**VIA HAND DELIVERY & ELECTRONIC MAIL**

Luly E. Massaro, Commission Clerk  
Rhode Island Public Utilities Commission  
89 Jefferson Boulevard  
Warwick, RI 02888

**RE: Docket 4237 - Commission Investigation relating to Stray and Contact Voltage Occurring in Narragansett Electric Company Territories**  
**Responses to Record Request #1 and #3**

Dear Ms. Massaro:

On behalf National Grid<sup>1</sup> enclosed are ten (10) copies of the Company's responses to Record Request #1 and #3 issued at the Commission's Evidentiary Hearing held on September 24, 2012 in the above-captioned proceeding.

Thank you for your attention to this transmittal. If you have any questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Thomas R. Teehan

Enclosure

cc: Docket 4237 Service List  
Steve Scialabba  
Leo Wold, Esq.

---

<sup>1</sup> The Narragansett Electric Company d/b/a National Grid ("National Grid" or the "Company").

Certificate of Service

I hereby certify that a copy of the cover letter and/or any materials accompanying this certificate were electronically transmitted to all individuals listed below. Copies of this transmittal will be hand delivered to the RI Public Utilities Commission.

October 1, 2012

**Record Request #1**

Request:

Please provide the underground residential distribution areas that are manually tested by National Grid in RI and when those areas are tested. (TR I, September 24, 2012, pages 39-40)

Response:

Attachment RR-1 provides a list of all underground residential distribution ("URDs") areas in Rhode Island by town

Underground elevated voltage inspections of Company-owned assets completed or planned to be completed from 2006 to 2012 are shown by town in Table 1 below. Specific detail by URD is not available. From 2006 to 2012 the Company did not have a formal schedule in place for testing the underground assets in the designated areas. The Company provided a list of assets to be tested to the contractor with the stipulation that all assets are tested within the five year inspection cycle, and that at least 20% of the total assets are tested in each of the first 4 years, with any remaining assets tested in year 5.

Table 2 below provides the inspection cycle from FY14 to FY17. Starting in FY14, all URDs in a town will be inspected in the year indicated.

Please note that inspections from 2006 to 2012 were based on a calendar year but starting in April 2013 (FY 2014) inspections will be on a fiscal year.

Prepared by or under the supervision of: Bartholomew Cass

**Record Request #3**

Request:

For each of the Company's proposed Contact Voltage Risk Areas please provide the last time that the assets were tested manually and the next time that these assets are scheduled to be tested. (TR I, September 24, 2012, pages 60-62)

Response:

Table 1 below shows the underground and streetlight elevated voltage inspections completed or planned to be completed from 2006 to 2012 in the contact voltage designated areas by town.

**TABLE 1**

**Rhode Island Elevated Voltage Testing Summary Report 2006 - 2012  
Underground & Street Lights - Contact Areas Elevated Voltage Testing Performed**

*Note: 'X' indicates elevated voltage test(s) performed*

WOONSOCKET	X						X

From 2006 to 2012 the Company did not have a formal schedule in place for testing Company-owned underground assets in the designated areas. The Company provided a list of assets to be tested to the contractor with the stipulation that all those assets are tested within the five year inspection cycle, and that at least 20% of the total number of those assets are tested in each of the first 4 years, with any remaining assets tested in year 5. Starting in FY14 the Company will have a specific schedule for testing underground and streetlight assets. Table 2 below provides the proposed testing for underground and streetlight assets in the Contact Voltage Risk Areas for FY14 to FY17.

**TABLE 2**

**Rhode Island Elevated Voltage Testing Proposed Schedule FY14 through FY17  
Underground & Street Lights - Contact Area Cities/Towns Elevated Voltage Testing to be Performed**
