STATE OF RHODE ISLAND
ENERGY FACILITY SITING BOARD

In re: The Narragansett Electric Company :
(Portable LNG Vaporization Project : Docket No. SB-2021-04
Portsmouth, Rhode Island) :

MONTHLY REPORT OF THE NARRAGANSETT ELECTRIC COMPANY
REGARDING STATUS OF THE SUPPLEMENTAL APPLICATION
(NOVEMBER 15, 2021)

This report of The Narragansett Electric Company (the “Company”) is filed with the Rhode Island Energy Facility Siting Board (“EFSB”) in response to the EFSB’s Order No. 150 dated September 17, 2021 in the above referenced docket which requires the Company to “...provide monthly reports describing the progress and status of the Company’s initiative to complete all that is needed to file the supplemental application.”

Status of Pending Items

The Company is in the process of completing its presentation to stakeholders of its selection of the seasonal and temporary operation of LNG at Old Mill Lane as the preferred long-term solution for addressing the capacity constraint and capacity vulnerability needs on Aquidneck Island.

The Company has secured an engineering firm to design and permit changes to the property that will allow for a different equipment layout and to provide space for the sound mitigation measures. These designs will include revised equipment layouts, civil work to expand the available workspace, and stormwater design.

The Company remains focused on the issues listed below related to the proposed new site design and the additional analyses requested by the EFSB. The analysis of these issues cannot be completed until the new site design and layout is completed.

- study of noise impacts and mitigation with third-party consultant utilizing a new equipment layout;
- assessing methods of fugitive leak detection and monitoring;
- evaluating any changes to public safety impacts from proposed new layout;
- greenhouse gas analysis of Old Mill Lane and alternatives;
- revised environmental impact and permitting analyses of proposed new layout; and
- estimating costs of potential new layouts and additional mitigation measures.

The Company is developing a proposed property purchase plan for certain abutters to the Old Mill Lane parcel.
