In re: Revolution Wind Advisory Opinion
to the RI Energy Facility Siting Board

Docket No. 5151

**MOTION FOR INTERVENTION OF
THE NARRAGANSETT ELECTRIC COMPANY d/b/a NATIONAL GRID**

NOW COMES The Narragansett Electric Company d/b/a National Grid (National Grid) and moves to intervene in this proceeding as an interested party pursuant to Rule 1.14 of the Public Utilities Commission Rules of Practice and Procedure.

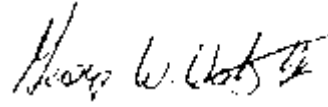

National Grid owns and operates the Davisville Substation and existing overhead transmission lines that are proposed to be upgraded, expanded and/or reconfigured in order to interconnect the Revolution Wind project. National Grid also owns the real property upon which Revolution Wind proposes to construct a new onshore substation, new overhead transmission lines and new underground transmission cables. Accordingly, National Grid has strong, direct interests in this proceeding that are not adequately represented by the existing parties. The Energy Facility Siting Board granted National Grid's motion to intervene in *In re: Revolution Wind LLC Application to Construct a Major Energy Facility*, Docket SB-2021-01, at its Preliminary Hearing on March 22, 2021.

WHEREFORE, The Narragansett Electric Company requests that it be allowed to intervene as a party.

Respectfully submitted,

The Narraganset Electric Company
d/b/a National Grid

By Its Attorney,

George W. Watson, III
Robinson & Cole LLP
