

3/29/16

To whom it may concern:

I believe that the ~~in~~ ~~the~~ ~~energy~~
power plant is simply "An Accident
waiting to happen" I saw ~~equivalent~~
this to the Love Canal in
Niagara NY in the Seventies. It was
A national disgrace and I wasn't
the only one regarding these horrifying
adventures.

I would ask at what expense is
the Health & Well Being of the
Citizens of Burlington Worth?
40 cents a day? Hardly I would
think.

Please Stop this insane Project.

Sincerely yours,

Dave Dickoff
