**Subject:** RE: [EXTERNAL] : Please delay the transfer of utilities system

Hello Selene,

I'm confirming receipt of your comments concerning the transfer of ownership of the Narragansett Electric Co. to PPL Rhode Island which proceeding is currently before the Division of Public Utilities and Carriers. Your comment will be placed in the docket as public comments and distributed to the service list in Docket D-21-09.

Regards,  
Luly

**Subject:** [EXTERNAL] : Please delay the transfer of utilities system

Hello, I can not make it to the public hearing tonight but this is my submission of testimony.

I am a resident of RI. I work with folks regularly who struggle with utility payments and poor lead pipe systems. There is no intentional seen here in how this would help folks, only make situations worse.

We already voiced our concerns when Providence tried to privatize its water system. This again is not the right course of action.

Water is a right and necessary basic need. It should not be left up to those not of the community and who are profit-minded.

Also, we can not do anything that sets us further back in terms of climate change.

Please be accountable to the people and do not go through with this plan.

Best,

Selene Means
