

AG RR 3

Request:

Provide any documents that exist to show the expected efficiencies to The Narragansett Electric Company resulting from PPL ownership and what types of savings those efficiencies might mean for Rhode Island customers.

Response:

PPL Corporation and PPL Rhode Island Holdings, LLC (collectively, "PPL") refer to the response to AG RR 1 for a description of the expected efficiencies and synergies PPL expects The Narragansett Electric Company ("Narragansett") will realize from PPL ownership.

PPL refers to Attachment PPL-DIV 1-54-1, which details the shared services PPL expects to provide to Narragansett, as well as an estimate for the cost of those services. PPL continues to develop its business plan for Narragansett, including its evaluation of potential savings from synergies and efficiencies, but has not yet completed that process. Accordingly, Attachment PPL-DIV 1-54-1 provides the most current completed estimate of PPL's managed costs to operate Narragansett.
