

Appendix F - Required of all Applicants Proposing to Use An Eligible, including Unlisted, Biomass Fuel

[+/- Expand/Collapse](#)

F.1 The attached Fuel Source Plan includes a detailed description of the type of Eligible Biomass Fuel to be used at the Generation Unit.

Yes

F.1 Comments

Please see the chip plan and wood fuel specifications

F.2 If the proposed fuel is "other clean wood," the Fuel Source Plan should include any further substantiation to demonstrate why the fuel source should be considered as clean as those clean wood sources listed in the legislation. Further substantiation attached?

No

F.3 In the case of co-firing with ineligible fuels, the Fuel Source Plan must include a description of (a) how such co-firing will occur; (b) how the relative amounts of Eligible Biomass Fuel and ineligible fuel will be measured; and (c) how the eligible portion of generation output will be calculated. Description attached?

Yes

F.3 Comments

Please see cofiring fuels file.

F.4 The Fuel Source Plan must provide a description of what measures will be taken to ensure that only the Eligible Biomass Fuel are used. Description provided?

Yes

F.4 Comments

Please see monthly wood sampling

5 Please include in the Fuel Source Plan an acknowledgement that the fuels stored at or brought to the Generation Unit will only be either Eligible Biomass Fuels or fossil fuels used for co-firing and that Biomass Fuels not deemed eligible will not be allowed at the premises of the certified Generation Unit. And please certify that this statement is true.

Yes

F.6 If the proposed fuel includes recycled wood waste, please submit documentation that such fuel meets the definition of Eligible Biomass Fuel and also meets material separation, storage, or handling standards acceptable to the Commission and furthermore consistent with the RES Rules. Documentation attached?

Yes

F.6 Comments	As required by air permit, we must report fuels burned other than “whole tree chips from the forest”. These fuels come from other mills that produce wood products from virgin whole tree products and is a shaving or sawdust. The on-staff forester records all those sources for reporting in the Title V. See include quarterly “Mill Chips Report”
F.7 Please certify that you will file all reports and other information necessary to enable the Commission to verify the on-going eligibility of the renewable energy generators pursuant to RES Rules Section 2.6(C). Specifically, RES Rules Section 2.6(C)(1) states that Renewable Energy Resources of the type that combust fuel to generate electricity must file quarterly reports due 60 days after the end of each quarter on the fuel stream used during the quarter.	Yes
F.8 Please attach a copy of the Generation Unit’s Valid Air Permit or equivalent authorization. Valid Air Permit or equivalent attached?	Yes
F.9 Effective date of Valid Air Permit or equivalent authorization:	08/08/2024
F.10 State or jurisdiction issuing Valid Air Permit or equivalent authorization:	Vermont Agency of Natural Resources
