**RE: Docket 4536-C – Renewable Energy Growth Program
Small-Scale Solar Projects Aggregation Summary – Third Quarter 2015
Rhode Island Certification Number: RI-4536-N15**

Dear Ms. Massaro:

I have enclosed ten redacted copies and one confidential copy of National Grid's¹ summary of the Small-Scale Solar Projects aggregation for the Rhode Island Renewable Energy (RE) Growth Program for the third quarter (July, August, September) of 2015 (Aggregation Summary).

Pursuant to Rhode Island Public Utilities Commission (PUC) Rule 1.2(g) and R.I. Gen. Laws § 38-2-2(4)(B), the Company is seeking protective treatment of certain confidential information in the enclosed Aggregation Summary and Renewable Energy Certificate Assignment and Aggregation Certification Forms (Certification Forms). Accordingly, the Company has also enclosed a Motion for Protective Treatment.

As you may recall, the Company, with the approval of the Rhode Island Public Utilities Commission (*see* Order No. 22015 dated July 31, 2015 in Docket No. 4536-C), established a single New England Power Pool Generation Information System asset number. The Company and its affiliates, as applicable, is also acting as Aggregator Owner and Verifier, as allowed in the Renewable Energy Standard Regulations, for the purpose of certifying the aggregations of Small-Scale Solar projects enrolled in the RE Growth Program as Eligible RE Resources under a single Rhode Island Certification number.

Luly Massaro, Commission Clerk
Docket 4536-C – Renewable Energy Growth Program
Small-Scale Solar Projects Aggregation Summary – Third Quarter 2015
October 5, 2015
Page 2 of 2

The enclosed summary, provided as Attachment 1, contains the following:

- The list of all projects that have been either added to or removed from the certified aggregation and that have reached commercial operation
- Project details and status
- Total kilowatt count in the certified aggregation
- Total kilowatts that have been removed (projects that have left the program)
- Total kilowatt count for projects that have begun commercial operation
- Total kilowatt count for projects that have been added, but have not yet begun commercial operation

Also enclosed with the summaries are 26 Certification Forms (one for each project), provided as Attachment 2, which serve as the simplified authorization forms for each project owner to sign as a replacement for Appendix A of the RE Resources Eligibility Form.

Thank you for your attention to this matter. If you have any questions, please contact me at 781-907-2121.

Very truly yours,

Raquel J. Webster

Docket No. 4536-C

**NATIONAL GRID’S MOTION FOR PROTECTIVE TREATMENT
OF CONFIDENTIAL INFORMATION**

National Grid¹ respectfully requests that the Rhode Island Public Utilities Commission (PUC) provide confidential treatment and grant protection from public disclosure certain confidential information submitted in this proceeding, as permitted by Rule 1.2(g) of the PUC’s Rules of Practice and Procedures and R.I. Gen. Laws § 38-2-2(4)(B). National Grid also respectfully requests that, pending entry of that finding, the Division preliminarily grant National Grid’s request for confidential treatment pursuant to Rule 1.2(g).

I. BACKGROUND

On October 5, 2015, National Grid filed with the PUC a summary of the Small-Scale Solar Projects aggregation for the Rhode Island Renewable Energy (RE) Growth Program for the third quarter of 2015 (Aggregation Summary). This filing included RE Certificate Assignment and Aggregation Certification Forms (Certification Forms), which serve as the simplified authorization forms for each project owner to sign as a replacement for Appendix A of the RE Resources Eligibility Form. The Aggregation

¹ The Narragansett Electric Company d/b/a National Grid (National Grid or the Company).

Summary and Certification Forms include confidential customer contact information, such as name, address, and telephone number, and National Grid is legally obligated to protect such information from public disclosure. Therefore, the Company seeks confidential protection for the Aggregation Summary and Certification Forms. For the PUC's review, the Company has provided confidential versions and redacted public versions of these documents.

II. LEGAL STANDARD

PUC Rule 1.2(g) provides that access to public records shall be granted in accordance with the Access to Public Records Act (APRA), R.I. Gen. Laws § 38-2-1 *et seq.* Under the APRA, all documents and materials submitted in connection with the transaction of official business by an agency is considered a “public record” unless the information contained in such documents and materials falls within one of the exceptions specifically identified in R.I. Gen. Laws. § 38-2-2(4). Therefore, to the extent that information provided to the PUC falls within one of the designated exceptions to the public records law, the PUC has the authority under the terms of the APRA to treat such information as confidential and to protect that information from public disclosure.

In that regard, R.I. Gen. Laws. § 38-2-2(4)(A)(I)(b) provides that the following types of records shall not be deemed public:

Personnel and other personal individually-identifiable records otherwise deemed confidential by federal or state law or regulation, or the disclosure of which would constitute a clearly unwarranted invasion of personal privacy pursuant to 5 U.S.C. §552 *et seq*

See Providence Journal Co. v. Kane, 577 A.2d 661, 665 (R.I. 1990) (noting that the plaintiffs' request for information that will uniquely identify State employees by name, address, and employment history directly contravenes the clear proscription set forth in § 38-2-2 against disclosure of all records which are identifiable to an individual employee, including personnel records. Although the Court in Kane addressed a request for personal employee information, the APRA clearly protects the personal customer information that National Grid seeks to protect here because this information includes customers' names and addresses. As such, the customers' personal contact information contained in the Aggregation Summary and Certification Forms satisfies the exception found in R.I. Gen. Laws. § 38-2-2(4)(A)(I)(b).

III. BASIS FOR CONFIDENTIALITY

As noted above, the Aggregation Summary and Certification Forms that the Company has filed with the PUC are confidential because they include confidential customer contact information, such as name, address, and telephone number - information that National Grid does not ordinarily disclose to the public and which National Grid is legally obligated to protect from public disclosure.

IV. CONCLUSION

Accordingly, National Grid respectfully requests that the PUC grant protective treatment to the Aggregation Summary and Certification Forms included in National Grid's October 5, 2015 filing to the PUC in this docket.

Respectfully submitted,

NATIONAL GRID

By its attorneys,
