no less frequently than quarterly, the Verifier will directly enter into the NEPOOL GIS the quantity of energy production in the applicable time period from each Generation Unit in the aggregation.	VEPP Inc. will upload the Generation Unit's generation data to the NEPOOL-GIS on a quarterly basis for each month in the quarter.
D.3(a) Applicant must acknowledge that any changes to or deviations from the Aggregation Agreement will be considered a change in generator status, and will require recertification by the Commission.	Yes
D.3(b) Applicant must acknowledge that the Commission will be promptly notified of any changes to or deviations from the Aggregation Agreement.	Yes
D.3(c) Applicant must acknowledge that in the event that notice of such changes or deviations is not promptly given, all Generation Units in the aggregation may be de-certified.	Yes
D.4 Applicant must certify that: If the Generation Unit (or aggregation of generation units) is a Customer-sited (behind-the-meter) or Off-grid Generation Facility, as defined in RES Rules Sections 2.3(5) and 2.3(26), respectively, or a Customer-sited (grid connected) or Remote Net Metered (grid connected) Generation Facility, the associated Generation Attributes have not otherwise been, nor will be sold, retired, claimed or represented as part of electrical energy output or sales, or used to satisfy obligations in jurisdictions other than Rhode Island.	Yes
