**UPDATED PROCEDURAL SCHEDULE**

To: Thomas Teehan, Esq. and Leo Wold, Esq.  
From: Cynthia G. Wilson-Frias, Senior Legal Counsel  
Date: January 6, 2014  
Re: **Dkt. No. 4237-A** – National Grid’s Annual Contact Voltage Compliance Report

The scope of this docket is a review of whether National Grid’s Annual Contact Voltage Compliance Report is consistent with the Contact Voltage Program approved in Commission Order No. 20871 (issued November 9, 2012). National Grid has recommended the addition of a portion of downtown Westerly, RI in the Designated Contact Voltage Risk Areas (DCVRAs). National Grid has also recommended that all DCVRAs be tested in the second year of the program.

The parties to this docket are National Grid and the Division of Public Utilities and Carriers (“Division”).

The Commission is in receipt of the Division’s Recommendations and Review Comments dated December 19, 2014. As noted in the September 18, 2013 Procedural Schedule, at the time, it was unclear whether a hearing would be needed. The commissioners have individually advised me that at this time, they do not believe they require a hearing to reach a determination in this matter.

1/10/2014 Deadline for National Grid to file its response to Division’s Recommendations and Review Comments, dated 12/19/13

It would be helpful if any written comments could be filed no later than 1/10/2014 in this docket, as well.

1/16/2014 Anticipated date for open meeting
