RE: Docket 3605 – Last Resort Service Market Assessment

Dear Ms. Massaro:

Enclosed are ten copies of The Narragansett Electric Company's, d/b/a/ National Grid ("National Grid"), Last Resort Service ("LRS") Market Assessment, as required by Commission Order No. 18699 (August 23, 2006) in this proceeding. As set forth in the LRS Market Assessment, based on its review of the New England wholesale and Rhode Island competitive retail markets, National Grid recommends that it continue to procure LRS under the current LRS Acquisition Plan approved by the Commission.

Pursuant to Section 1.2(g) of the Commission's Rules of Practice and Procedure, National Grid hereby requests confidential and privileged treatment of Figure 3 in the LRS Market Assessment. Figure 3 of the LRS Market Assessment contains a forecast of expected bid prices, which is commercially sensitive market information, the disclosure of which could affect National Grid's ability to negotiate competitive terms with its wholesale suppliers. In compliance with Rule 1.2(g), National Grid is providing one complete unredacted copy of the confidential document in a sealed envelope marked "**Contains Privileged and Confidential Materials – Do Not Release.**" Copies of the confidential document are also being provided to Paul Roberti and Steve Scialabba representing the Division of Public Utilities and Carriers.

Attachment 1 to the LRS Market Assessment contains National Grid's latest form of contract for the Master Power Supply Agreement to be issued with National Grid's Request for Proposal. The form of contract is marked to show changes from the current contract to reflect best practices since the previous solicitation. As with prior solicitations and the currently approved LRS Acquisition Plan, National Grid will reserve its right to negotiate specific contract changes with suppliers, but will ensure that any such changes do not shift risks or obligations described in the LRS Acquisition Plan.

**The Narragansett Electric Company,
d/b/a National Grid
Last Resort Service Acquisition Plan, Docket 3605
January 2007 Market Assessment**

I. Background

Rhode Island General Laws § 39-1-27.3(c) requires electric distribution companies, such as The Narragansett Electric Company, d/b/a National Grid (“National Grid”), to provide Last Resort Service (“LRS”) to any customers who have left Standard Offer Service for any reason and are not otherwise receiving electric service from non-regulated power producers.

Rather than approving the actual LRS rates, the Rhode Island Public Utilities Commission (“Commission”) has been granted the authority by the General Assembly to approve a LRS acquisition plan that includes the acquisition procedure, the pricing options being sought, and the proposed term of service for which LRS will be provided (“LRS Acquisition Plan”). As long as National Grid complies with an approved LRS Acquisition Plan, it is entitled to recover its costs associated with providing LRS.

In accordance with its obligations under R.I.G.L. § 39-1-27.3(c), on June 1, 2006, National Grid filed with Commission its most recent Market Assessment and Recommendations for the procurement of LRS for the period November 2006 through April 2007. At its July 13, 2006 open meeting and in Order No. 18699 (August 23, 2006), the Commission approved National Grid’s proposal to follow the LRS Acquisition Plan previously approved by the Commission in Order Nos. 18495 (January 11, 2006), 18250 (May 24, 2005), 18122 (Jan. 11, 2005), and 17903 (July 12, 2004). The Commission also required National Grid to file a market assessment by November 1, 2006 to determine whether National Grid should continue to procure LRS according to the approved LRS Acquisition Plan. Since National Grid had just completed its

procurement of LRS and in order to provide information closer to the next procurement period, on October 26, 2006 National Grid requested to file the Market Assessment on January 5, 2007. This report contains National Grid's current market assessment and recommendations for procuring LRS.

II. Recommendation

Based on its current assessment of the New England wholesale and Rhode Island competitive retail markets, National Grid recommends that it continue to procure LRS for the May through October 2007 period under the current LRS Acquisition Plan approved by the Commission. Specifically, National Grid proposes to procure LRS supply for both the Commercial & Industrial ("C&I") Customer Group and the Residential Customer Group for the six-month period May through October 2007 in conjunction with the procurement of Basic Service for National Grid's customers in Massachusetts and Energy Service for its customers in New Hampshire. The Request for Proposal ("RFP") is scheduled to be issued in mid-February 2007. For this next procurement period, National Grid proposes using the same RFP process and standard form agreement approved by the Commission in Docket 3605.¹

¹ As explained later, National Grid is proposing some edits to the standard form agreement that provide additional clarification and/or reflect best practices since the previous solicitation. None of these edits shift risks or costs between the supplier and National Grid.

III. Market Assessment

National Grid has assessed the New England wholesale and Rhode Island competitive retail markets since the August 2006 LRS procurement to determine if there have been any significant changes that warrant a change in the procurement process contained in its LRS Acquisition Plan.

Specifically, National Grid evaluated:

- Wholesale energy market trends;
- Lessons learned from previous RFPs;
- Compliance with the Renewable Energy Standard;
- Wholesale market rule changes approved and implemented since the last procurement;
- Anticipated wholesale market rule changes that may become effective during the period covered by the next solicitation;
- Recent procurement practices of other New England utilities;
- Changes in the number of customers taking competitive retail supply in Rhode Island; and
- Changes in the number of customers enrolled in LRS or the quantity of load to be served.

The following discussion summarizes National Grid's analysis.

A. Wholesale Energy Market Trends

Since the last Market Assessment, the wholesale energy market has had little change. Over the last few years, the clearing price in the wholesale energy spot market has trended upward, with the trend peaking in the fall of 2005. The most significant cause of this peak was the cost of natural gas in response to supply disruptions and increasing market demand for natural gas. See Figure 1. In its most recent market analysis,² the Independent System Operator of New England ("ISO-NE") has determined

² See ISO-NE 2005 Annual Markets Report.

that the supply of energy may be inadequate to meet peak demand in the near-term. As a result, ISO-NE has implemented additional market incentives to ensure sufficient investment in new capacity (see Wholesale Market Rule Changes, below).

In 2006, the price of natural gas has trended downward when compared to the historic levels reached at the end of 2005. A comparison of the futures market price of natural gas from the last two LRS procurements to current market conditions is found in Figure 2. As shown, natural gas forward prices for the 12-month period beginning in May have decreased when compared to the prices from the last two LRS procurements. For fossil fueled generating plants, the cost of fuel is the largest variable production cost. As fuel costs rise, the supply price offers that generators place in the market will also rise. In the NEPOOL market, natural gas and gas/oil fired generating plants accounted for 38% of the generation in the first quarter of 2006 and were the marginal supply units used to set the market clearing price 59% and 29% of the time, respectively.³

The current arithmetic average retail LRS rate for the C&I Customer Group for the period November 2006 through April 2007 is 10.839¢/kWh. Using two methods, we have estimated the expected cost for the May through October 2007 period based on the NYMEX future prices for natural gas and electricity. This estimate factors in an estimate of the cost of the Forward Capacity Market that began in December 2006. A confidential summary of this forecast is found in Figure 3. This analysis indicates that expected prices for the May through October 2007 period may be a penny per kWh (1¢/kWh) lower than those received in the last RFP.

³ See ISO-NE 2006 First Quarter Markets Report.

B. Lessons Learned From Previous RFPs

As approved by the Commission in Order No. 18495 and consistent with the last RFP, National Grid plans to seek bids for LRS at the same time as bids for Basic Service in Massachusetts and Energy Service in New Hampshire. In the RFP issued in August 2006 for Basic Service in Massachusetts, Energy Service in New Hampshire and Last Resort Service in Rhode Island, National Grid did not receive as many bids for Last Resort Service as it did for the other services. The major factor identified by suppliers who did not bid was the risk of migration from competitive supply to LRS service. Suppliers did suggest changing retail rules to limit a customer's ability to switch from one service to another. National Grid decided not to pursue a change in retail rules at this time. We will continue to review alternative procurement strategies and will review with the Division of Public Utilities and Carriers ("Division") alternative procurement strategies as they are proposed.

C. Compliance With The Renewable Energy Standard

Beginning in 2007, each obligated entity in Rhode Island is required to comply with the Rhode Island Renewable Energy Standard ("RES").⁴ For 2007, the RES requires each obligated entity to show that at least 2.0% of its resources are provided from either existing or new renewable energy resources and at least 1.0% of its resources are provided from only new renewable energy resources. As required in the

⁴ Rhode Island Gen. Laws. § 39-26-1, et seq. *See also* Commission's Rules and Regulations Governing the Implementation of a Renewable Energy Standard (effective January 1, 2006). Under the RES, an obligated entity is a person or entity that sells electrical energy to end-use customers in Rhode Island, including electric utility distribution companies supplying standard offer service, last resort service, or any successor service to end-use customers. R.I.G.L. 39-26-2(16).

Commission's RES Rules, National Grid filed a Renewable Energy Procurement Plan ("RES Procurement Plan") with the Commission on November 3, 2006. National Grid has proposed to require suppliers responding to its RFP to include separate pricing to provide the RES obligation in addition to their bids to provide LRS. Should the RES Procurement Plan be approved by the Commission prior to the issuance of the next RFP in February 2007, National Grid will include the RES obligation in the next RFP. For more details regarding meeting the RES obligation, please see the RES Procurement Plan filed in Docket 3765. As described more fully in its RES Procurement Plan, National Grid will update the RES Charge to reflect the cost of the RES obligation in the accepted bid for the May through October 2007 period.

D. Approved Wholesale Market Rule Changes

New capacity market rules went into effect on December 1, 2006. National Grid will request all bids in the next RFP to include the costs of meeting the Forward Capacity Market obligations. The Forward Capacity Market obligation is initially priced at \$3.05/kW-month, which results in approximately a penny per kWh (1¢/kWh) increase in costs.

On October 20, 2006, FERC issued an order accepting Appendix H to Market Rule 1 concerning cold weather operating procedures. The order accepted provisions similar to those in the previously accepted 2005-2006 Winter Package that "provide for coordination among ISO-NE, market participants and gas pipeline operators and provide ISO-NE with sufficient authority to address the negative effects of extreme cold weather in New England, including exposure to high natural gas prices." The approved rules also

allow recovery of Extraordinary Fuel Expenses during Cold Weather Events and remove the “Effective Offer Price Cap” during Emergency Conditions to provide assurance to generators that they will be able to recover start-up, no-load, and incremental energy costs when such costs might exceed \$1,000/MWh. These approved market rule changes became effective on December 14, 2006.

E. Anticipated Wholesale Market Rule Changes

The only significant wholesale market rule changes anticipated at this time are revisions required to add Long-Term Transmission Rights (“LTTRs”) to the existing Financial Transmission Rights (“FTRs”) available under the current ISO-NE rules. Market Rule 1 revisions were developed by ISO-NE and NEPOOL, and approved by the NEPOOL Participants Committee on December 8, 2006, in response to the FERC’s Final Rule on Long-Term Transmission Rights issued on July 20, 2006.

One of the FERC requirements was that LTTRs “must be made available with term lengths (and/or rights to renewal) that are sufficient to meet the needs of load serving entities to hedge long-term power supply arrangements made or planned to satisfy a service obligation.” The ISO-NE/NEPOOL proposed rules will add five-year LTTRs to the current monthly and annual FTR auctions. In addition to Auctioned LTTRs available to all market participants, Allocated LTTRs will be available and directly allocated to eligible Load Serving Entities (those with long-term power supply commitments and load-serving obligations) upon request. The proposed rules also allocate any charges required to assure the full funding of FTRs and LTTRs to the

Auction Revenue Rights (“ARR”) holders. The proposed rules will be filed with FERC in January 2007.

F. Benchmarking Against Other Recent New England Solicitations

National Grid has reviewed requests for proposals that have been issued by other New England distribution companies since the June 2006 Market Assessment to determine if there are other procurement or contracting practices being utilized that should be adapted as part of the next LRS solicitation. In Massachusetts, Fitchburg Gas and Electric Light Company (“Fitchburg”) recently implemented a pilot program for its large customer group default service requirements to request both fixed and variable monthly pricing. The goal of the pilot program is to increase wholesale supplier interest in serving the large customer group. Under the variable monthly pricing option, suppliers bid a fixed adder to the load-weighted monthly average of the real-time locational marginal price for the West Central Massachusetts load zone. Under this option, default service rates for the large customer group would not be known in advance but instead would be provided after the fact once all load and pricing information became available. For the December 2006 through February 2007 period, Fitchburg received bids for both the fixed and variable pricing option, but accepted a bid for the variable monthly pricing option. The variable pricing option provided the most overall value to its large customer group. National Grid will continue to monitor the Fitchburg pilot program and may include this option in its Contingency Plan or in future solicitations.

In Connecticut and Massachusetts, a number of distribution companies have attempted to limit price volatility by purchasing multi-year supplies. Due to the volatility of customer migration, market rule changes and uncertainty regarding capacity costs after the end of the transition period, the pricing for multi-year supplies included a significant risk premium for multi-year all-requirements service as compared to projections of wholesale power prices for the same time period. In fact, while NSTAR Electric initially proposed to enter multi-year supply agreements in its most recent RFP, it has elected to defer entering into multi-year agreements when it filed its RFP results and new default service rates. National Grid will continue to monitor this option.

After review of this and other RFPs, National Grid has not found any practices that should be changed or included in the LRS Acquisition Plan. National Grid believes the LRS Acquisition Plan approved by the Commission continues to represent the best practices for the procurement of LRS and does not require any additional changes.

G. Rhode Island's Competitive Retail Market

The total number of customers taking competitive supply in Rhode Island increased by 332 customers, or 10%, since the June 1, 2006 filing in this docket. See Figure 4. This indicates that a number of National Grid's largest customers have been willing to review competitive offers and take service from a non-regulated power producer. Based on net customer count changes for LRS and Standard Offer Service, it appears that approximately 274 Standard Offer Service customers may have elected to take service from non-regulated power producers. Thus, non-regulated power producers

may have been able to successfully compete against both Standard Offer Service and LRS rates currently in effect. Given the current number of customers taking service from non-regulated power producers that could potentially transfer to LRS, National Grid does not believe any additional changes in the LRS Acquisition Plan are required for the upcoming LRS solicitation.

H. LRS Customers and Load Requirements

The number of customers receiving LRS has decreased by 58 customers, or 7%, since National Grid's filing of the Market Assessment in June 2006. See Figure 5. Additionally, while LRS load has remained relatively flat since June 2006, the increase in the number of customers served by competitive supply has the potential for significant LRS load volatility. See Figure 6. Given the current number of customers receiving LRS and the potential for customers to leave competitive supply and return to LRS, National Grid does not believe any changes in the LRS Acquisition Plan are required for the upcoming solicitation.

IV. Proposed Power Supply Agreement

National Grid has developed a master power supply agreement that will improve the solicitation process by reducing the amount of time needed to negotiate contract terms with potential suppliers during a solicitation. Instead of negotiating the terms of a contract during each RFP, National Grid and a wholesale supplier would have a one-time negotiation concerning the general terms contained in a master power supply agreement. For subsequent RFPs, National Grid would only need to negotiate those terms that are

specific to an RFP (e.g., price, duration, award blocks) and any terms required as a result of developments subsequent to execution of the master agreement, thus reducing the time spent administering the RFP. National Grid plans to offer only the master power supply agreement to suppliers when it issues the LRS RFP in February 2007 (in conjunction with the Massachusetts and New Hampshire procurements).

As part of its continuous review of contract terms, National Grid has determined that a few changes to the master power supply agreement are needed to clarify items or provide additional protections to its customers. The changes that will be incorporated in the next solicitation are marked in Attachment 1 as either insertions or deletions from the master power supply agreement provided in the June 1, 2006 Market Assessment. These changes to the master power supply agreement provide additional clarification or reflect best practices since the previous solicitation. None of these edits shift risks or costs between the wholesale supplier and National Grid. As with prior solicitations, National Grid will reserve its right to negotiate specific contract changes with suppliers but will ensure that any such changes do not shift risks or obligations described in the LRS Acquisition Plan to its customers.

If Seller is required to provide the bank with a guarantee or any other form of financial assurance from one or more other entities to secure its letter of credit obligations, then such entities shall also guarantee all of Seller's obligations to the Buyer under this Agreement;
- (C) U.S. Dollars delivered by wire transfer of immediately available funds; or
- (D) Any alternate form of credit support proposed by Seller that the Buyer

deems acceptable, in its sole discretion; provided however, the Buyer is under no obligation to accept any alternate form of credit support and may withhold consent to any such alternate form for any reason.

Section 9.2 Indemnification

(a) Seller agrees to defend, indemnify and save the Buyer, its officers, directors, employees, agents, successors assigns, and Affiliates and their officers, directors, employees and

agents harmless from and against any and all third-party claims, suits, actions or causes of action and any resulting losses, damages, charges, costs or expenses, (including reasonable attorneys' fees and court costs), arising from or in connection with any (a) breach of a representation or warranty or failure to perform any covenant or agreement in this Agreement by Seller, (b) any violation of applicable law, regulation or order by Seller, (c) any act or omission by Seller with respect to this Agreement, first arising, occurring or existing during the term of this Agreement, whether incurred by settlement or otherwise, and whether such claims or actions are threatened or filed prior to or after the termination of this Agreement, except to the extent caused by an act of gross negligence or willful misconduct by an officer, director, agent, employee, or Affiliate of the Buyer or its respective successors or assigns.

(b) The Buyer agrees to defend, indemnify and save Seller, its officers, directors, employees, agents, successor, assigns, and Affiliates and their officers, directors, employees and agents harmless from and against any and all third-party claims, suits, actions or causes of action and any resulting losses, damages, charges, costs or expenses, (including reasonable attorneys' fees and court costs), arising from or in connection with any (a) breach of representation or warranty or failure to perform any covenant or agreement in this Agreement by said Buyer, (b) any violation of applicable law, regulation or order by Buyer, (c) any act or omission by the Buyer, with respect to this Agreement first arising, occurring or existing during the term of this Agreement, whether incurred by settlement or otherwise, and whether such claims or actions are threatened or filed prior to or after the termination of this Agreement, except to the extent caused by an act of gross negligence or willful misconduct by an officer, director, agent, employee or Affiliate of Seller or its respective successors or assigns.

The Party seeking indemnification shall have the right, at its sole cost and expense, to participate in the defense of any such claim or action. The Party seeking indemnification shall not compromise or settle any such claim or action without the prior consent of the other Party, which consent shall not be unreasonably withheld.

Section 9.3 Independent Contractor Status

Nothing in this Agreement shall be construed as creating any relationship between the Buyer and Seller other than that of independent contractors for the sale and delivery of Requirements for Last Resort Service.

ARTICLE 10. ASSIGNMENT

Section 10.1 General Prohibition Against Assignments

Except as provided in Section 10.2, neither Party shall assign, pledge or otherwise transfer this Agreement or any right or obligation under this Agreement without first obtaining the other Party's written consent, which consent shall not be unreasonably withheld.

Section 10.2 Exceptions to Prohibition Against Assignments

(a) Seller may, without the Buyer's prior written consent, collaterally assign this Agreement in connection with financing arrangements provided that any such collateral assignment that provides for the Buyer to direct payments to the collateral agent (i) shall be in writing, (ii) shall not be altered or amended without prior written notice to the Buyer from both Seller and the collateral agent, and (iii) provided that any payment made by the Buyer to the collateral agent shall discharge the Buyer's obligation as fully and to the same extent as if it had been made to the Seller. Seller must provide the Buyer at least ten (10) days advance written notice of collateral assignment and provide copies of any such assignment and relevant agreements or writings.

(b) The Buyer may assign all or a portion of its rights and obligations under this Agreement to any Affiliate of the Buyer without consent of Seller. Either Party may, upon written notice, assign its rights and obligations hereunder, or transfer such rights and obligations by operation of law, to any entity with which or into which such Party shall merge or consolidate or to which such Party shall transfer all or substantially all of its assets, provided that such other entity agrees to be bound by the terms hereof and provided further, that such other entity's creditworthiness is comparable to or higher than that of such Party at the time this Agreement was executed and such Party is not relieved of any obligation or liability hereunder as a result of such assignment

ARTICLE 11. SUCCESSORS AND ASSIGNS

This Agreement shall inure to the benefit of and shall be binding upon the Parties hereto and their respective successors and permitted assigns.

ARTICLE 12. FORCE MAJEURE

(a) Force Majeure shall include but not be limited to acts of God, earthquakes, fires, floods, storms, strikes, labor disputes, riots, insurrections, acts of war (whether declared or otherwise), terrorism, acts of terrorism, acts of governmental, regulatory or judicial bodies, but if and only to the extent that such event or circumstance (i) directly affects the availability of the transmission or distribution facilities of the New England Transmission System, the Buyer or an Affiliate of the Buyer necessary to provide service to the Buyer's customers which are taking service pursuant to the Last Resort Service Tariff and (ii) it is not within the reasonable control of, or the result of the negligence of, the claiming Party, and which, by the exercise of due diligence, the claiming Party is unable to overcome or avoid or cause to be avoided. Force Majeure shall not be based on (A) fluctuations in Last Resort Service, (B) the cost to a Party to overcome or avoid, or cause to be avoided, the event or circumstance affecting such Party's performance or (C) events affecting the availability or cost of operating any generating facility.

(b) To the extent that either Party is prevented by Force Majeure from carrying out, in whole or in part, its obligations hereunder and (i) such Party gives notice and detail of the Force Majeure to the other Party as soon as practicable after the onset of the Force Majeure, including an estimate of its expected duration and the probable impact on the performance of its obligations hereunder; (ii) the suspension of performance is of no greater scope and of no longer

duration than is required by the Force Majeure, and (iii) the Party claiming Force Majeure uses commercially reasonable efforts to remedy or remove the inability to perform caused by Force Majeure, then the affected Party shall be excused from the performance of its obligations prevented by Force Majeure. However, neither Party shall be required to pay for any obligation the performance of which is excused by Force Majeure. This paragraph shall not require the settlement of any strike, walkout, lockout or other labor dispute on terms which, in the sole judgment of the Party involved in the dispute are contrary to its interest. It is understood and agreed that the settlement of strikes, walkouts, lockouts or other labor disputes shall be entirely within the discretion of the Party involved in the dispute.

(c) No obligations of either Party which arose before the Force Majeure occurrence causing the suspension of performance shall be excused as a result of the event of Force Majeure.

(d) Prior to the resumption of performance suspended as a result of a Force Majeure occurrence, the Party claiming the Force Majeure shall give the other Party written notice of such resumption.

ARTICLE 13. WAIVERS

No delay or omission in the exercise of any right under this Agreement shall impair any such right or shall be taken, construed or considered as a waiver or relinquishment thereof, but any such right may be exercised from time to time and as often as may be deemed expedient. The waiver of any single breach or default of any term or condition of this Agreement shall not be deemed to constitute the waiver of any other prior or subsequent breach or default of the Agreement or any other term or condition.

ARTICLE 14. LAWS AND REGULATIONS

(a) This Agreement and all rights, obligations, and performances of the Parties hereunder, are subject to all applicable federal and state laws, and to all duly promulgated orders and other duly authorized action of governmental authorities having jurisdiction hereof.

(b) The rates, terms and conditions contained in this Agreement are not subject to change under Section 205 of the Federal Power Act as that section may be amended or superseded, absent the mutual written agreement of the Parties. Each Party irrevocably waives its rights, including its rights under §§ 205-206 of the Federal Power Act, unilaterally to seek or support a change in the rate(s), charges, classifications, terms or conditions of this Agreement or any other agreements entered into in connection with this Agreement. By this provision, each Party expressly waives its right to seek or support: (i) an order from the Commission finding that the market-based rate(s), charges, classifications, terms or conditions agreed to by the Parties in the Agreement are unjust and unreasonable; or (ii) any refund with respect thereto. Each Party agrees (x) not to make or support such a filing or request, (y) that these covenants and waivers shall be binding notwithstanding any regulatory or market changes that may occur hereafter and (z) that it shall not challenge or support a challenge to the enforceability of the waiver in this Section (b).

(c) Absent the agreement of all Parties to a proposed change, the standard of review for changes to this Agreement proposed by a non-party or the Commission acting sua sponte shall be the "public interest" standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) (the "Mobile-Sierra" doctrine).

(d) The Parties agree that, if and to the extent that the Commission adopts a final rule or order which requires that, in order to exclude application of the just and reasonable standard of review and to mandate application of the public interest standard of review under the Mobile-Sierra doctrine for a proposed change to this Agreement which is not agreed to by all Parties, the Parties must agree to language which varies from that set forth in Article 14(c) then, without further action of either Party, Article 14(c) will be deemed amended to incorporate the specific language required by such final rule or order as is necessary to have the public interest standard of review under the Mobile-Sierra doctrine apply to any proposed change to this Agreement to which all Parties do not agree.

(e) Nothing in this Article 14 is intended to modify any Party's right to enforce the terms of this Agreement as written.

ARTICLE 15. INTERPRETATION, DISPUTE RESOLUTION

Section 15.1 Governing Law

The Agreement shall be governed by and construed and performed in accordance with and the laws of the State of Rhode Island, without giving effect to its conflict of laws principles.

Section 15.2 Dispute Resolution

All disputes between the Buyer and Seller under this Agreement shall be referred, upon notice by one Party to the other Party, to a senior manager of Seller designated by Seller, and a senior manager of the Buyer designated by the Buyer, for resolution on an informal basis as promptly as practicable. In the event the designated senior managers are unable to resolve the dispute within ten (10) days of receipt of the notice, or such other period to which the Parties may jointly agree, such dispute shall be submitted to arbitration and resolved in accordance with the arbitration procedure set forth in this Section. The arbitration shall be conducted in Boston, Massachusetts before a single neutral arbitrator mutually agreed to and appointed by the Parties. If the Parties fail to agree upon a single arbitrator within ten (10) days of the referral of the dispute to arbitration, Seller and the Buyer shall each choose one arbitrator, who shall sit on a three-member arbitration panel. The two arbitrators so chosen shall within ten (10) days select a third arbitrator to act as chairman of the arbitration panel. In either case, the arbitrator(s) shall be knowledgeable and have at least two (2) years experience in electric utility matters, including wholesale power transactions and power market issues, and shall not have any current or past material business or financial relationships with either Party or a witness for either Party and shall not have a direct or indirect interest in any Party or the subject matter of the arbitration. If a panel of arbitrators, all of their decisions shall be by majority vote. The arbitrator(s) shall afford each of the Parties an opportunity to be heard and, except as otherwise provided herein, shall generally conduct the arbitration in accordance with the then-current arbitration rules of the CPR Institute for Dispute Resolution (formerly known as the Center for Public Resources), unless otherwise mutually agreed by the Parties. There shall be no formal discovery conducted in

connection with the arbitration unless otherwise mutually agreed by the Parties; provided, however, that the Parties shall exchange witness lists and copies of any exhibits that they intend to utilize in their direct presentations at any hearing before the arbitrator(s) at least ten (10) days prior to such hearing, along with any other information or documents specifically requested by the arbitrator(s) prior to the hearing. Any offer made and the details of any negotiations to resolve the dispute shall not be admissible in the arbitration or otherwise. Unless otherwise agreed, the arbitrator(s) shall render a decision within ninety (90) days of his, her or their appointment and shall notify the Parties in writing of such decision and the reasons therefore, and shall make an award apportioning the payment of the costs and expenses of arbitration among the Parties; provided, however, that each Party shall bear the costs and expenses of its own attorneys, expert witnesses and consultants unless the arbitrator(s), based upon a determination of good cause, awards attorneys fees and legal and other costs to the prevailing Party. The arbitrator(s) shall be authorized only to interpret and apply the provisions of this Agreement and shall have no power to modify or change the Agreement in any manner. The decision of the arbitrator(s) shall be final and binding upon the Parties, and judgment on the award may be entered in any court having jurisdiction, subject expressly to Section 15.3. The decision of the arbitrator(s) may be appealed solely on the grounds that the conduct of the arbitrator(s), or the decision itself, violated the standards set forth in the Federal Arbitration Act and/or the Administrative Dispute Resolution Act. Nothing in this paragraph shall impair the ability of a Party to exercise any right or remedy it has under this Agreement, including those in Article 7. To the fullest extent permitted by law, any arbitration proceeding and the arbitrator's award shall be maintained in confidence by the Parties; provided, however, that either Party, or any of its Affiliates, may provide information regarding the arbitration without limitation to any regulatory agency requesting or requiring such information or to a court in a proceeding to confirm, appeal (as such appeal is limited hereby) or enforce the award; provided, further, that any such provision of information must include a request for confidential treatment.

Section 15.3 Venue; Waiver of Jury Trial

Each Party hereto irrevocably (i) submits to the exclusive jurisdiction of the federal and state courts located in the State of Rhode Island, County of Providence (ii) waives any objection which it may have to the laying of venue of any proceedings brought in any such court; and (iii) waives any claim that such proceedings have been brought in an inconvenient forum. EACH PARTY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY SUIT, ACTION OR PROCEEDING RELATING TO THIS AGREEMENT.

ARTICLE 16. SEVERABILITY

Any provision declared or rendered unlawful by any applicable court of law or regulatory agency or deemed unlawful because of a statutory change will not otherwise affect the remaining provisions and lawful obligations that arise under this Agreement. If any provision of this Agreement, or the application thereof to any Party or any circumstance, is invalid or unenforceable, (a) a suitable and equitable provision shall be substituted therefor in order to carry out, so far as may be valid and enforceable, the intent and purpose of such invalid or unenforceable provision, and (b) the remainder of this Agreement and the application of such provision or circumstances shall not be affected by such invalidity or unenforceability.

ARTICLE 17. MODIFICATIONS

No modification or amendment of this Agreement will be binding on any Party unless it is in writing and signed by both Parties.

ARTICLE 18. ENTIRE AGREEMENT

This Master Power Agreement, including the Appendices, any Confirmations relating to specific Transactions, the tariffs and agreements referred to herein or therein, embody the entire agreement and understanding of the Parties in respect of the transactions contemplated by this Agreement. There are no restrictions, promises, representations, warranties, covenants or undertakings, other than those expressly set forth or referred to herein or therein. It is expressly acknowledged and agreed that there are no restrictions, promises, representations, warranties, covenants or undertakings contained in any material provided or otherwise made available by the Seller or the Buyer to each other. This Agreement supersedes all prior agreements and understandings between the Parties with respect to the transactions contemplated hereby and specifically excludes written agreements executed by the Parties prior to the Effective Date.

ARTICLE 19. COUNTERPARTS

This Agreement may be executed in any number of counterparts, and each executed counterpart shall have the same force and effect as an original instrument.

ARTICLE 20. INTERPRETATION; CONSTRUCTION

The article and section headings contained in this Agreement are solely for the purpose of reference, are not part of the agreement of the Parties and shall not in any way affect the meaning or interpretation of this Agreement. For purposes of this Agreement, the term "including" shall mean "including, without limitation". The Parties acknowledge that, each Party and its counsel have reviewed and or revised this Agreement and that any rule of construction to the effect that any ambiguities are to be resolved against the drafting Party shall not be employed in the interpretation of this Agreement, and it is the result of joint discussion and negotiation.

ARTICLE 21. REPRESENTATIONS; WARRANTIES AND COVENANTS

(e) Neither the execution and delivery of this Master Power Agreement or any and all Confirmations by it will nor the performance by it of its obligations under this Master Power Agreement and any and all Confirmations related to Transactions, will or does (i) conflict with or result in any breach of any provision of its Governing Documents, (ii) result in a default (or give rise to any right of termination, cancellation or acceleration) under any of the terms, conditions or provisions of any note, bond, mortgage, indenture, license, agreement or other instrument or obligation to which it or any of its subsidiaries is a party or by which it or any of its subsidiaries is bound, except for such defaults (or rights of termination, cancellation or acceleration) as to which requisite waivers or consents have been obtained or which, in the aggregate, would not have a Material Adverse Effect; or (iii) violate any order, writ, injunction, decree, statute, rule or regulation applicable to it, which violation would have a Material Adverse Effect.

The Buyer shall have the right to review and approve in advance all characterizations of the information relating to the transactions contemplated by this Agreement which appear in any filing, press release or public announcement made in connection with the transactions contemplated hereby.

APPENDIX A

ESTIMATION OF SELLER HOURLY LOADS

Overview

Generating units operated by suppliers are dispatched by the power pool to meet the region's electrical requirements reliably, and at the lowest possible cost. As a result, a supplier's electricity production may not match the demand of its customers. In each hour some suppliers with low cost production units or that contract for the output of such units are net sellers of electricity to the pool, while other suppliers are purchasing power from the pool to meet the demand of their customers. To determine the extent to which suppliers are net buyers or sellers on an hourly basis, it is necessary to estimate the hourly aggregate demand for all of the customers served by each supplier. The Buyer will estimate Seller's Last Resort Service load obligations within the Buyer's service territory and report the hourly results to the ISO on a daily basis.

The estimation process is a cost-effective approach to producing results that are reliable, unbiased and reasonably accurate. The hourly load estimates will be based on rate class load profiles, which will be developed from statistically designed samples. Each day, the class load shapes will be scaled to the population of customers served by each supplier. In cases where telemetered data on individual customers is available, it will be used in place of the estimated shapes. On a monthly basis, the estimates will be refined by incorporating actual usage data obtained from meter readings. In both processes, the sum of all suppliers' estimated loads will match the total load delivered into the distribution system. A description of the estimation process follows.

Daily Estimation of Suppliers' Own Load

The daily process estimates the hourly load for each supplier for the previous day. The following is an outline of this process:

- Select a proxy date from the previous year with characteristics which best match the day for which the hourly demand estimates are being produced. Extract class load shapes for the selected proxy date from the load research database.
- Scale the class load shapes appropriately for each individual customer based on the usage level of the customer relative to the class average usage level.
- Calculate a factor for each customer which reflects their relative usage level and includes an adjustment for losses ("load adjustment factor"). Aggregate the load adjustment factors across the customers served by each supplier in each class.
- Produce a preliminary estimate of each supplier's hourly loads by combining the proxy day class load shapes with the supplier's total load adjustment factors. Aggregate the loads across the classes for each supplier.

- Adjust the preliminary hourly supplier estimates so that their sum is equal to the Buyer's actual hourly metered loads (as metered at the point of delivery to the distribution system) by allocating any differences to suppliers in proportion to their estimated load.
- Adjust the hourly supplier estimates to include transmission losses within the Buyer's transmission system.
- Submit the hourly loads to the ISO.

After the Buyer has submitted the supplier hourly loads, the ISO will allocate PTF losses to the supplier's account during the settlement process.

Monthly Reconciliation Process

The monthly process will improve the estimates of supplier loads by incorporating the most recent customer usage information, which will be available after the monthly meter readings are processed. The actual customer meter readings, as well as actual interval data for the largest customers, are used to re-estimate all of the days in the calendar month being reconciled. Updates to customers' account status and supplier assignments that may have been missed during the daily processing (due to timing) are included. The resulting hourly supplier load estimates for all the days in the month are reported and used by the ISO as the basis for the monthly resettlement.

**APPENDIX C
FORM OF GUARANTY**

Guaranty

This Guaranty (this “Guaranty”), dated effective as of [___], 2007~~6~~ (the “Effective Date”), is made and entered into by [_____], a [_____] corporation (“Guarantor”).

WITNESSETH:

WHEREAS, The Narragansett Electric Company (“the Buyer”) and [_____], a corporation organized under the laws of the State of [_____] (“Seller”) and a [_____] of Guarantor, have entered into that certain Confirmation, dated _____ (the “Confirmation”), under the Master Power Agreement, dated [_____], (collectively with the Confirmation, as the foregoing and the terms therein and the obligations and liabilities thereunder may from time to time and without notice to or consent of the Guarantor, and without impairing or releasing the obligations of the Guarantor, be amended, modified, revised, supplemented or waived by Buyer and Seller, the "Agreement") and

WHEREAS, Guarantor will directly or indirectly benefit from the Agreement between Seller and the Buyer;

NOW THEREFORE, in consideration of the Buyer entering into the Agreement, Guarantor hereby covenants and agrees as follows:

- 1) GUARANTY. Subject to the provisions hereof, Guarantor hereby irrevocably and unconditionally guarantees the full and faithful timely performance and payment when due of the obligations of Seller that are now due or may hereafter become due and payable to the Buyer under the Agreement (the “Obligations”). This Guaranty shall constitute a guarantee of performance and payment and not of collection. The liability of Guarantor under this Guaranty shall be specifically limited to performance and payments expressly required to be made under the Agreement (even if such payments are or are deemed to be damages) as well as costs of collection and enforcement of this Guaranty (including attorney’s fees) to the extent reasonably and actually incurred by the Buyer (all of which such costs of collection and enforcement shall be subject to the limitation set forth in Section 1(a) above) but in no event shall Guarantor be subject hereunder to consequential, exemplary, equitable, loss of profits, punitive or tort damages, or, except to the extent specifically provided in the Agreement, any other damages.
- 2) DEMANDS AND NOTICE. Upon the occurrence and during the continuance of an Event of Default or termination, as may be defined in the Agreement, if Seller fails or refuses to perform or pay any Obligations and the Buyer elects to exercise its rights under this Guaranty, the Buyer shall make a demand upon Guarantor (hereinafter referred to as a “Demand”). A Demand shall be in writing and shall reasonably and briefly specify in what manner and what amount Seller has failed to perform or pay and an explanation of why such performance or payment is due, with a specific statement that the Buyer is calling upon Guarantor to perform and/or pay under this Guaranty. A Demand satisfying the foregoing requirements shall be required with respect to Obligations before Guarantor is required to perform or pay (free of any deductions or withholdings) such Obligations hereunder and shall be deemed

sufficient notice to Guarantor that it must perform the Obligations within two (2) Business Days, or pay the Obligations within five (5) Business Days, after its receipt of the Demand. A single written Demand shall be effective as to any specific default during the continuance of such default, until Seller or Guarantor has cured such default, and additional written demands concerning such default shall not be required until such default is cured. As used herein, the term "Business Day" shall mean a day on which commercial banks or financial institutions are open for business in the State of Rhode Island.

3) REPRESENTATIONS AND WARRANTIES. Guarantor represents and warrants that:

(a) it is a corporation duly organized and validly existing and in good standing under the laws of the State of [] and has the corporate power and authority to execute, deliver and carry out the terms and provisions of the Guaranty;

(b) the execution, delivery and performance of this Guaranty and each transaction contemplated by this Guaranty, do not and will not (with or without the lapse of time, the giving of notice or both, contravene, conflict with or result in a breach of or default under any provision of its constitution or any writ, order, judgment, law, rule or regulation to which it is a party or is subject or by which it is bound; and

(c) no authorization, approval, consent or order of, or registration or filing with, any court or other governmental body having jurisdiction over Guarantor is required on the part of Guarantor for the execution and delivery of this Guaranty; and

(d) this Guaranty, when executed and delivered, will constitute a valid and legally binding agreement of Guarantor, except as the enforceability of this Guaranty may be limited by the effect of any applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally and by general principles of equity.

4) SETOFFS AND COUNTERCLAIMS. Without limiting Guarantor's own defenses and rights hereunder, Guarantor reserves to itself all rights, setoffs, counterclaims and other defenses to which Seller or any other affiliate of Guarantor is or may be entitled to arising from or out of the Agreement or otherwise, except for defenses arising out of the bankruptcy, insolvency, dissolution or liquidation of Seller, the lack of power or authority of Seller to enter into, amend and/or perform the Agreement, or waiver or consent with respect to any provision thereof, or a claim as to the Agreement's validity regularity or enforceability, or any similar circumstance which might otherwise constitute a legal or equitable discharge or defense of a guarantor generally.

5) AMENDMENT OF GUARANTY. No term or provision of this Guaranty shall be amended, modified, altered, waived or supplemented except in a writing signed by Guarantor and the Buyer.

6) WAIVER; TERMINATION. Except as required in Section 2 above, Guarantor hereby waives (a) notice of acceptance of this Guaranty; (b) presentment, demand and notice of dishonor concerning the liabilities of Guarantor; and (c) any right to require that any action or proceeding be brought against Seller or any other person, or to require that the Buyer exhaust its remedies against Seller or seek enforcement of any performance against Seller or any other person, or against any collateral pledged by

Seller or any other person liable for payment or performance of the Obligations, prior to any action against Guarantor under the terms hereof. Buyer shall not be obligated to file any claim relating to the Obligations in the event that Seller becomes subject to a bankruptcy, reorganization or similar proceeding, and the failure of the Buyer to so file shall not affect the Guarantor's obligations hereunder.

Except as to applicable statutes of limitation, no delay of the Buyer in the exercise of, or failure to exercise, any rights hereunder shall operate as a waiver of such rights, a waiver of any other rights or a release of Guarantor from any obligations hereunder.

Guarantor consents to the renewal, compromise, extension, acceleration or other changes including in the time of payment of and other changes in the terms of the Obligations, or any part thereof and amendments thereto, or any changes and modifications to the terms of the Agreement or waivers there under.

Guarantor shall not be discharged or released from its obligations hereunder by any proceeding, voluntary or involuntary, involving the bankruptcy, insolvency, receivership, reorganization, liquidation or arrangement of Seller or by any defense which Seller may have by reason of the order, decree or decision of any court or administrative body resulting from any such proceeding. Guarantor agrees that this Guaranty shall continue to be effective or shall be reinstated, as the case may be, if all or any part of any payment made hereunder is at any time avoided or rescinded or must otherwise be restored or repaid by the Buyer as a result of the bankruptcy of Seller, or otherwise, all as though such payments had not been made.

This Guaranty and the Guarantor's obligations hereunder shall remain in effect for the term of the Agreement.
