MEMORANDUM

To: Docket No. 4412 Service List  
From: Cynthia Wilson-Frias, Senior Legal Counsel  
Date: May 27, 2014  
Re: Docket No. 4412 – Long Term Contract for Renewable Energy Recovery Factor (LTC Recovery Factor) for effect July 1, 2014 – Schedule and Discovery

On May 15, 2014, National Grid filed its proposed LTC Recovery Factor for effect July 1, 2014. National Grid's calculations show that the factor needs to increase from \$0.0011 per kWh to \$0.0028 per kWh to collect a total above-market cost of \$300,946 for the next six-month period. The effect on a typical residential customer using 500 kWh per month is \$0.15.

**PUC's Second Set of Data Requests to National Grid:** PUC-DR-2-1. Please provide a revised Attachment 1, page 2 of 2 to identify each PPA by name, rather than number and to add a column between (a) and (b) on Section 1 to identify the commercial operation date. This revised Attachment should be submitted by **June 3, 2014**.

**The Division's position is to be filed on or before June 16, 2014.** Please advise as soon as possible if the Division believes a hearing is necessary.

In the event there is any dispute, National Grid may have until June 20, 2014 to provide a response.
