Re: Docket No. 4607 – In re: Application for Standard Certification as Eligible Renewable Energy Resource Filed by Deepwater Wind Block Island, LLC – New Generation

Dear Ms. Massaro:

I am providing this letter and the accompanying enclosures on behalf of Deepwater Wind Block Island, LLC (“Deepwater”) in accordance with the Order entered in the above-captioned docket granting Deepwater’s application seeking certification of the Block Island Wind Farm Generation Unit as a New, Wind Renewable Energy Resource. In the Order, the Rhode Island Public Utilities Commission (“PUC”) required that Deepwater “provide the PUC with written documentation verifying Commercial Operation and . . . evidence of the Generation Unit’s NEPOOL-GIS Asset Identification Number, including Market Settlement System (MSS) designation.” To fulfill these requirements, enclosed please find the following documents:

- An email from Jason Schulte at ISO-NE confirming that the Block Island Wind Farm is now Commercial effective 12/09/2016 and identifying the Block Island Wind Farm with the Asset Identification Number 38495; and
- A screenshot of Deepwater’s account in the NEPOOL-GIS system.

Thank you for your attention to this matter. If you have any questions, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam M. Ramos".
