Subject: I oppose the Clear River Energy Center and sale of Providence Water Supply to this Gas/Oil Power Plant

Mr. Todd Bianco,

As a native of Johnston and environmental professional, I strongly oppose the sale of water from the Scituate Reservoir. I also strongly oppose the construction of power plants that use gas and/or oil as sources of fuel. As drought and overpopulation threaten our State, selling our water supply to an industry that pollutes, despite the option of clean, alternative energy supply, is opposite of the direction our State should be heading. I request that you do all in your power to stop this sale.

Thank you,

Anastasia Procaccini
