Re: Form 1240 and 1205 Rate Filings

Dear Mr. Martin:

Enclosed are an original and 4 copies of FCC Forms 1240 and 1205 in connection with CoxCom, Inc., d/b/a/ Cox Communications New England's ("Cox") annual filing for adjustments to basic service, equipment and installation prices. FCC Forms 1240 represent communities as listed on the Attached "LFA Listing".

The selected basic service, equipment and installation prices to be implemented are listed on the attached "Proposed Rate Structure".

Cox has chosen December 1, 2006 as its filing date and will be implementing the attached service, equipment and installation price adjustments on April 1, 2007, based on the filed operator-selected rates.

Given the uncertainties surrounding the likely transition of public access operations and management to Rhode Island Public Broadcasting, Cox deferred certain PEG access capital expenditures in the second half of 2006. As a result, monthly per-customer expense for PEG access management, which has been above \$.50 per customer per month for the past several years, decreased to \$.485 cents per customer per month during the April 1, 2006 to September 30, 2006 true-up period. Had our capital spending levels met what we have spent in previous years, the monthly PEG expense would have remained at or above \$.50 per customer per month.
