Re: A & R Marine Corp., d/b/a Prudence Bay Islands Transport – Rate Change Application

Dear Luly:

As you know, this office represents A & R Marine Corp., d/b/a Prudence & Bay Islands Transport (A & R).

Enclosed for filing are the original and nine (9) copies of a Rate Change Application. We request new rates to become effective in thirty (30) days in accordance with the R.I.G.L. § 39-3-11 required 30-day notice period.

Also enclosed are the following, which I believe contain all the information required by your Rules:

1. Proposed rate schedule changes which are set forth in the proposed revised tariffs (the current tariffs are also included for comparison).
2. An attestation from Stephen Antaya, President and Treasurer of A & R.
3. The direct testimony and exhibits of David G. Bebyn, CPA.
4. Index of Part Two filing requirements.
5. Proposed notice for your review and comment.

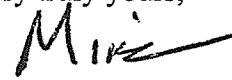

Please also inform me as to any publication requirements for the public notice which we must comply with pursuant to ¶2.4 of your Rules of Practice and Procedure. I assume publication will be made in the *Providence Journal*. Please let me know when the Notice has been approved.

Digital files of this document will also be emailed to you.

We are seeking a rate increase of \$564,409, which translates to a 96.50% increase.

Please let me know if you need any further information or documentation.

Very truly yours,

Michael R. McElroy

## Schedule F

### Rules and Regulations

- Rule No. 1 Shipment of kerosene, gasoline, and any other inflammable material or empty containers for same will be accepted for transportation on Company's vessels subject to United States Coast Guard Regulations.
- Rule No. 2 Shipments of well pipe as described in Item No. 120 will not be accepted for transportation on Company's vessels, when cubic dimension exceeds nine (9) cubic feet.
- Rule No. 3 Packages containing personal effects and household utensils, for which rates are published in Item No. 40, will be securely packaged and containers will be strongly secured to prevent damage.
- Rule No. 4 Refrigerators, when shipped loose, will be accompanied by matting to prevent any damage to exterior of the refrigerator.
- Rule No. 5 Shippers of livestock will provide feed and water and will accompany such animals, when transportation is effected.
- Rule No. 6 Rates published in this tariff are subject to a minimum charge of fifty (50) cents per shipment.
- Rule No. 7 Motor vehicles will be moved between the points named in this tariff, only when the navigable waters are at full tide.
- Rule No. 8 Commodities shall not be subjected to rate charges if carried onto the vessel in a single boarding by a fare-paying passenger or vehicle and carried off the vessel in a single debarking by a fare-paying passenger or vehicle.

## Schedule F

### Rules and Regulations

- Rule No. 1 Shipment of kerosene, gasoline, and any other inflammable material or empty containers for same will be accepted for transportation on Company's vessels subject to United States Coast Guard Regulations.
- Rule No. 2 Shipments of well pipe as described in Item No. 120 will not be accepted for transportation on Company's vessels, when cubic dimension exceeds nine (9) cubic feet.
- Rule No. 3 Packages containing personal effects and household utensils, for which rates are published in Item No. 40, will be securely packaged and containers will be strongly secured to prevent damage.
- Rule No. 4 Refrigerators, when shipped loose, will be accompanied by matting to prevent any damage to exterior of the refrigerator.
- Rule No. 5 Shippers of livestock will provide feed and water and will accompany such animals, when transportation is effected.
- Rule No. 6 Rates published in this tariff are subject to a minimum charge of fifty (50) cents per shipment.
- Rule No. 7 Motor vehicles will be moved between the points named in this tariff, only when the navigable waters are at full tide.
- Rule No. 8 Commodities shall not be subjected to rate charges if carried onto the vessel in a single boarding by a fare-paying passenger or vehicle and carried off the vessel in a single debarking by a fare-paying passenger or vehicle.

	bay, sliding	\$ 7.60

## Schedule F

### Rules and Regulations

- Rule No. 1      Shipment of kerosene, gasoline, and any other inflammable material or empty containers for same will be accepted for transportation on Company's vessels subject to United States Coast Guard Regulations.
- Rule No. 2      Shipments of well pipe as described in Item No. 120 will not be accepted for transportation on Company's vessels, when cubic dimension exceeds nine (9) cubic feet.
- Rule No. 3      Packages containing personal effects and household utensils, for which rates are published in Item No. 40, will be securely packaged and containers will be strongly secured to prevent damage.
- Rule No. 4      Refrigerators, when shipped loose, will be accompanied by matting to prevent any damage to exterior of the refrigerator.
- Rule No. 5      Shippers of livestock will provide feed and water and will accompany such animals, when transportation is effected.
- Rule No. 6      Rates published in this tariff are subject to a minimum charge of fifty (50) cents per shipment.
- Rule No. 7      Motor vehicles will be moved between the points named in this tariff, only when the navigable waters are at full tide.
- Rule No. 8      Commodities shall not be subjected to rate charges if carried onto the vessel in a single boarding by a fare-paying passenger or vehicle and carried off the vessel in a single debarking by a fare-paying passenger or vehicle.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS  
PUBLIC UTILITIES COMMISSION

IN RE: A & R MARINE CORP., d/b/a : DOCKET No.: \_\_\_\_\_  
PRUDENCE & BAY ISLANDS TRANSPORT :

---

**DIRECT TESTIMONY AND EXHIBITS OF  
DAVID G. BEBYN, CPA**

---

**Prefiled Direct Testimony  
of  
David G. Bebyn CPA**

**For**

**A&R MARINE CORP. d/b/a PRUDENCE & BAY ISLANDS TRANSPORT**

**Docket No. \_\_\_\_\_**

**November 2015**

1 **Q. Will you please provide your full name and your employer for the record?**

2 A. Yes, my name is David George Bebyn, CPA. I am the president of B&E Consulting LLC.

3

4 **Q. Mr. Bebyn, have you testified as an expert accounting witness prior to this docket?**

5 A. Yes. I have provided expert testimony on rate related matters before utility commissions in  
6 Rhode Island and Connecticut. Regarding the Rhode Island Public Utilities Commission, I have  
7 filed testimony and testified in the Woonsocket Water Department's (WWD) last two rate filing  
8 Dockets #3800 & #4320 and Interstate Navigation Company's general rate filing Docket #4373  
9 in support of the adjusted test year and rate design. I have also filed testimony on behalf of the  
10 Pascoag Utility District in Docket #4341 in support of the rate year and rate design.

11

12 **Q. What is your knowledge of A&R Marine Corp.?**

13 A. I presented expert testimony for A&R Marine Corp.'s (A&R) request in Docket #D-13-  
14 105 for a CPCN to provide year round passenger, vehicle and freight lifeline ferry  
15 service between Bristol and Prudence and Hog Islands. Also, I provided expert testimony  
16 in support of A&R's financing requests in Dockets #D-14-62 and #D-14-180.

17

18 **Q. Mr. Bebyn, what is the purpose of your testimony?**

19 A. B&E was engaged by A&R to provide expert testimony in support of its rate request. My  
20 testimony includes a presentation of the test year, rate year cost of service, rate design, and  
21 revenue check, including the ratepayer impact associated with this rate request.

22

23 **Q. What are the major reasons for requesting rate relief at this time?**

24 A. A&R agreed in its CPCN filing in Docket #D-13-105 that it would operate under the old  
25 Prudence Ferry, Inc.'s existing rate tariffs until A&R accumulated its own ridership and expense  
26 information. A&R began operations in September 2014 when Prudence Ferry Inc. (PFI), the  
27 island's previous ferry provider, ceased operation. PFI had rates in effect which were approved  
28 in Docket #2090 and were effective June 8, 1993. These rates are over twenty two years old and  
29 are inadequate to cover current operations and generate the appropriate return on equity.

30

1 PFI, before it ceased operations, had not addressed major infrastructure needs allowing. Among  
2 other things, the dock on Prudence Island fell into major disrepair. Since beginning operations,  
3 A&R has (1) constructed a new dock on Prudence Island at a cost of over \$1,600,000, (2)  
4 purchased a primary ferry and substantially upgraded it at a cost of about \$1,400,000, and (3)  
5 purchased a backup vessel for \$220,000. These improvements were financed with a mix of debt  
6 and equity with over half of it coming from owner's equity contributions. A&R also made other  
7 improvements, including improvements to the Bristol dock and customer service and ticketing  
8 upgrades.

9

10 **Q. What increase is A&R requesting in this filing?**

11 A. A&R is requesting an increase in revenue requirement of \$564,409 which is a 96.50%  
12 increase over the adjusted rate year revenue at current rates. The 96.50% increase equates to  
13 about a 4.39% increase per year since the last base rate increase over 22 years ago.

14

15 **Q. Will all rates increase by this 96.50 %?**

16 A. No, certain revenues are not impacted by the proposed rate increase. Therefore the rates  
17 which are impacted must be increased by a larger percentage (102.19%). See my calculation of  
18 the rate increase percentage needed on Schedule DGB – 13.

19

20 **Q. Does that conclude your introduction?**

21 A. Yes.

22

23

26  
27  
28  
29  
30

**Q. What test year did you use?**

A. I used the test year October 1st 2014 to September 30th 2015.

**Q. Please provide the Commission with the detailed steps you took to develop the test year.**

A. First, A&R began operations in the middle of September 2014, so the FYE December 31st, 2014 financial statements had to be adjusted to remove the partial month of September 2014. I obtained the detailed trial balances and subtracted the year to date balances at September 2014 from the final account balances at December 2014 to determine the October 2014 through December 2014 activity (DGB-3). The resulting balances were added to the year to date September 2015 trial balance to determine the twelve month test year balances ending September 2015.

**Q. What adjustments did you make to normalize the test year?**

A. I made 11 adjustments as follows:

1. I normalized the tariff revenues for Passengers (\$37,176) and Vehicles (\$18,856) to remove any fuel surcharge. The test year revenues by category are reconciled on schedule DGB-1a and use the ridership statistics for the period of October 1<sup>st</sup> 2014 thru September 30<sup>th</sup> 2015.
2. I added \$8,800 to the postal contract revenue to reflect a full year of revenue.
3. I added \$5,000 to the President Compensation to reflect a full year of expenditure.
4. I removed the fuel expense which exceeded the \$1.20 per gallon fuel floor. This expenditure was covered by rates associated with the fuel surcharge revenue which was removed as part of the first adjustment. The calculation of the \$48,104 reduction in fuel

1 expense is presented on Schedule DGB-4.

2  
3 5. I normalized Dock maintenance expense to remove one-time engineering for the repair of  
4 the Bristol dock and for installation of dolphins.

5  
6 6. I normalized Computer expense to reflect 12 month of software maintenance fees for the  
7 billing system of \$850 per month and twelve months of payroll processing fees for the  
8 accounting software. Much of the \$7,164 reduction was due to one-time software  
9 purchases and consulting to get the ticketing system operational.

10  
11 7. I normalized Legal expense to reflect 12 months of normal monthly expenses and remove  
12 one-time expenses resulting from the start of operations.

13  
14 8. I added \$1,345 to the PUC Assessment fees to reflect an expense of 0.23% of revenue.

15  
16 9. I added \$7,311 to the Gross receipts tax to reflect an expense of 1.25% of revenue.

17  
18 10. I eliminated the provision for federal income tax (FIT) amount of \$129,147 because this  
19 balance represented the reversal of FIT expense accrued due to the deferred Income Tax  
20 Calculation and not the taxes on the actual Test Year Profits. I have addressed the actual  
21 provision for the rate year in the rate year section of my testimony.

22  
23 11. I removed interest expense (\$63,455) from the test year cost of service because interest  
24 expense will be accounted for in the return on rate base calculation in the rate base  
25 section of my testimony.

26  
27 **Q. Mr. Bebyn, in your professional opinion does your adjusted test year present a proper**  
28 **normalized test year?**

29 A. Yes, I believe that the adjusted, normalized test year that I have prepared for this filing  
30 (DGB-1 & DGB-2) fairly presents the operations of A&R in a normal year on a ratemaking basis  
31 with currently approved rates.

1 **Q. Did you prepare any other schedules?**

2 A. Yes, I did. I prepared a test year balance sheet, income statement and a statement of changes  
3 in retained earnings (DGB-5, the unadjusted test year column of DGB-3, and DGB-6  
4 respectively). This information is required since the test year does not coincide with the latest  
5 fiscal year shown on the annual report.

6

7 **Q. Does that conclude your Test Year testimony?**

8 A. Yes.

9

10 **Q. What would you like to discuss next?**

11 A. I would like to review my rate year adjustments and the rate year revenue requirement.

12

26

27

28

29

30

31

1 REVENUE REQUIREMENT

2  
3 Rate Year - (July 1, 2016 – June 30, 2017)

4  
5 **Revenues:**

6  
7 **Q. Please explain how you calculated your rate year revenue levels.**

8 A. I left the rate year ridership levels at the same level as the test year. Given that the other non-  
9 rate revenues were adjusted in the test year, I left those revenue sources at the test year level as  
10 well.

11  
12 **Q. What is your projected Rate Year Revenue at current rates?**

13 A. I have projected \$584,877 as shown on Schedule DGB-8.

14  
15 **Q. Does that conclude your revenue analysis?**

16 A. Yes, it does. Next, I would like to discuss my expense adjustments (Schedule DGB-9).

17  
18 **Expenses:**

19 **Q. Mr. Bebyn, would you explain how you projected expense balances for the rate**  
20 **year?**

21 A. Yes. In an effort to keep this filing as simple as possible, I have left 30 of A&R's 35  
22 expense accounts at the test year level without further analysis. However, it was necessary  
23 to review the remaining accounts in detail to determine if they should be increased or  
24 decreased for the rate year.

25  
26 **Fuel Surcharge:**

27 **Q. Mr. Bebyn, would you proposing for the rate year?**

28 A. I am proposing increasing the fuel floor price as the Commission allowed with Interstate  
29 Navigation Company in their last rate filing Docket #4373. The State legislature established an

1 emergency fuel surcharge to protect transportation utilities from significant increases in fuel  
2 costs when the price of marine diesel fuel exceeds \$1.20 a gallon.

3 **Q. Mr. Bebyn, what amount was Interstate allowed in Docket #4373 and what are you**  
4 **proposing?**

5 A. The Commission allowed Interstate to increase the fuel floor price to \$3.25. I am proposing  
6 to increase the A&R fuel floor to \$2.00 to reflect current prices which have been below \$3.25 but  
7 have been between \$2.92 and \$1.90 for the past year (See Schedule DGB-4). I have calculated  
8 on Schedule DGB-10 that fuel expense for the rate year should be increased by \$33,260 to reflect  
9 this \$2.00 fuel floor.

10  
11 **Wharfage:**

12 **Q. Mr. Bebyn, how did you calculate wharfage?**

13 A. I have calculated a monthly expense of \$300 per month to the Town of Portsmouth and  
14 \$1,000 per month to the town of Bristol based on the existing leases.

#625 Dan Bebyn

15  
16 **Rental:**

17 **Q. Mr. Bebyn, why are you eliminating this expenditure for the rate year?**

18 A. A&R is currently renting a trailer to serve as its office. A&R will be constructing an office  
19 in the spring of 2014 and as a result will no longer need to rent the trailer. The costs to construct  
20 this new office have been included in the rate base calculation and in the rate year depreciation.  
21 (See Schedule DGB-11).

22  
23 **Rate Case:**

24 **Q. Mr. Bebyn, how did you calculate rate case expense for the rate year?**

25 A. Rate case expense for this docket was estimated at \$90,000 amortized over a three year  
26 period. The expenses were determined as \$35,000 to cover accounting, \$35,000 to cover  
27 legal and \$20,000 for Division expenses. We propose adjusting those expenses to actual at  
28 the end of the case.

1    **Depreciation:**

2    **Q. Mr. Bebyn, how did you calculate depreciation for the rate year?**

3    A. Depreciation is calculated each year using A&R's depreciation lapse schedule. For this  
4    filing, I obtained the depreciation lapse schedule and added appropriate capital items and  
5    calculated depreciation for each year to extend the lapse schedule calculations through the  
6    rate year. This calculation provided the appropriate rate year depreciation amount (Please  
7    see Schedule DGB-11).

8

9    **Q. Does that conclude your rate year cost of service testimony?**

10   A. Yes, I would like to now discuss rate base/rate of return.

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

26

27

28

29

30

1 **RATE BASE AND RATE OF RETURN**

2 **Q. Mr. Bebyn what is rate base?**

3 A. Rate base is a rate making term which relates to a utility's net investment in fixed assets  
4 plus working capital and adjustments for deferred debits and credits. The largest item, by  
5 far, in rate base is net utility plant (net fixed assets). For this Docket, I have calculated an  
6 average rate base for the rate year 7/1/2016 through 6/30/2017 (see DGB-11).

7 **Q. What do you mean by "net" investment?**

8 A. Net investment is original cost of utility plant "net" of (less) accumulated depreciation.  
9 My Schedule DGB-11 shows the actual net utility plant at 9/30/2015 (test year) rolled  
10 forward by adding actual and expected purchases and subtracting appropriate depreciation  
11 through 6/30/16 the interim year. All interim additions and deletions (depreciation) were  
12 made to arrive at a beginning balance for net utility plant for the rate base at 7/1/2016 (the  
13 beginning of the rate year). This calculation was followed by a calculation reflecting rate  
14 year additions and deletions to arrive at the rate year ending rate base at 6/30/2017. The  
15 average of the resulting beginning and ending rate base amounts was used for the average  
16 rate year rate base.

17

18 **Q. Is the investment in rate base simply used to pay a return on stockholder**  
19 **investment?**

20 A. No. Investment in rate base times the weighted cost of capital and debt is used to  
21 compensate stockholders and pay the utility's long term debt interest.

22

23 **Q. Why would assets that were obtained through borrowing be in rate base?**

24 A. Rate base is used in the rate process to determine the appropriate return on rate base  
25 (revenue above cost) for the utility. This return is used by the utility to gain profit for the  
26 stockholders and pay interest to the banks on long term debt. Therefore, it is necessary to  
27 include assets which are purchased with borrowed monies as well as assets purchased with  
28 investment capital.

29

1 **Q. Is that why interest expense is considered a "below the line" account and**  
2 **excluded from your rate year cost of service?**

3 A. Yes. Interest expense is a "below the line" other expense for a regulated utility and as such  
4 is backed out of the cost of service expense accounts. As stated above, payment of interest  
5 expense is provided from the return on rate base.

6

7 **Q. Mr. Bebyn how did you calculate working capital?**

8 A. Given the many issues already addressed in this docket, A&R is not requesting working  
9 capital (consistent with the last rate filing). However, by not requesting a working capital  
10 allowance at this time, A&R is not agreeing that such an allowance should not be applied and  
11 A&R reserves the right to request the allowance in the future.

12

13 **Q. Mr. Bebyn, how did you calculate the Rate of Return on Rate Base?**

14 A. I projected the rate year debt and equity. I then calculated the weighted cost of debt and  
15 equity using the existing interest rates for A&R's debt and my proposed return on equity (See  
16 Schedule DGB-12).

17

18 **Q. Mr. Bebyn, how did you calculate the Return on Equity?**

19 A. First, I reviewed the return on equity allowed in other rate cases for Interstate Navigation  
20 Company, which is the only other lifeline year round ferry in Rhode Island. The Commission  
21 allowed an 11% return to Interstate Navigation Company in their last rate filing Docket #4373.  
22 Even though Interstate is a larger utility than A&R, and A&R has a greater risk profile, I believe  
23 that using the 11% would be a conservative position.

24

25 **Q. Mr. Bebyn, does that conclude your Rate Base and Rate of Return testimony?**

26 A. Yes.

RATE DESIGN

**Q. Mr. Bebyn, what rate design issues are in this filing?**

A. A&R has proposed an "across-the-board" rate increase for all regulated rates in this filing.

**Q. How did you calculate new rates for the rate year?**

A. I have attached to my testimony Schedules DGB-13, 14, 15, and 16. Schedule DGB-13 shows the across-the-board rate increase required on revenues which are available for increase. This schedule calculates the across-the-board increase for the remaining Schedules DGB 14-16. Schedule DGB-14 applies the across-the-board increase to passengers and vehicles. Schedule DGB-15 does the same for trailers. Schedule DGB-16 calculates the commodity rates.

**Q. Mr. Bebyn, does that conclude your Rate Design testimony?**

A. Yes.

1       **RATEPAYER IMPACT**

2  
3       **Q. What is the impact on ratepayers of this rate increase?**

4       A. The across-the-board increase results in all regulated rates increasing by 102.19%. Some  
5       of the more commonly used rates increase as follows:

6

	Current Rates	Proposed Rates	Dollar Increase
Adult One Way	\$ 2.85	\$ 5.75	\$ 2.90
Adult Round Trip	\$ 5.70	\$11.50	\$ 5.80
Children One Way	\$ 1.00	\$ 2.00	\$ 1.00
Children Round Trip	\$ 2.00	\$ 4.00	\$ 2.00
Bicycles	\$ 0.55	\$ 1.10	\$ 0.55
Cars, Pick-up Trucks, Van (one-way)	\$15.50	\$31.35	\$15.85
Cars, Pick-up Trucks, Van (round-trip)	\$31.00	\$62.70	\$31.70

7

8       **Q. When is rate relief needed?**

9       A. Obviously, A&R is operating at a loss and A&R requests rate relief as soon as possible.  
10       Also, A&R is a seasonal utility, with a significant portion of its revenues generated in the  
11       summer months of the year. Therefore, if rate relief could be granted no later than the start of  
12       Memorial Day weekend of 2016 (i.e. May 27, 2016), that would be very helpful.

13  
14       **Q. Does that conclude your testimony?**

15       A. Yes.

Calculation of Adjusted Test Year Revenues  
A&R MARINE CORP

Schedule DGB-1

INDEX OF FILING REQUIREMENTS

---

PART TWO.  
ADDITIONAL REQUIREMENTS FOR FILINGS OF  
GENERAL RATE SCHEDULE CHANGES

2.1 PURPOSE. **No filing required.**

2.2 APPLICABILITY. **No filing required.**

2.3 FILING

(a) Notice to the Commission of proposed general rate schedule changes by a public utility pursuant to R.I.G.L. §39-3-11, shall be given by a filing with the Commission pursuant to Part One of these rules, accompanied by the documents, data and information in the manner and form required by Part Two of these Rules, unless a motion for an exemption from any requirements accompanies the filing. **This Filing**

(b) In the event that any information, document or data required by this Part is unavailable and/or its ascertainment or submission would be unduly burdensome or it is not relevant in light of the schedule change which is the subject of the application, the applicant may file with the application a motion for an exemption from the requirement. The motion shall set forth in detail the reasons why the information, document or data cannot or should not be submitted. The granting of such a motion shall not exempt the applicant from supplying the information, document or data in response to a subsequent data request. **Not applicable**

(c) Commission-ordered suspension periods of up to six months commence on the date a general rate filing would otherwise take effect. After docketing, any change or changes in the filing which would, singly or in the aggregate, increase the overall cost of service by more than one percent (1%), or an individual rate by more than five percent (5%), may be treated as a new filing, triggering a new six -month period for Commission review and decision. **Not applicable.**

2.4 NOTICE OF FILING PROPOSED GENERAL RATE CHANGES

Within ten (10) days after filing for general rate schedule changes, the applicant shall cause a notice of the filing, in a form to be approved by the Commission, to be published in the newspaper of widest circulation within the applicant's service territory. In addition, the company shall include a notice of its proposed general rate schedule changes in the next general customer billing, if within sixty (60) days following the filing of the application, or by a separate mailing. **Will be done.**

2.5 ITEMS TO BE INCLUDED IN THE FILING

The following materials shall be included in or shall accompany the filing:

(a) Rate Schedules; Terms and Conditions. The current and proposed rate schedules and the terms and conditions under which the utility provides services and/or makes non-tariffed charges. **Enclosed with filing.**

(b) Complete Direct Case. An original and nine (9) copies of the applicant's complete direct case in support of the rates applied for, which shall be in the form of prepared written testimony and exhibits. **DGB testimony.**

- (c) Additional Documents. Two (2) copies of each of the following:
- (1) Annual Report to the Commission for the last two (2) years, if reports have not been previously filed with the Commission. **Previously Filed.**
  - (2) Federal Energy Regulatory Commission or Federal Communications Commission annual reports for the last two (2) years, where applicable, if not previously filed with the Commission, and any correspondence or written comments in connection with these reports. **Not applicable.**
  - (3) The latest Federal Energy Regulatory Commission or Federal Communications Commission audit report (including management letter) and any written response to the report or management comments. Un-resolved or outstanding matters should be highlighted. **Not applicable.**
  - (4) Securities and Exchange Commission Annual 10-K reports filed for the last two (2) years and any Quarterly 10-Q reports filed for the period(s) subsequent to the latest 10-K report. **Not applicable.**
  - (5) Any prospectus issued during the last two (2) years. **Not applicable.**
  - (6) Annual reports to stockholders for the last three (3) years. **Not applicable.**
  - (7) Statement reconciling any significant differences between items shown in the filing and items in any of the above reports. **See Schedules DGB-3, DGB - 5 and DGB-6.**

If such documents have been provided to the Commission in a prior proceeding within twelve (12) months of the filing, additional copies need not be filed unless requested by the Commission or any party. **Not applicable.**

(d) Service of Documents. A complete set of the documents filed pursuant to these rules shall be served upon the Attorney General at the time of filing with the Commission. **Done**

(e) Index. The applicant shall present an index outlining and identifying the responses to the information filed pursuant to Part Two, Sections 2.4 through 2.10, as they apply to the applicant. The applicant shall indicate whether any specific item is not applicable (see Appendix C). **This document is the index.**

## 2.6 TEST YEAR AND RATE YEAR FILING

(a) Test Year. The filing shall present cost of service and rate base schedules for a test year period. The test year constitutes a historic year of actual data for a period ending within nine (9) months of the filing date. The test year may be for such other period as the Commission may allow. **See Schedules DGB-1, DGB -2, DGB -3 and DGB-4.**

(b) Rate Year. The rate year is the twelve-month period for which new rates are designed to recover the proposed cost of service. The rate year period shall be the filed test year or such other yearly period which commences no later than six (6) eight (8) months after the proposed effective date of the new tariffs. **See Schedules DGB-7, 8 and 9.**

(c) Adjustments to the Test Year. Where a rate year is filed for a period different from the test year, supporting schedules or workpapers shall be filed to disclose the manner in which the rate year amounts were calculated. The adjustments to the test year shall be fully explained in written testimony, and the source of the data in support of the adjustments shall be presented, or disclosed, as

appropriate. See Schedules DGB-10 through DGB-12.

(1) Normalization Adjustments. These adjustments shall be made to the test year to present a reasonable/normal amount for one full year of operations. The test year must be normalized to reflect expected results for a typical future year. All items of unusual magnitude which occurred during the test year, but which are not expected to recur to a significant degree beyond the test year, should be adjusted to reflect what is reasonably to be expected in the future. Correspondingly, adjustments should be made to reflect items that are fixed, determinable, and likely to occur in the future, but did not occur to a significant degree during the test year. See Schedules DGB-1, DGB -2 and DGB-3.

(2) Proforma Adjustments. These adjustments serve to walk-up the normalized test year amounts to the balances presented for the rate year. See Schedules DGB -8 and DGB -9 and supporting Schedules DGB -10 through DGB -12.

(3) Accounting Change Adjustments. Any change in the manner of recording accounting data on the company's books shall be explained and the financial impact shown. None.

(4) Inflationary adjustments. These adjustments are based upon projected cost increases, e.g. Consumer Price Index changes. None.

## 2.7 ATTESTATION OF FINANCIAL DATA

The financial data shall be accompanied by a statement attesting to the accuracy of the financial data presented in the rate base, cost of service and other financial statements; that such data purports to reflect the books of the company, and the results of operations; and that all differences between the books and the test year data, and any changes in the manner of recording an item on the company's books during the test year, have been expressly noted. This attestation shall be signed by the chief financial officer or a person duly authorized by such financial officer. See attestation of Stephen Antaya, President.

## 2.8 SUPPORTING INFORMATION AND WORKPAPERS TO BE FILED BY INVESTOR-OWNED UTILITIES

In addition to the materials required by Rule 2.5, any utility that is a private or publicly-held investor-owned entity (as opposed to a municipal or quasi-public entity that is a not-for-profit organization), is required to file the following:

(a) Rate base schedules for the test year period and for the proposed rate year.

The test year shall reflect an average rate base based upon a monthly averaging of balances, or beginning and end of year averages where such amounts are not significant in relation to the total rate base (less than 2% of rate base). See Schedule DGB -11

(b) Cost of service schedules for the test year and for the proposed rate year. See Schedules DGB -7 through DGB -12 for the rate year and Schedules DGB 1-6 for the test year.

(c) The capitalization of the utility for the following periods:

- (1) the test year, either average balances or end of test year balances; See Schedule DGB - 12.
- (2) the actual capitalization of the utility for the latest date available prior to filing; See Schedule DGB-12.
- (3) the capital structure utilized by the company for the determination of new rates. If this differs from the actual capital structure data, the proforma changes are to be fully explained and supported. See DGB Testimony pages 24 through 26 and DGB-12.
- (d) Workpapers supporting any claim for an allowance for working capital. Working Capital not Requested.
- (e) Workpapers supporting allocations of rate base and cost of service amounts among jurisdictions (intra/inter-state) or entities operated from or in association with the utility. Not applicable.
- (f) Workpapers detailing additions to or retirements from plant and depreciation accounts where proforma amounts differ from the test year. Detail data in support of depreciation charges is required, including asset lives, salvage values/costs, etc. for major account categories. See DGB Testimony page 9 and Schedules DGB-11.
- (g) An analysis of material and supply inventory balances included in rate base for test year and rate year periods. Gas companies should provide monthly inventory figures for the test year for gas inventories. Not applicable.
- (h) Workpapers detailing the test year and rate year revenues by source, tariff, rate class, etc. The sales volumes/quantities and customer counts by rate class shall be presented. The basis/calculation for rate year sales volumes and customer counts is to be provided. The total rate year revenues must be supported by a billing analysis utilizing the above data and the proposed rates. See Schedule DGB-1a, and Schedule DGB-17.
- (i) For each rate class, the effect of the proposed rate changes shall be presented in a comparative billing format (current and proposed) for typical (or varying) usage levels. A copy or sample of the utility's actual billing statement shall be presented. See DGB Testimony pg 13 – Ratepayer impact.
- (j) An analysis of revenues and associated expenses for the test year pertaining to adjustment clauses (fuel, purchased power, gas or other). All appropriate data should be disclosed, including refund information, total adjustment clause revenues, gross receipts tax payments, etc. The difference between adjustment clause revenues and recoverable expense for the test year must be shown. In general, revenues and expenses relating to adjustment clauses will not be reflected in the cost of service, except for that portion which is to be included in the firm/base rates of the utility. See Schedules DGB- 4.
- (k) A calculation of the test year and rate year federal income tax amounts. For the test year, present a reconciliation of book and taxable income as required and filed in the Annual Report to the Commission. See Schedule DGB-12.
- (l) A calculation of the test year and rate year deferred federal income tax amounts. Indicate which book/timing differences are specifically provided for in calculating the rate year deferred federal income taxes. Show and explain the treatment for any changes in deferred federal income tax balances as a result of any

change in the federal tax laws to include (but not limited to) excess deferred taxes created by a reduction in the federal income tax rates. See supporting Schedule "Item 2.8 (l) Deferred Federal Income Tax" attached to this index.

(m) A description of the treatment of investment tax credits and any elections made under the Internal Revenue Code. Not Applicable.

(n) If the company files a consolidated tax return, show the estimated rate year tax savings resulting from the filing of a consolidated return. Explain fully the method of computing the tax savings. Not Applicable.

(o) A calculation of the rate year tax expense for the Rhode Island Gross Receipts tax. See DGB Testimony page 5 and Schedule DGB-7.

(p) A calculation and explanation of the method used to calculate the rate year municipal tax expense (by city/town, if applicable). Also, show the municipal tax expense (by city/town) for the prior three (3) years. Not Applicable.

(q) Show the number of employees at beginning and end of test year and the dollar amount of overtime paid during the test year and the previous two (2) years. Indicate the number of employees and the amount of overtime provided for in the cost of service for the rate year. See supporting Schedule "Item 2.8 (q) Employee Counts and Overtime" attached to this index.

(r) Present a summary of transactions with affiliated companies, officers, and stockholders which occurred during the test year. To be included are the following: billings to/from; loans to/from; sales/purchases of goods, services or property; expense allocations among affiliates; receivables to/from affiliates and others. Provide beginning and end of test year amounts owed and the latest balance(s) prior to the filing. See supporting Schedule "Item 2.8 (r) Related Parties" attached to this index.

(s) The following statements or financial data are to be provided when the test year does not coincide with the latest fiscal year shown in the annual report provided in the filing:

(1) a balance sheet as of the end of the test year; See Schedule DGB-5.

(2) an income statement for the test year; See Schedule DGB-3.

(3) a statement of changes in retained earnings for the test year. See Schedule DGB-6.

(t) If utility assets are pledged as security on loans, notes, or any other form of debt instrument, full disclosure shall be made as to: description or identification of assets pledged; description/identification of the debt instruments; outstanding debt balance(s); disposition of debt proceeds; any default or impending default under the terms of any loan provisions; and any other pertinent information. See Schedule DGB-12

(u) A summary of expenses incurred and projected to be incurred related to the instant rate case filing, and a schedule showing any unamortized amounts from prior rate filings. This schedule shall reconcile the total amount of expense allowed in the last order, the recovery (or amortization) of expense through the test year, and the projected balance of any unrecovered (unamortized) amount at the beginning of the rate year. See DGB Testimony pg 8.

(v) The utility shall present information for the preceding five (5) years disclosing the following data, as appropriate for the utility:

(1) unaccounted for water; Not Applicable.

(2) loss on transmission of electricity or gas; Not Applicable

- (3) the utility's own use of water, electricity, or gas. Not Applicable
- (w) A summary of the status of compliance and reporting required by prior Commission orders. Not Applicable.

PUBLIC UTILITIES COMMISSION

IN RE: A & R MARINE CORP., d/b/a : DOCKET No.: \_\_\_\_\_  
PRUDENCE & BAY ISLANDS TRANSPORT :

---

**PROPOSED NOTICE OF FILING**

---

## NOTICE OF FILING

A & R Marine Corp., d/b/a Prudence & Bay Islands Transport (A & R) hereby gives notice that on November \_\_, 2015, A & R filed with the Rhode Island Public Utilities Commission (the "Commission") new rates and schedules designed to increase revenues by \$564,409 (Docket No. \_\_\_\_). The impact of the proposal as currently filed is an increase of 96.50%.

As filed, the customer impact for certain rate classes between Bristol and Prudence Island would be as follows:

	<b>Current Rates</b>	<b>Proposed Rates</b>	<b>Dollar Increase/Decrease</b>
<b>Adult One Way</b>	\$ 2.85	\$ 5.75	\$ 2.90
<b>Adult Round Trip</b>	\$ 5.70	\$11.50	\$ 5.80
<b>Children One Way</b>	\$ 1.00	\$ 2.00	\$ 1.00
<b>Children Round Trip</b>	\$ 2.00	\$ 4.00	\$ 2.00
<b>Bicycles</b>	\$ 0.55	\$ 1.10	\$ 0.55
<b>Cars, Pick-up Trucks, Vans (one-way)</b>	\$15.50	\$31.35	\$15.85
<b>Cars, Pick-up Trucks, Vans (round-trip)</b>	\$31.00	\$62.70	\$31.70

The new rates are proposed to take effect thirty (30) days from the filing date. However, the Commission can suspend the effective date of the proposed rates and no rate change will take effect until the Commission has conducted a full investigation of the proposal. The Commission will publish a notice of the hearing dates when they are scheduled. At that time, ratepayers may comment on the proposal.

A copy of the filing is available at the offices of A & R's attorney, Michael R. McElroy, 21 Dryden Lane, P.O. Box 6721, Providence, RI 02940-6721, and at the Public Utilities Commission, 89 Jefferson Boulevard, Warwick, RI 02888, and may be examined by the public during business hours. This notice is given pursuant to the Commission's Rules of Practice and Procedure.
