With this filing, Verizon Rhode Island (Verizon RI) is introducing the Verizon Client Advantage Program for Regulated Services (“VCAP-R”). VCAP-R is a loyalty program that provides a “bottom-of-the-intrastate bill” rebate if a business customer’s qualifying billing meets or exceeds a monthly objective on a cumulative basis. The rebate is applied to total billed charges for certain Verizon services and is dependent on the achievement by the eligible customer of an agreed upon level of billing.

Verizon certifies that the costs of providing all services under the Verizon Client Advantage Program for Regulated Services are not less than the Long-run Incremental Cost of providing the services.

If you have any questions regarding this filing, please contact Frances O'Neill-Cunha of my staff at 401 525-3560.

Enclosed are an original and nine copies of the tariff material. Please return a copy of this letter with your stamp of receipt.

Respectfully submitted,

VERIZON CLIENT ADVANTAGE SERVICE FOR REGULATED SERVICES (VCAP-R)

Section 1 – Purpose of Filing

In this filing, Verizon Rhode Island (“Verizon RI”) introduces the Verizon Client Advantage Program for Regulated Services (“VCAP-R”). VCAP-R is a loyalty program that provides a “bottom-of-the-intrastate bill” rebate if the customer's monthly actual contributing total billing meets or exceeds a monthly objective on a cumulative basis. The primary purpose of this filing is to meet the demands of large, national business customers, as well as respond to similar telecommunications offerings provided by competitors on a national level.

Section 2 – Service Description

VCAP-R provides qualifying business customers with a monthly rebate if the customer's monthly actual contributing total billing meets or exceeds a monthly objective on a cumulative basis. This rebate is applied to the customer's total billed charges for certain Verizon services. The rebate, which is identified on the customer's bill as a “Corporate Spending Award”, can be found on the intrastate portion of Verizon RI's bill in the “Other Charges and Credits” section. As described below, the customer's monthly rebate is based on the customer's level of annual multi-state Contributing Total Billings (CTB). It is applied to existing Verizon rates made available through general tariff offerings or Customer Specific Pricing (CSP) arrangements as specified in the VCAP-R tariff. The Verizon affiliates participating in VCAP-R, in addition to Verizon RI, are identified in the proposed tariff.

Section 3 – Target Market

Verizon's target market is large, national business customers with CTB of \$1.5M to \$80M annually. The goal of VCAP-R is for Verizon to recognize business customers with significant CTB across the Verizon footprint and provide incentives to those

customers to continue and even increase their current level of business with Verizon, rather than disperse their business among multiple carriers, as customers of this size often do.

Section 4 – Ordering of VCAP-R

To order VCAP-R, a business customer signs an agreement with Verizon to participate in the program in all states where the service is available pursuant to the tariff. A rebate appears on a customer's bill within two to three billing cycles from the date the service agreement was signed by both Verizon and the customer and will apply as of that service agreement date.

Section 5 – Application of Rates and Charges

Verizon has established the following two categories of business customers in determining the level of the monthly rebate for the first year of the VCAP-R program.

- Group A - Customers with an annual, national CTB of between \$1.5M and \$29.99M receive a rebate in the amount of a 5% discount on intrastate telecommunications services, voice messaging services and inside wire maintenance in the first year.
- Group B - Customers with an annual, national CTB of between \$30M and \$80M receive a rebate in the amount of a 5.5% discount on intrastate telecommunications services, voice messaging services and inside wire maintenance in the first year.

The Customer Commitment is the amount of revenue for intrastate services and interstate access services that the customer commits to spend with Verizon over the next 12 months. Customers commit to a particular, annual level of CTB in their service agreements. Verizon then divides that CTB amount into 12 monthly amounts and sets a threshold of 90%. For any given month, if a customer meets 90% of the monthly customer commitment on a cumulative basis, Verizon applies the rebate. If the customer fails to meet the monthly customer commitment on a cumulative basis, the customer does not receive a rebate for that month.

If the customer fails to meet their annual customer commitment, there is no penalty. Customers are entitled to keep whatever rebates they have earned throughout the measurement period. Customers can discontinue their participation in VCAP-R at any time without incurring any termination liability.

Rebate amounts in subsequent years are calculated by taking the end of the current year actual CTB and identifying what percent it is of the first year Customer Commitment. That percent and the Customer Commitment for the following year establishes the percent rebate for the subsequent year. Rebate amounts remain constant during each program year and range from 2% to 6.5%.

The following example illustrates the application of the monthly rebate under the VCAP-R program for month one. Assume that, on an annual basis, the Customer's Commitment CTB is \$12,000,000. The Customer Commitment will be 90% of Commitment CTB, which equals \$10,800,000, and the Monthly Rebate Trigger is 90% of Customer Commitment on a monthly basis, which equals \$810,000. If the Customer's Monthly Actual CTB is \$900,000, which exceeds \$810,000, the Customer will receive a rebate equal to, for Group A, 5% of the Customer's State Specific Monthly Actual CTB. Assume that the Customer's State Specific Monthly Actual CTB is \$500,000, and that the Customer's State Specific Monthly Actual Rebate CTB is \$300,000. In this example, the Customer will receive a rebate of \$25,000 (5% of \$500,000), which will be applied against the Customer's State Specific Monthly Actual Rebate CTB of \$300,000.

Verizon certifies that the costs of providing all services under the Verizon Client Advantage Program for Regulated Services are not less than the Long-run Incremental Cost of providing the services.

15.12.4 Terms & Conditions	
C.	Increases in CTB Categories
1.	If a Customer combines, by merger, acquisition of assets or equity, or otherwise, with a new entity that otherwise qualifies under the VCAP-R Plan, the Customer and the new entity may elect in writing to be treated as a single Customer for purposes of consolidating their Eligible CTB. In this event the Telephone Company shall combine 100% of the Customer's Base Year Eligible CTB and 100% of the Base Year Eligible CTB of the new entity to obtain a single new combined Eligible CTB. If the new entity does not have Base Year Eligible CTB, then 100% of the most recent available annual Eligible CTB of the new entity will be used to obtain a single new combined Eligible CTB. This will produce a single new combined Customer Commitment that will apply prospectively to the single new combined Customer. Any such increase shall be made effective at the start of the next Measurement Period.
2.	If a Customer combines, by merger, acquisition or assets or equity, or otherwise, with a new entity, but the Customer and the new entity do not elect to be treated as a single new Customer for purposes of consolidating Eligible and Customer Commitment, and the new entity wishes to participate in the VCAP-R Plan, the new entity must meet the eligibility requirements set forth in Section 15.12.3.B. and must sign a VCAP-R agreement.

15.12.5 Application of Rates and Charges	
A.	Rebates
1.	If the Customer's Monthly Actual CTB meets or exceeds the Monthly Rebate Trigger on a cumulative basis during the Measurement Period, the Customer will receive a rebate by multiplying the Customer's State Specific Monthly Actual CTB by the applicable rebate percentage set forth in Part M, Sections 1.15.12 and 1.15.13, and applying the resulting rebate amount to the Customer's State Specific Monthly Actual Rebate CTB.
2.	If the Customer does not meet the Monthly Rebate Trigger on a cumulative basis during the Measurement Period, the Customer will not receive a VCAP-R rebate for that month. However, if the Customer generates sufficient Actual CTB during the Measurement Period so that the average Monthly Actual CTB meets the Monthly Rebate Trigger on a cumulative basis during the Measurement Period, then the Customer will receive a VCAP-R rebate for any month(s) in which the Customer did not originally qualify for a VCAP-R rebate under Section 15.12.5.A.1.
3.	The Telephone Company will perform annual reviews to make any adjustments as necessary to conform to the rates, terms and conditions of the VCAP-R Plan. No interest will be paid in connection with the application of rebates.
