Luly E. Massaro, Commission Clerk
Rhode Island Public Utilities Commission
89 Jefferson Boulevard
Warwick, RI 02888

RE: Docket 4323 - Application for Approval of a Change in Electric and Gas Base Distribution Rates Pursuant to R.I.G.L. Sections 39-3-10 and 39-3-11 Responses to Commission Data Requests - Set 5 - ELEC/GAS

Dear Ms. Massaro:

Enclosed is an original and ten (10) copies of National Grid's¹ responses to the Commission's Fifth Set of Data Requests in the above-captioned proceeding.

The responses to the Fifth Set included with this filing are listed in the enclosed discovery log.

Thank you for your attention to this transmittal. If you have any questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Thomas R. Teehan

Commission 5-1-ELEC/GAS

Request:

Robert Hevert. Please define the term “financial market dislocation” as used in the following areas of your testimony: p. 43, line 18 and p. 44, line 13.

Response:

The term “financial market dislocation” in that context refers to the distress experienced in equity and credit markets during and subsequent to the 2008 credit crisis, which often is considered to have begun with the September 2008 bankruptcy of Lehman Brothers.

Commission 5-2-ELEC/GAS

Request:

Robert Hevert states on p. 52, lines 6-7, "... from 1992 through March 16, 2012, the average risk premium for electric utilities was approximately 5.53%." Does this mean that the average return on electric utility stock during this time period was 5.53% higher than the yield on 30-year Treasury bonds issued during the same time period? If not, please state what this means in layman's terms.

Response:

That is the correct interpretation of that statement. As noted on Page 50, Line 7 of Company Witness Robert B. Hevert's Direct Testimony, " RP = Risk Premium (difference between allowed ROEs and the 30-Year Treasury Yield)".

Commission 5-3-ELEC/GAS

Request:

Robert Hevert (RBH-4). Does the term "Blue Chip Consensus Forecasts" in RBH-4 reflect the near and long term projections of the 30-year Treasury Bond Yields? If yes, why did you choose Blue Chip forecasts?

Response:

In Schedule RBH-4, both the near-term and long-term Blue Chip forecasts of 30-year Treasury Bond Yields are presented. That source was chosen as it is a consensus forecast, which is regularly updated, reflects current market conditions and, in Mr. Hevert's experience, is commonly referenced in regulatory proceedings.

Commission 5-6-ELEC/GAS

Request:

Referring to Timothy Horan, p. 9, line 4, National announced the restructuring plan on January 31, 2011, but on what date did the jurisdictional model go into effect?

Response:

The new U.S. organizational structure based on local state jurisdictions led by regional presidents became effective April 4, 2011.

Commission 5-8-ELEC/GAS

Request:

Evelyn Kaye. Referring to the Company's response to DIV 3-35-ELEC, over what time period was the \$1.1 million refunded to RIDOT?

Response:

(It is assumed that the requestor intended to refer to Commission 3-35-ELEC, rather than Division 3-35-ELEC.)

The refund check was issued to RIDOT on February 5, 2010.

Commission 5-9-ELEC/GAS

Request:

Maureen Heaphy, p. 17, line 21 through p. 18, line 10. Please provide the percentage of customer oriented goals versus individual goals (as provided for Band B through F employees) associated with variable pay for Band A management employees.

Response:

For Band A management employees, the percentage of customer oriented goals versus individual goals is the same as the percentage for employees in Bands B and C. 20 percent of variable pay is based on attaining safety and reliability, stewardship, customer responsiveness and cost competitiveness objectives, 40 percent of variable pay is based on attaining individual objectives and 40 percent of variable pay is based on attaining financial objectives.

Commission 5-13-ELEC/GAS

Request:

Maureen Heaphy (p. 30, line 7) states that for employees hired before January 1, 2011, National Grid will ... "in most cases" share in the cost of post-65 retiree coverage. Please elaborate, and explain under what circumstances the Company would not share in the cost of post-65 retiree coverage.

Response:

Certain groups of management employees hired prior to January 1, 2011 will have access to National Grid post-65 medical plans in retirement. Those employees will not, however, receive any subsidy from National Grid and are required to pay the full cost of the coverage. These employee groups are determined based on the legacy company the employee was hired into and the date they were hired. For example, management participants in the National Grid Niagara Mohawk Pension Plan hired on or after July 1, 1992 with less than 20 years of service can participate in the post-65 retiree medical plans but they must pay the full cost.

Commission 5-14-ELEC/GAS

Request:

Maureen Heaphy states on p. 31, lines 4-5 that employees at KeySpan had a more favorable post-employment life insurance benefit than the current benefit, \$20,000. What was the amount/value of the "more favorable" life insurance benefit offered by KeySpan?

Response:

The retiree life insurance benefit for legacy KeySpan employees was generally 1.5 times base pay for pre-65 coverage. This amount reduced 10 percent per year from age 66 - 70 and 5 percent per year from age 71 - 75 for a final benefit that was 25 percent of the original pre-65 coverage.

Commission 5-15-ELEC/GAS

Request:

According to Ms. Heaphy (p. 32, lines 14-16), the EGWP will produce savings through coordinated pharmaceutical manufacturer discounts on brand drugs under the PPACA, as well as federal catastrophic reinsurance payments. Please explain the basis for these assumptions.

Response:

National Grid will be implementing a group-based Medicare Part D plan, or "EGWP," for 2013. Pursuant to Medicare Part D program rules, this new plan will be eligible for three types of subsidies: a direct federal capitation, federal reinsurance, and a 50 percent pharmaceutical manufacturer discount for brand drugs dispensed in the Part D "donut hole".

Using National Grid's prescription drug plan designs, projected program costs, and Medicare Part D program mechanics and federal guidance, Aon Hewitt, National Grid's valuation actuary, modeled the projected subsidies the National Grid program will be eligible for beginning in 2013 and into the future. Aon Hewitt developed accounting projections based on these modeled cash flows, which formed the basis for the accounting results.

Commission 5-16-ELEC/GAS

Request:

Maureen Heaphy. Please demonstrate in detail how the two EGWP related savings estimates on p. 32, lines 21-22 (\$375 million, \$62 million) were derived. Please include a comparison of cost savings associated with the RDS program versus the EGWP.

Response:

Aon Hewitt, National Grid's valuation actuary, developed the savings estimates resulting from the move to an Employer Group Waiver Plan ("EGWP"). The first step they employed in estimating the savings was to determine the change in the Accumulated Post Retirement Benefit Obligation ("APBO") associated with discontinuing the Retiree Drug Subsidy ("RDS") strategy and moving to a Part D EGWP plus wrap approach beginning in 2013. This move is expected to generate savings from the opportunity to access direct federal Part D capitation payments; the impact of coordinating secondary to the 50 percent pharmaceutical manufacturer discount on brand drugs; and the federal Part D plan reinsurance payments.

Aon Hewitt modeled the savings associated with the above using National Grid's prescription drug claim experience, plan design, projected costs and Medicare Part D's program. For this analysis, the impact was measured using a 5.0 percent discount rate assumption with the savings being retained by National Grid. The estimated reduction in the APBO is \$375 million.

The estimated \$62 million annual expense savings is made up of three components under FAS 106: Service Cost, Interest Cost and Gain/Loss Amortization. The annual expense impact on each component is shown below:

Service Cost:	\$ 7 million
Interest Cost:	\$20 million
Gain/Loss Amortization:	\$35 million
Total Impact:	\$62 million

Both the interest cost and the gain/loss amortization are based on the \$375 million APBO reduction. The service cost reduction represents the savings associated with future service of active employees.

With respect to the comparison of cost savings associated with the RDS program versus the EGWP, there has not been any specific analysis done for National Grid. The savings outlined here are incremental to the current RDS approach.

Commission 5-17-ELEC/GAS

Request:

Maureen Heaphy, p. 33. On what date did National Grid begin participating in the Early Retiree Reinsurance Program?

Response:

The Early Retiree Reinsurance Program was formed with the passage of the Health Care Reform legislation (PPACA). National Grid submitted its applications for participation in September 2010 and the Department of Health and Human Services approved the applications on September 28, 2010.

Commission 5-19-ELEC

Request:

It has been widely reported that in 2011, the NY PSC retained Overland Consulting to conduct an audit of National Grid's books, and the audit is currently pending as of the date of this request. Is any portion of Overland Consulting's \$1.76 million fee included in the cost of service in this docket? If yes, what specific amount is included in cost of service and what is the basis for including this in the cost of service?

Response:

No portion of Overland Consulting's \$1.76 million fee has been included in the Company's cost of service for Narragansett Electric or Narragansett Gas.

Commission 5-20-ELEC

Request:

Timothy Horan. When is the audit, performed by Overland Consulting and ordered by the NY PSC in 2011, expected to be completed, and what has been the cause of the delay in completing this audit?

Response:

While an exact date cannot be determined at this time, the expectation is that the audit will be completed before the end of the calendar year.

There were numerous reasons for the delay, but primarily, the data collection, analysis, and response processes were more lengthy than anticipated. These processes required a significant number of unanticipated resources from both National Grid and Overland Consulting.

Commission 5-21-ELEC/GAS

Request:

Timothy Horan. Have expenses items which have been the subject of recent audits in either MA or NY been included in the cost of service in this docket? If so, why and how were these expenses allocated to Rhode Island?

Response:

In preparing its cost of service for Narragansett Electric and Narragansett Gas in this proceeding, the Company has taken measures to address the expense items that are the subject of the current New York Public Service Commission audit and the pending Massachusetts Department of Public Utilities' audit (i.e., expatriate expenses, reimbursable employee expenses/expense reports and the overall allocation of service company expenses to affiliate companies). Specifically, the Company excluded from its cost of service the relocation and living expenses of U.K. expatriate employees working in the U.S. With regard to U.K. expatriate employee salaries, the Company included the lesser of the employee's actual base salary or the comparable market reference point for such employee's position in its cost of service plus reimbursable expenses incurred in the normal course of business. The Company has also excluded from its cost of service all reimbursable employee expenses paid to Band A employees. Further, as discussed in the Direct Testimony of Company Witness Michael D. Laflamme, National Grid retained Ernst & Young, LLP ("EY") to review charges from National Grid service companies to all National Grid affiliates recorded in the calendar year ended December 31, 2011 for appropriateness of the allocation methods employed. The Company has included normalizing adjustments to both the Narragansett Electric and Narragansett Gas cost of service as a result of the EY review.
