**RE: Docket 4034 - Accelerated Replacement Program
Monthly Report - April - June 2009**

Dear Ms. Massaro:

Enclosed for filing is an original and nine (9) copies of National Grid's¹ April-June 2009 Monthly Accelerated Replacement Program Report ("April-June 2009 ARP Report"). As explained in the Company's March 4, 2009 letter in the above referenced docket, National Grid has agreed to provide the following two progress reports on a monthly basis: (1) a monthly list of completed service locations and their associated costs during the replacement period; and (2) a monthly status report detailing the main replacements that were commenced and completed in the prior month, identifying each project's location and known or estimated final costs.

The April-June 2009 ARP Report includes the following two attachments:

- Attachment 1 – National Grid's Main and Associated Service Replacement Candidates, and
- Attachment 2 – National Grid's Bare-Steel, High-Pressure Inside Service Replacement Program Candidates.

Regarding Attachment 1, the list includes 138 planned main replacement projects, which reflects 14 more projects than the Company provided in its May 4, 2009 work plan. As previously explained, the list of projects is fluid as the Company continues to identify possible additional replacement candidates to "back-fill" previously identified projects that may not be feasible in the current year (e.g., municipal projects that get postponed). The Company will continue to update this list on a monthly basis as projects get added and deleted.

¹ The Narragansett Electric Company d/b/a National Grid.

Regarding Attachment 2, this list includes 875 scheduled service replacement appointments. As noted above, the list of projects is fluid, and the Company will continue to update this list on a monthly basis as service replacement appointments are added and deleted.

Thank you for your attention to this transmittal. If you have any questions, please call me at (401) 784-7667.

Very truly yours,

Thomas R. Teehan
