**SAY "NO" TO THE  
WALLUM LAKE ROAD  
POWER PLANT**

**March 31, 2016**

**I, Kenneth W Putnam, of 500 Wallum Lake Road, Pascoag, RI**

**Hereby say, NO!! to the proposed Power Plant on Wallum Lake Road.**

**I am concerned with the aquifer, taking our water in the area that could affect our wells. Plus, our daughter could not build on her lot because of the aquifer on Wallum Lake Road.**

**Polution to the wetlands comply DEM regulations. DEM take notice as a builder I have had to comply to DEM regulations over the years and insist this company comply also, as I had to in the course of MY business.**

**Also, air polution that will affect our health, outdoor activities, polution settling on our ponds, both Wallum Lake (affecting the hospitals' drinking and water usage) and also Wilson Pond for swimming and fishing (polutated fish).**

**The noise factor with our home being only (1) one mile away from the proposed site, destroying peace and enjoyment of outdoor activities.**

**I am also concerned about MTBE in the Pascoag water system, that will be piped at high rate of speed to town sewer systems. What will happen to the folks in town if their sewage backs up or they have a sewage pipe that needs to be worked on, will that affect our town workers health?**

**There are so many reasons to say "NO" to this proposed Invenergy project of Clear River/Wallum Lake Road, and mine is a definate NO!**

**Signed: Kenneth W Putnam**
