your best interest

To Bianco, Todd (PUC)

Mr. Bianco i have worked very hard my whole life and finally had the chance to retire recently. I live next to the proposed site for the new power plant on wallum lake road in burrillville. I was just told that my property value will decrease significantly, everything i worked hard for my whole life years and years of blood and sweat, and for what? a disgusting power plant? It makes me sad that we would want to tear down hundreds of acres of untouched woods for a carbon dioxide pollution pumping disgrace. I know money talks obviously, but i ask do you have morals? Do you want to ruin a beautiful new england town for kids to grow up in just because a power plant MIGHT save a few bucks? NO ONE in this town wants this to happen except maybe some town council/manager because it would make thier job easier with the budget. We already have one in our town and that is more than enough. I will be truly ashamed if the proposed plants gets the green light, sad even. I ask you this with the utmost respect PLEASE keep burrillville the way it is, again i know things like this come down to money and the siting board has final say. Find it in your heart to do the right thing for the residents of burrillville and state of rhode island. I urge you to keep that abomination out of our town.

thank you, a concerned citizen.
