

**Christopher Feeney, Program Management/Construction Management, Chief Engineer**

Mr. Feeney is a Senior Associate twenty five years of experience in program management, planning, design, and construction services. For the past twenty years, he has served in key technical/engineering and leadership roles for the Program Management Team for the Narragansett Bay Commission CSO Abatement Program. Christopher's involvement with the NBC program has spanned each of the key phases of the \$1.3B program. He has been Engineer of Record on several CSO, water resource, and wastewater utility design contracts for Federal, State, and municipal clients. Mr. Feeney holds a Bachelor of Science in Civil and Environmental Engineering from the University of Rhode Island and Master of Science in Civil and Environmental Engineering from Northeastern University. He is a Registered Professional Engineer in Rhode Island, Massachusetts, and Connecticut.
