

Comments on RI PUC Docket 3999 filing (Qualifying Facilities Power Purchase Rate)
November 18, 2008

From:
Gary Gump
37 Aquidneck Ave
Portsmouth, RI 02871
Chairman PEDC Sustainable Energy Subcommittee

Comment 1:

Part III B. (1)

Clarify that any excess energy credit (over and above the initial named account) may be applied to any other accounts owned by the customer.

Suggested change to wording in NG Docket 3999 Part III B. (1) (on sheet 6 of redline version):

forth in Rhode Island General Law subsection 39-26-6(j)., Any Rhode Island city or town, educational institution, farm, or the Narragansett Bay Commission, whose account is not currently in arrears, may elect to apply any such credits earned to

<u>any other accounts</u>

by it. Non-profit affordable housing as defined by Rhode Island General Law subsection 39-26-2(19) may elect to apply any such credits

Comment 2:

Schedule B Net-metering application of credits

Amend schedule B to identify primary account for credit purposes and additional account(s) for excess credits
