Luly Massaro, Clerk  
Public Utilities Commission  
89 Jefferson Blvd.  
Warwick RI 02888

**Re: Docket No. 5058**

Dear Ms. Massaro,

The Division of Public Utilities and Carriers (“Division”) has reviewed the Application to Add Terms and Conditions for Municipal Aggregators that was filed by The Narragansett Electric Company, d/b/a National Grid (“National Grid” or “Company”) dated August 11, 2020. In undertaking its review of the proposed amendments to RIPUC No. 2222 reflected in the filing, the Division has not engaged a professional consultant. Therefore, the Division’s recommendation is not intended to reflect an expert opinion as to the propriety of the proposed tariff changes.

On September 29, 2020, the Division received the following documents: (1) Good Energy Position on Terms and Conditions for Municipal Aggregators and (2) Comments of Colonial Power Group, Inc. The recommendation contained herein further does not opine on the merit (or lack thereof) of the proposed amendments to the proposed filing advanced by either Good Energy or Colonial Power Group.

The Division has reviewed National Grid’s filing, and briefly discussed the proposed additional terms and conditions with the Company on August 25, 2020. Subject to the limitations described herein, and, as assessed from an overall standard of reasonableness, the Division believes the proposed tariff terms and conditions are not unreasonable, and therefore, recommends their approval.

Very truly yours,

Leo J. Wold  
Deputy Chief of Legal Services, DPUC
