**MEMORANDUM**

TO: Docket No. 4549 Service List

FROM: Cynthia Wilson-Frias, Deputy Chief of Legal Services

RE: The Narragansett Electric Company d/b/a National Grid Tariff Advice Filing to Amend RIPUC No. 2099, Net Metering Provision

DATE: March 6, 2015

The purposes of this docket are to: (1) review the propriety of National Grid's proposed changes to the Net Metering tariff and (2) to review how National Grid is applying the net metering credits. The PUC desires to address both issues at once. However, as review of the tariff changes is not dependent on determination of the application of net metering credits, the review of the application of net metering credits should not impede the decision on the tariff changes.

Neither National Grid nor the Division had an objection to allowing Wind Energy Development to intervene in this matter.

The following is the procedural schedule in the above-referenced docket. The parties agreed to a one week discovery deadline.
