RE: Data Request Dockets: 4905, 4906, 4907 & 4908

Dear Cindy:

In reply to your data request to the above reference dockets:

PUC 1-1: Please provide a one-line diagram of the Dry Bridge Solar 1 through 4 projects. Please also indicate on the diagram:

1. All retail and wholesale meters,

Please refer to the attached Exhibits:

1. Exhibit 1: The solar site layout showing four (4) separate, color coded, 10 MW AC facilities situated on two separate LOTS.
2. Exhibit 2: The solar site layout with expanded view of retail meters
3. Exhibit 3: The one-line diagram from National Grid's System Impact Study Dated June 8, 2018 showing four (4) individual meters.

2. Boundaries of ownership of facilities and the facility owner(s), including National Grid's distribution system and all points of common coupling,

Energy Development Partners has entered into a agreement with the current ownership to purchase two (2) separate lots in which the individual solar facilities will reside. Each lot will consist approximately of two 10MW AC solar facilities.

Please refer to the attached Exhibits:

1. Exhibit 3: The one-line diagram from National Grid's System Impact Study Dated June 8, 2018 showing four (4) individual points of common coupling.
2. Exhibit 4: The ALTA survey of Plat 81, LOT 2
3. Exhibit 5: The ALTA survey of Plat 105 LOT 2

c. In which program each generation resource will be enrolled (e.g., Renewable Energy Growth, net metering, qualifying facility, etc.).

Each 10MW AC project has entered into separate Net Metering Credit Agreements under General Laws Title 39- Section 26.4 with Brown University as announced on Thursday, January 17, 2019. Brown University will control the sites thru a lease agreement.

If the Commission requires any additional information please contact my office at 401-349-1229. Thank you.

Yours truly,
