THE NARRAGANSETT ELECTRIC COMPANY D/B/A RHODE ISLAND ENERGY'S FIRST SET OF DATA REQUESTS DIRECTED TO NATIONAL RAILROAD PASSENGER CORPORATION (AMTRAK)

(Issued: April 20, 2026)
(Due: May 4, 2026)

RIE 1-1 Please provide Schedule SCF-2 in working Excel format with all formulas intact.

RIE 1-2 Referring to the Testimony of Stan C. Faryniarz at page 5, line 11 through page 6, line 6, Mr. Faryniarz states that Amtrak "twelve different electric utility accounts, each with separate contracts with third party power suppliers, Amtrak must manage and maintain a portfolio of utility tariffs, service agreements and other resources to properly control and manage its energy spend – part of a broader strategy of keeping fares as low as possible for commuters and the traveling public." For each of the twelve utility accounts referenced in this testimony, please provide:

a. The electric distribution utility providing service to Amtrak;
b. The unitized rate of return ("UROR") for the rate on which Amtrak receives electric distribution service;
c. The amount of distribution revenue Amtrak provides;
d. The amount of operating revenue Amtrak provides;
e. The amount of operating income overpayment or underpayment from Amtrak, as Amtrak calculated that amount referenced in Mr. Faryniarz's testimony at page 10, lines 15 through 17;
f. A comparison to the systemwide average rate of return, as Amtrak calculated that comparison referenced in Mr. Faryniarz's testimony at page 11, lines 5 through 6.
