**RE: National Grid's Electric Pension Adjustment Factor Filing
For the Twelve-Month Period Ending March 31, 2019
Docket No. 4958**

Dear Ms. Massaro:

On behalf of National Grid, I have enclosed the Company's proposed Pension and Postretirement Benefits Other than Pensions (PBOP) Adjustment Factor (PAF) and annual pension and PBOP reconciliation for the 12-month period ending March 31, 2019. This filing is submitted pursuant to the Company's Pension Adjustment Mechanism Provision (Pension Provision), R.I.P.U.C. No. 2119, which the Rhode Island Public Utilities Commission approved in Docket No. 4323. The Pension Provision allows for the recovery or refund of the prior year's reconciliation of the Company's actual pension and PBOP expenses to the Company's pension and PBOP allowances included in base rates.

This filing includes the pre-filed joint direct testimony and schedules of Jeffrey D. Oliveira and James H. Allen in support of the proposed PAF. The joint testimony of Mr. Oliveira and Mr. Allen describes the origin of the Company's PAF and provides the calculation of the reconciliation of pension and PBOP costs to the allowance for recovery in base distribution rates. The joint testimony also presents the Company's proposed PAF as well as the associated the typical bill impacts. Finally, the joint testimony presents the status of the recovery of the pension and PBOP net under-recovery incurred during the period ending March 31, 2017 which is being recovered through the currently effective PAF.

III. Pension and PBOP Expense Reconciliation

Q. What is the genesis of the Pension Adjustment Mechanism?

A. The PUC approved the PAF for the Company’s electric distribution operations in the Company’s 2012 distribution rate case in Docket No. 4323, Order No. 21011 (2012 Rate Case). The electric PAF is similar to the mechanism that is in effect for the Company’s gas operations. On an annual basis, the Company reconciles its actual Pension and PBOP expenses against the associated allowance in base distribution rates as determined in the most recent distribution rate case through this mechanism, which is provided for under the Company’s Pension Provision. Any difference between the Pension and PBOP expenses and the associated allowance, either positive or negative, is reflected in rates assessed to the Company’s electric customers through the PAF.

Q. Generally, how does the reconciliation of Pension and PBOP expense operate?

A. The PAF is based on the difference between the Company’s actual Pension and PBOP expense for the prior twelve-month period ended March 31 and the allowance included in base distribution rates. In the Company’s 2012 Rate Case, the rate allowances for both Pension and PBOP were established at then-current levels. In the Company’s general rate case filed in 2017 in Docket No. 4770 (2017 Rate Case), the rate allowances for both Pension and PBOP were established for each of the three years commencing September 1, 2018. The base rate allowance for the reconciliation period presented in this filing

1 reflects five months (April 2018 to August 2018) of Pension and PBOP recoveries
2 pursuant to the 2012 Rate Case and seven months (September 2018 to March 2019) of
3 Rate Year 1 Pension and PBOP recoveries pursuant to the 2017 Rate Case. In addition,
4 the Company will contribute to the Pension and PBOP plans at the “Minimum Funding
5 Obligation” level. The Minimum Funding Obligation level is equal to the amount billed
6 to customers plus the amounts of capitalized Pension and PBOP costs. The amount billed
7 to customers includes: (1) the Pension and PBOP allowance in base distribution rates, and
8 (2) plus or minus the amount billed or credited to customers through the PAF. If the
9 Company does not fund its Pension and PBOP plans at the Minimum Funding Obligation
10 level, the Company will pay a carrying charge to customers at the weighted average cost
11 of capital. This payment would be applied to the cumulative five-quarter average
12 shortfall between the Minimum Funding Obligation level and amounts the Company
13 contributes to the Pension and PBOP plans, plus amounts paid to the Service Company
14 for allocated Pension and PBOP costs.

15
16 **Q. Has the Company performed this reconciliation for the period ending March 2019?**

17 A. Yes. This reconciliation is included as Schedule JDO/JHA-1.

18
19 **Q. What is the result of the Company’s reconciliation?**

20 A. The Company’s reconciliation reflects that it has under-recovered Pension expense in the
21 amount of \$2,794,009 and over recovered PBOP expense in the amount of \$3,127,081 for

1 the twelve months ending March 31, 2019 (FY 2019). In addition, the Minimum
2 Funding Obligation is over-funded on a cumulative basis, and consequently a carrying
3 charge is not required.

4
5 **Q. How is the Company reflecting transmission-related Integrated Facilities
6 Agreement (IFA) Pension and PBOP bill credits in the FY 2019 PAF reconciliation?**

7 A. The FY 2019 IFA recovery is being reflected as a credit in the derivation of current year
8 Pension and PBOP expense on Page 1 of Schedule JDO/JHA-1. Line (9) of Schedule
9 JDO/JHA-1, Page 1, reflects FY 2019 Pension IFA recovery of \$903,058 and FY 2019
10 PBOP IFA recovery of \$885,792.

11
12 **IV. Pension and PBOP Adjustment Factor**

13 **Q. What is the Company's proposed PAF to be effective on October 1, 2019 and how is
14 it calculated?**

15 A. The proposed PAF is calculated on Schedule JDO/JHA-2. The net over-recovery on Line
16 (5) plus the interest on the net over-recovery during the recovery period on Line (6) is
17 divided by the forecasted kWhs during the recovery period (October 1, 2019 through
18 September 30, 2020) on Line (8), resulting in a credit factor of \$0.00005 per kWh on
19 Line (9).

20

21

1 **Q. Is the Company providing a typical bill analysis to illustrate the impact of the**
2 **proposed PAF on each of the Company's rate classes?**

3 A. Yes. The typical bill analysis illustrating the monthly bill impact of the proposed PAF on
4 each rate class is provided in Schedule JDO/JHA-5. The impact of the proposed PAF on
5 a typical residential customer receiving Standard Offer Service and using 500 kWhs per
6 month is an increase of \$0.10, or approximately 0.1 percent, from \$106.86 to \$106.96.

7

8 **Q. Has the Company included a status of the refund of the Pension and PBOP over-**
9 **recovery incurred during FY 2017 that the Company is crediting to customers**
10 **through the PAF previously in effect during the twelve months ending September**
11 **30, 2018?**

12 A. Yes. Page 1 of Schedule JDO/JHA-3 shows the status of the Pension over-recovery
13 incurred during FY 2017. Page 2 of Schedule JDO/JHA-3 shows the status of the PBOP-
14 related over-recovery incurred during FY 2017. On October 31, 2018, taking into
15 consideration September 2018 usage billed in October 2018, the amount of deferred
16 Pension costs remaining, including interest, is a credited to customers of \$54,073, and the
17 amount of deferred PBOP costs, including interest, to be recovered from customers is
18 \$33,944, or a net amount to be credited to customers of \$20,129, which is reflected in the
19 current year's proposed PAF on Line (4), Page 1, of Schedule JDO/JHA-2.

20

1 **Q. Has the Company included a status of the Pension and PBOP net over-recovery**
2 **incurred during FY 2018 that is reflected in the PAF currently in effect?**

3 A. Yes. Page 1 of Schedule JDO/JHA-4 shows the status of the Pension under-recovery
4 incurred during FY 2018. Page 2 of Schedule JDO/JHA-4 shows the status of the PBOP
5 over-recovery incurred during FY 2018. The net of the Pension and PBOP balances is
6 being credited to customers through the PAF implemented on October 1, 2018 as
7 approved by the PUC in Docket No. 4855. Through June 30, 2019, \$0.4 million of
8 deferred Pension costs remain to be recovered through September 2019, while \$0.9
9 million of deferred PBOP costs remain to be credited to customers through September
10 2019, or a net amount to be credited of \$0.5 million. The Company will continue to bill
11 the currently effective PAF factor through September 30, 2019, including revenue from
12 September 2019 kWh deliveries billed in October 2019. Any balance remaining at that
13 time, positive or negative, will be reflected in next year's proposed PAF.

14
15 **Q. Is the Company providing a proposed Summary of Retail Delivery Rates, RIPUC**
16 **No. 2095, reflecting the PAF proposed in this filing?**

17 A. No, not at this time. The Company currently has proposed base distribution rates for
18 Rate Year 2 of its 2017 Rate Case for effect September 1, 2019 pending PUC approval in
19 Docket No. 4770. In addition, concurrent with this filing, the Company is filing with the
20 PUC for review and approval its proposed Infrastructure, Safety and Reliability (ISR)
21 Plan's CapEx and Operation and Maintenance reconciliation factors for effect on October

1 1, 2019. The Company has also submitted a Renewable Energy (RE) Growth Program
2 Factor Filing with proposed factors also for effect on October 1, 2019. The Company
3 will file a Summary of Retail Delivery Rates effective October 1, 2019 in compliance
4 with the PUC's orders in this proceeding and in the ISR reconciliation and RE Growth
5 proceedings.

6

7 **V. Conclusion**
